Servian Troops That Have Been Aiding in Siege of Scutari Withdrawn.

BITTER FEELING IS SHOWN

Servians Boycott Austria-Hungarian Goods and Banks Refuse to Extend Credit to Merchants Dealing in Them.

CETTINE, Montenegro, April 11.—Plucky little Montenegro has left to fight its battle with the powers alone. The Servian army that has been assisting the Montenegrins in the siege of Scutari has been withdrawn and is marching back to Servia. Much bitterness is felt throughout Montenegro. The official Gazette declared today that the heavy Montenegrin losses sustained during the recent assault on the Turkish forts were due mainly to the Servian artillery, which continued to fire while the allied troops were storming the works. "The Servian commander forgot to give the order to cease fire," says the Gazette. Bulgaria is making formal claims to the possession of Saloniki, now occupied by the Greek troops, according to an Exchange Telegraph Company's dispatch from Belgrade. The dispatch adds that Bulgaria is taking military measures to support her claims while Greece is concentrating her army along the railway leading to Saloniki. The Chamber of Commerce and Industry in Servia have declared a general boycott of Austro-Hungarian goods. The banks in Belgrade have decided to cancel the credits of merchants dealing in Austrian merchandise unless Austria promptly abandons her hostile attitude toward Servia.

YOUNGER ZIEGLER WINS MILLIONAIRE'S HALF-BROTHER DEFEATED IN SUIT OVER ESTATE.

NEW YORK, April 11.—(Special.)—William Ziegler, Jr., way to the \$4,000,000 accumulated income on the estate of William Ziegler, the baking powder manufacturer, was cleared today by the decision of Surrogate Coburn. The surrogate denied the application of George W. Brandt, half-brother of William Ziegler, who had petitioned to be allowed to intervene in the recent proceedings instituted by the younger Ziegler to take control of the \$4,000,000 accumulated income on the estate. William Ziegler's will provided for the gradual acquisition of his estate by his adopted son, the entire amount not being transferred to direct control until he reaches the age of 49. Brandt sought to prevent the transfer of the accumulated income, being one of the heirs.

CHINESE APPEAL TO WORLD PUBLISHED

President and His Cabinet Praise Document and Promise Early Action.

"WILL OF HEAVEN" SHOWN

Influence of Young Chinese, Educated in American Colleges, is Manifest in Formal Declaration of Independence.

WASHINGTON, April 11.—The Chinese declaration of independence, which took the form of an address to the world, was cabled here from Peking today and after being read in the Cabinet meeting was made public. State Department officials declared that it reflected the influence of the young Chinese members educated in American colleges. The President and his Cabinet praised it enthusiastically and formally recognized the Chinese Republic by the United States awaits only the actual organization of the constituent assembly, which meets again tomorrow in Peking. The text of the address follows: "On this 8th day of the fourth month in the second year of the Republic of China, the date fixed for the first opening of our permanent national assembly, the members of the Senate and the House of Representatives, having met in these halls to celebrate the event, now make this declaration of their sentiments: People's Voice That of Heaven. The will of heaven is manifested through the will of the people. That the hundreds of millions of the people possess the authority of the state is not proclaimed now for the first time. The monarchy, so long corrupt, proved unworthy of the grave responsibilities entrusted to it by the will of the people, but with the introduction of popular government, the representatives of the people must share the likes and dislikes of the people. They are to give expression to the desires and voice the will of the people; they hold the reins in behalf of the nation to govern with severity or leniency, with parsimony or extravagance; they become the pivot upon which the prosperity of the state is made to turn. For success or failure, safety or danger, adversity or good fortune, theirs is the most of the blame. Aspirations Are Published. Yet through great tribulation the Spring comes to prosperity, and our bad management and anxieties are a means to happiness. Now, therefore, we unite to form this assembly and presume to publish our aspirations. May our five races lay aside their prejudices! May rain and sunshine bring bounteous harvest and cause the husbandman to rejoice! May the scholar be happy in his home and the merchant conduct his trade in peace! May no duty of government be unfulfilled and no hidden wound go unredressed! Thus may the word be spread abroad and these, our words, be echoed far and wide, that those in distant lands who hear rejoice, our neighbors on every side give us praise and may the new life of the old nation be lasting and unending! Who of us can dare be neglectful of his duties!"

WAR ON PAUPER DEAD OPEN Tacoma Undertakers Would Raise Prices but County Balks.

