

HEALTH BUREAU IS SCORED IN REPORT

Municipal Researchers Severely Criticize Department's Methods.

INEFFICIENCY IS CHARGED

Portland's Low Death Rate Due to Climatic Conditions and Not to Work of City Officials, is Opinion of Investigators.

That Portland's unusually low death rate is due to climatic conditions and not to the work of the City Health Department is the statement of W. H. Allen, of the New York Bureau of Municipal Research, who completed a report on the department yesterday after an investigation into its workings. The department is described as inefficient.

"The Health Department," reads the report, "undertakes too little, spends too little for health protection and health education; does too little for what it now spends; needs increased efficiency in using present powers and present funds; but also needs additional funds for the more extensive health programs which are imperative if Portland would avoid a progressively increasing nuisance rate, sickness rate and death rate."

"The city's low actual death rate is not due to Health Department efficiency, but primarily to its location, topography, climate and distribution of population."

"The Health Department," reads the report, "undertakes too little, spends too little for health protection and health education; does too little for what it now spends; needs increased efficiency in using present powers and present funds; but also needs additional funds for the more extensive health programs which are imperative if Portland would avoid a progressively increasing nuisance rate, sickness rate and death rate."

second-hand dealer in Independence, \$1000 for his 17-year-old daughter, whom he says he married last Fall. Dick Arslanian, a contractor of that town, this afternoon retained Carey F. Martin, a local attorney and had him prepare for a suit to recover the sum. The papers will be filed in the Circuit Court at Dallas tomorrow.

Arslanian is commencing the suit now because, he says, his golden dream had broken. Several weeks ago the first break came, he says, the wife returning to her parents. A reconciliation was effected. He says he took his wife to Portland and purchased her "glad rags," and then they journeyed homeward to continue their happiness. When they reached Independence, however, his wife, "glad rags" and all disappeared, he asserts, and he has not seen her since.

Another unique feature of the case, according to his story, is that he was a married man when he married the Brown girl, and of this fact he declares his father-in-law was aware. He attributes his marital troubles to the activities of his father-in-law, and not only wants his money back, but says he will begin a suit for divorce.

Mr. Brown on the other hand asserts, it is said, that he did not receive any money for his daughter, but that Arslanian owes him for furniture purchased after his marriage.

Mr. Brown formerly resided at Portland, where it is said he attended to become a Methodist minister. Since leaving Portland, it is said, he occupied country pulpits from time to time, but has devoted most of his time to his second-hand business. Arslanian is an Armenian.

LINE NEARS COMPLETE ON CLACKAMAS ROAD TO REACH BEAVER CREEK IN MONTH.

Southern Railway to Be Put Into Operation as Soon as Possible, Says Official.

OREGON CITY, Or., April 17.—(Special.)—"Grade work and track-laying on the Clackamas Southern Railway will be completed to Beaver Creek within a month, if the present good weather continues, and the road will at once be put in operation to haul out cordwood and timber," said Grant B. Dilwick, secretary and chief counsel of the road, Thursday. "Grading and track-laying will be resumed Friday, and we will keep five or six teams and a full crew of men busy from now on in the Maple Lane country and on to Beaver Creek."

"It has been estimated that Oregon City consumes annually between 50,000 and 60,000 cords of wood, and Portland takes from this district about 150,000 or 200,000 cords. As soon as the line is completed into Beaver Creek we will commence hauling out a practically unlimited supply of cordwood, ties and timber, and this will be supplied to Oregon City and Portland markets. Our ties will practically all be sent to the Portland market, while the timber we bring out will be divided between the Oregon City mill and river shippers for Portland mills."

Initial service on the Clackamas Southern will be maintained by steam locomotives, though the electrification of the line will be hastened. It is unlikely, however, that motors will replace engines on the road until after the line has been extended beyond Beaver Creek. The line is being laid with heavy standard material and will bear both heavy traffic and high speed. With the completion of the road to Beaver Creek, a passenger service also will be inaugurated between that town and Oregon City.

AT THE THEATERS

"THE BACHELOR'S BABY" By Francis Wilson. Presented at the Heilig Theater. Thomas Beach.....Henry Buckler Martin Dale.....Louis Shea Theodore Harjes.....G. Sully Broderick West.....Lena Lorraine Mrs. Emily Swearer.....Stella Wilson Winifred West.....Vera Townsend Martha Calvert Beach.....Baby Edna Mae Wilson

ONE INEVITABLY CALLS TO MIND THE ROMANCE OF "THE BACHELOR'S BABY"

When the posse approached Tornow's cabin at noon today they moved with caution until they saw the bodies of Blair and Quimby lying on the ground. They had been undisturbed and this was taken as an indication that Tornow was dead. Search of the vicinity was begun at once and behind the windfall in front of which lay the bodies of the two trappers was the body of Tornow. He had used the fallen timber as an ambush and had fired point blank at the unfortunate woodsmen who were within eight feet of him and never had a chance to fight for their lives.

