# GERMAN DIRIGIBLE STARTLES FRANCE

War Balloon in Trouble With Air Currents Forced to Land Across Border.

POPULACE MUCH EXCITED

Two Companies of Infantry Are Required to Keep People at Distance - Navigators Ignorant of Whereabouts.

Id'NEVILLE, France, April 1.—The German military dirigible airship Zeppelin IV made a landing in the military parade grounds here today and was selated by the French authorities. The incident has caused tremendous excitement.

The German officers aboard the air-ship explained that they had been lost in the clouds and did not know they had

In the clouds and did not know they had crossed the French frontier.

The inhabitants of the eastern frontier regions of France have been much agitated the last few weeks over reports that German dirigibles had been observed or heard nightly hovering over the forts. The stories, like those of the phantom airship of England, haver were properly substantiated.

The people of Luneville therefore ore considerably startled when a were considerably startled when a brownish-pellow airship appeared at a great height in the clouds coming from the direction of Nancy. It was apparent that the pilot was having a battle with the wind and that he was making an effort to reach the earth. Finally, a safe landing was made in the parade grounds, where two squadrons of cavairy were drilling. The cavairymen caught the ropes thrown from the dirigible and moored it securely.

Infantry Curbs Populace

Local authorities and Brigadier-General Antide Leon Lescot were summoned immediately and a huge crowd of excited people gathered. It required the efforts of two companies of infantry to keep the Indignant populace at a safe distance. Zeppelin IV, which is of the latest and largest model, carried ten passengers of whom four carried ten passengers, of whom four

carried ten passengers, of whom four were officers in uniform—a Prussian captain and Heutenant, and two Wurtemburger Heutenants.

The captain explained to General Lescot, through an interpreter, that the Zeppelin was undergoing a test prior to being taken over by the War Department. He and the other officers had been assigned to conduct the test. They left Friederichshafen early this morning bound for Grand Duchy of Baden.

With the intention of making ascen-sion trials they had mounted to a leight of 2000 meters (about 9750 feet) and had lost their course in the clouds. They were carried along by a strong aide and first sergeant today when and the day when state troops demanded the surrender of the cavalry thought they had reached Saarbrucken. As they were short of gasoline they decided to land.

The chief officer of the engineer corps at Leneville removed the markets from the engineer from the engines in order that the already could not get under way, and the cabin was searched for photographic apparatus, sketches or similar center of Fundicion.

corps at Limeville removed the mag-netes from the engines in order that the airship could not get under way, and the cabin was searched for photo-graphic apparatus, sketches or similar retidence of spying operations. Noth-ing of that nature, however, was found. The German officers were permitted to telephone to Friederichshafen for a supply of bydrogen and for mechan-

### PAWNSHOP MEN ARRESTED

PAWNSHOP MEN ARRESTED

Warrants Are Served on 33 Accused of Evading "Fence" Ordinance.

Thirty-three second-hand dealers and junk men were nominally arrested last night on warrants sworn to by Police Detectives Hepner and Smith, of the pawnshop detail. They were charged with having failed to make proper reports of goods bought or pawned, in compliance with a recent city ordinance. The dealers were merely served with the warrants by Patrolinen Pressey and McMichael and were allowed to go free on their own recognizance.

The arrests are the result of a long fight between the detectives and the pawnshop men, in which the police have been trying to force proper reports of the goods the second-hand dealers receive. The police say that

have been trying to force proper reports of the goods the second-hand dealers receive. The police say that many of the stores are known "fences," where stolen goods are pawned, and the failure of the police to receive notice of the sale of this stolen property is behind the arrests.

Those arrested, with their places of business, are:

# RECOGNITION OF MEXICO TO WAIT

President Indicates Desire to See Stable Government Before Acting.

CHINA POLICY OUTLINED

Formal Acknowledgment of Repub lie Scheduled for Next Tuesday. Philippines Debatable as to Details.

WASHINGTON, April 1.—President
Wilson indicated informally today
what the attitude of this Government
would be toward Mexico, China and
the Philippines.
Pending a settlement of affairs in
Mexico, the holding of elections and
the establishment of a stable government, recognition probably will be
withheld.
The Chinese republic is to be rec-

withheld.

The Chinese republic is to be recognized next Tuesday. April 8, the meeting day of the new assembly. Notice of this intention has been given to the diplomats of all foreign governments represented here, with a formal proposal that the other governments grant recognition at the same time.

Philippine Details Debatable.

With respect to the Philippines, the President intends to see that the pledge of the Democratic party for the ultimate independence of the Philippines is carried out, but he believes the date for the granting of independence is a debatable question and dependence is a debatable question and depende Philippine Details Debatable.

## Something to Think About

Every thoughtful man or woman must have wondered at times what accounts for the difference in skill-what "ability" really is.

It is a problem which closely concerns all workers, for is not our earning power dependent upon our capacity?

The manual worker well knows how skillfulness results in additional

The mental worker is well aware that quickness and keen perception bear golden fruit.

These qualities depend chiefly upon the guiding

No work is done better than it is seen-seen indistinctly it will be more or less badly done.

Imperfect vision is a handicap which a veritable genius might well find too difficult to surmount—it is a tax which is being paid every minute of every day and inevitably causes salaries to fall short of what they might have been.