TACOMA, Wash., April 11.—(Special.)—Tacoma undertakers and the Pierce County Commissioners declared war over the pauper dead today, after a warm argument. A committee of the undertakers, W. B. Buckley, L. M. Gaffney and C. O. Lynn, appeared at the Commissioners' meeting and asked an increased burial rate from the county over the present figure of \$4.50 for County Hospital dead and \$5 for Poor-house dead. The Commissioners made a flat and final that no increase would be granted. "In that case, gentlemen," said Gaffney, acting as spokesman for the undertakers, "the next pauper's body which comes into our establishments will be brought at once to the Courthouse and turned over for burial to this honorable Board of Commissioners, and the rest of the undertakers are with us." Undertaker Buckley declared \$20 was not too large an appropriation for each pauper buried. "These fellows tried to slip a bill through the last Legislature providing \$20 revenue from the county for each pauper burial," said Commissioner Chairman Reed. "We certainly do not intend giving them more than the present allowance."

UNITED STATES IS BLAMED

Failure to Arrange for Flotation of Foreign Loan Attributed to Withholding of Recognition of Huerta Regime.

MEXICO CITY, April 11.—That the withholding of official recognition of the United States has weakened the Huerta government materially is the opinion generally expressed by the public and private officials in certain Mexican official circles. The new rebel movement has made greater progress than has the provisional government in suppressing insurgency, and it is a secret that the condition of the treasury is such as will not permit the continuation of military operations much longer. This has been publicly admitted by the Mexican minister of the interior, Garcia Grandos. Foreign Loan Plans No Takers. The Chamber of Deputies has not approved the proposed foreign loan, but its failure to take a secret is said to be due to a desire to avoid embarrassing further the finance department, which so far has been unable to arrange for the loan. The loan, notwithstanding recent assurance to that effect from London. It is assumed by the government that its inability to issue the loan is due directly to non-recognition by Washington. Editorial writers comment this phase of the situation, and there has begun a propaganda in the local press tending to place responsibility for the fate of Mexico on the United States. Business Seriously Disturbed. Business conditions in Mexico are reflecting seriously the revolutionary disturbances. Smelters at Monterrey, Toluca and Durango have been closed for lack of fuel. At San Luis Potosi the smelters are running on half time and at Aguas Calientes a third shift is being worked. At Matamoros and Matahuila the mills are running on full time. Rebels practically control the states of Sonora, Coahuila and Durango in the north, while the situation in the south, where Emiliano Zapata still is in control, has not changed materially. In Nuevo Leon the rebels slowly are regaining possession of the railroad to Laredo, on the Texas border, but the rebels, pushed back from this line of communication, are extending the zone of operations far to the eastward. In Southern Coahuila the rebels hold the immediate neighborhood around Torreon, and between there and Chihuahua intercept traffic on the Mexican Central Railroad almost at will. So uncertain is the situation in Durango that the government itself is unable to say whether the state capital is held by government forces. There is no communication between Durango and Mexico City, either by railroad or telegraph.

Belgian Steamship Lines Take Precautions Against Trouble. ANTWERP, April 11.—The situation here is becoming more complex. The Red Star steamship line sent off an additional steamship last Wednesday to clear away merchandise waiting on the dock. Another line announced today that in view of the fact that it may be impossible to load its vessels, it will cancel the sailing dates of six steamers. It is reported that the Hamburg-American, North German Lloyd and other steamship lines have ordered their vessels bound for Antwerp to proceed instead to Rotterdam and Hamburg. Insurance companies are demanding special rates for freight standing on docks or in transit from warehouse to steamer. They are asking a premium of one-quarter per cent for this insurance.

Permanent Policy as to Publicity to Be Decided Later. WASHINGTON, April 11.—The Republicans of the House met tonight in open caucus and began consideration of the tariff bill. The question of making the caucus a public meeting kept the Republicans in secret session more than an hour. As few as 100 members of the Republican caucus were present it was decided to open the doors to the press for tonight's meeting and to allow the question of making future caucuses open to be settled at a caucus next week, after the Democratic tariff bill is reported to the House. Minority leader Mann offered the resolution to open the doors of tonight's caucus, and Representative Madden of Illinois presented the one to make all Republican caucuses public meetings. General criticism of the Democratic tariff bill was indulged in and Representative Sloan, of Nebraska, criticized President Wilson for "interfering with the framing of the bill." "We are in a fix," he said, "of delegating the framing of a tariff bill to any co-ordinate branch of the Government, even if that co-ordinate branch be the President of the United States, with millions of patronage at his disposal to be used in aiding the passage of that bill, through both houses of Congress."