PRINCIPALS ARE INVITED

East Side Business Men Call Conference on Children's Parade.

The East Side Business Men's Club last night decided to invite the principals of all the public schools to a conference Monday night at Hotel Elmer. East Morrison and Sixth streets on the question of the children's parade.

SUICIDE BILL IS VETOED

Missouri Governor Opposes Relieving Accident Companies.

JEFFERSON CITY, Mo., April 17.—Governor Major vetoed today a bill relieving accident insurance companies of liability for deaths from suicide.

GARMENT STRIKERS WIN

Massachusetts Men Get 58-Hour Week and Higher Wages.

BOSTON, April 17.—The last of the strikes that have paralyzed the garment workers' industry in this city for ten weeks was settled tonight when the 2500 members of the men's garment workers' unions voted to accept the terms of an agreement reached today.

SUIT ON FOR WIFE'S COST

Man Wants Money Alleged Paid His Father-in-Law.

SALEM, Or., April 17.—(Special.)—Alleging that he paid A. M. Brown,

OUTLAW TORNOW SLAIN BY QUIMBY

Deputy Sheriff's Last Aim Proves True and Bodies of Three Found Dead.

QUIMBY EXPLAINS ACTION

Fearing That Deranged Desperado Was Resorting to Ruse to Entice Him, Official Takes to Heels and Sounds Alarm.

(Continued From First Page.)

For bringing out the bodies of the outlaw and his victims tomorrow.

Giles Quimby, slayer of Tornow, and the only man to face the terrible mania within the past year and one-half and live to tell the tale, was among the first to view the body of the man he had laid low. It is thought that he will receive the reward of \$2000, \$2000 of which is offered by the county and \$1000 by the state, without any trouble.

Quimby accidentally met up with Blair and Lathrop, who were hunting for Tornow on their own responsibility and did not want to accompany them when they decided to walk up to the little cabin which they saw standing on the shores of a lake lying between sections 21 and 19, township 21, range 7 west.

The scene of the triple killing was not over a mile from the famous Ox Bow country, where Deputies A. V. Elmer and Colin McKenzie were slain by Tornow in March, 1912. Lathrop and Blair were shot with an automatic revolver, probably the Lueger which Tornow took from the body of McKenzie.

HEMLOCK TREE IS FORT

Tornow yesterday opened fire from behind a hemlock tree. Blair and Lathrop had no chance. Neither was able to bring his gun into action. Blair fell at the first shot, Lathrop at the second and third. From behind his sheltering tree, Tornow fired shot after shot, while Quimby was directing a fire at the outlaw from another direction. Tornow paid no attention, however, to Quimby, who fired every time Tornow thrust his head from behind the tree to take aim at the bodies.

RANSOM IS HALF MILLION

Cananea Mining Officials Held, Either by Rebels or Strikers.

EL PASO, Tex., April 17.—J. S. Douglas and S. W. Applewhite, respectively president and general manager of the Cananea Consolidated Copper Company, are held for ransom in Mexico, say private advices here tonight.

DELEGATES ARE SELECTED

Olympia Presbytery to Be Represented Here and at Atlanta.

OLYMPIA, Wash., April 17.—(Special.)—The Olympia Presbytery today closed its semi-annual session here with the election of delegates to represent it at the National assembly at Atlanta, Ga., May 18, and at the World Christian Citizenship Conference at Portland, June 29 to July 6. The following

Today's Beauty Recipes

By Mme. D'ville.

"Many good faces are spoiled and look characterless because the eyebrows and lashes are not well defined. The eyebrows are naturally thin and improved in color and grow longer and more evenly if gently massaged with pyroxin. Pyroxin has the same good effect if massaged into the eyelash roots.

Women detest superfluous hair on the face and forearms because it gives them a masculine appearance and detracts from true feminine charm. To remove superfluous hair cover the surface with a paste made by mixing fine powdered gelatin with water; leave on two minutes, wipe off, wash the skin and the hairs will be gone.

Aches and pains cause the face to contract and form wrinkles. Mother's Salve, which can be bought in any neighborhood, gives almost instant relief from pain and aches in back, or joints, sore muscles, rheumatism and neuralgia.

