Joint Meeting Considered.

At a meeting of the Port of Portland motrow the matter of a joint session

with the Commission of Public Docks will be taken up.

There was also a letter from Governor West in which he acknowledged receipt of a copy of resolutions passed Thursday, covering the objection of the Dommission to the fill in question, and he said that the matter would be given his attention at the control of the con his attention at once. A communicawas of the same tenor. Mr. Burgard said he thought it strange that the dredge Portland was continued at work on the fill in the face of the attitude of the Commission. Papers forwarded to the East for ex-

amination by legal authorities in con-nection with the proposed bond issue of \$1.250,000 were reported to have reached their destination yesterday, and an early return is expected. The Commission decided to have ex-

tracts from the waterfront ordinance printed and sent to owners of dock property, calling their attention to the most important clauses, including the where it is semanded, steps necessary before filling could be Unwashed delains sells

WILL DEPORT NEGRO SAILOR

Three Undesirables Are Sent From Portland Across Border.

Captain Hay, master of the British ship Wray Castle, is being aided by R. P. Bonham, in charge of the Portland branch of the United States Immigration Service, in an effort to obtain passage on some vessel bound to the vicinity of Barbados so that a negro member of the Wray Castles-eres, who is said to be afflicted men-tally, can be sent home. There is a steamer service from New York, but, if possible, it is hoped to save conners of the ship the expense of an overland journey for the sailor and attendants who must accompany him. He may be sent via Puget Sound or San Francisco. The Wray Castle will go from here to the West Coast with lumber. Three men were departed vesterday

Three men were deported yesterday into Canada, Hugh Parr, convicted of forgery: Joseph Roberge, grand lar-ceny, and Clarence Wilson, highway robbery. The men were given indeter-minate sentences and as Parr entered the country after having committed crimes in Canada, so he admitted, and the other came to the United States without the usual inspection, their de-pertation was arranged and Governor West granted them paroles. In the event they return surreptitiously they must serve the sentences imposed.

GOOD GAINS ARE RECORDED

Favorable Crop and Copper Report Are Important Factors-President's Message Has Small Effect on Trading.

NEW YORK, April 8.—After pursuing an uncertain course with prices first above and then below yesterday's closing range, the stock market developed strength today and trading ended with a number of substantia advances. Fluctuations seemed to be callefly the reflection of activity on the part of processional traders, who found it about as dif-

sides of the market were among to hear a following.

Of the various influences brought to hear upon the market today, the President's measure received first attention, but its effect upon the market was comparatively small. At the time of its delivery the list sold off sharply, but the movement was shortlived and had the appearance of a bear drive, timed to the hour of publication of the message. The market grew dull.

Renewed confidence was exhibited in the message movement of the last hour, and bear movement of the last hour, and bear the state of the state of the last hour, and bear the state of the last hour. upward movement of the last hour, and best prices of the day were attained. Reading and the copper stocks were especially

and the copper atoess were especially strong.

The highly favored character of the Government crop report on Winter wheat was a factor in bringing about the final upturn. The March decrease of 18,000,000 pounds shown by the copper producers' figures, was in line with predictions.

The bond market developed an easier tendency. Total sales, par value, \$5,110,000. United States 5s declined is on cell. CLOSING STOCK CANDIDATES.