The Vauclair home treatment is designed to round out angular lines of women with scrawny shoulders and flat bosoms. It is made by dissolving 1/2 ounce of borax in a pint of hot water, to which is added an ounce of glycol. Take two teaspoonfuls before each meal.

"The Springtime is the season of youth, when every girl desires to look her very best. For a complexion of lilies and roses, apply each morning a solution made by dissolving an original package of maytane in a half-pint of witch hazel. It corrects blotched, pimply and sallow complexions and leaves the skin smooth, white, soft and lovely.

A shampoo that merely washes the head is not sufficient. The parasites that cause falling, dull, faded and brittle hair must be removed. Mother's Shampoo does this and leaves the scalp in a condition to encourage the growth of hair. It prevents baldness and makes the hair glossy, fluffy and fine.—Adv.

and urging upon him the need of extending this line to connect with the Alberta district.

CLASS OF 53 INITIATED

DEGREE OF HONOR PREPARES FOR DISTRICT CONVENTION.

500 Delegates and Visitors Expected at Session in Hall on Fourth Street at 10 A. M. Today.

As a preliminary to the Degree of Honor district convention which will open at Degree of Honor Hall, 128 Fourth street, at 10 o'clock this morning, a class of 53 candidates was initiated at a meeting held last night.

Four Portland lodges took part in the ceremonies. Evergreen Lodge opened the meeting, Port-land Lodge conducted the balloting. Fidelity Lodge initiated the candidates, Taber Lodge closed the meeting.

The initiation of this large class was the culmination of a campaign which has been made for new members under the leadership of Mrs. Margaret E. Herlihy, grand chief of honor for Oregon, and Mrs. J. Leach, deputy grand chief of honor, in charge of Portland. Since October 1 1912 applications have been received for membership.

Fully 500 Portland members and visitors from other lodges are expected to be present at the convention, which opens this morning. Arrangements for the convention and for the entertainment of the guests have been made by Mrs. Sadie Moore, past grand chief of honor.

The work of the convention will include a discussion of ritualistic work and the adoption of resolutions for presentation to the next meeting of the grand lodge.

Lunch will be served at noon and the afternoon will be devoted to business. There will be a reception this evening for Mrs. Francis Buell Olson, superior for Mrs. Francis Buell Olson, superior and chief of honor, of St. Paul. The reception is open for all members of the Degree of Honor and their friends. It will be followed by dancing.

KUTE LITTLE KEWPIES THAT FLY

Cut out the Kewpies this month and these paper dolls will fly for any little boy or girl. There's a marvelous story too of these wonderful playfollies with pictures and verses by Rose O'Neil. It's in the May Woman's Home Companion 15c.

WHAT ABOUT VACATION?

If you don't know what to do, or where to go for happiness and health, and if you want to find out how you can afford it read the prize winning letters from readers who tell of "Delightful Vacations at Little Cost" 15c.

DESSERT FOR WARM DAYS

Try a Marshmallow Pudding or a Pineapple Jelly-to-night. Delicious recipes for these and other quickly made warm weather desserts have been prepared by the best cook in the world for the May Woman's Home Companion 15c.

YOUR SUMMER CLOTHES

The May Woman's Home Companion is aglow with a wonderful array of the very clothes you'll need when warm days come. You'll find ideas for everything, from baby's first short clothes to grandma's afternoon dress, in the May 15c Woman's Home Companion.

THE HEART'S COUNTRY

A wonderful new novel by Mary Heaton Vorse begins in May—the life of a lovely girl who asks only to give herself and her sweetness with lavish hands. Also stories by Georgia Wood Pangborn, by Zona Gale, by David Lloyd. All this in the 15c May Woman's Home Companion.

SIX STORIES—FOURTEEN SPECIAL ARTICLES—SEVEN FEATURES FOR CHILDREN AND FOURTEEN HOUSEHOLD DEPARTMENTS—41 SPLENDID FEATURES IN ALL.

PETER O'BRIEN III A Prize Winner at the Better Babies Show at Denver

AMERICAN women have started a revolution by judging babies at the State Fairs just as carefully as hogs are judged. They measure and test babies and award prizes to the healthiest and brightest. And now a National Campaign for "Better Babies" is sweeping across the country.

THE Woman's Home Companion is helping. It offers two prizes of \$100.00 in gold to every State Fair Baby Show conducted on the "Better Babies" plan of The Woman's Home Companion. The May number now on sale has pictures and score cards of the prize winners of the remarkable "Better Babies" Contest at Denver, with an inspiring article about these perfectly healthy, splendidly formed, prize winning babies.
