WOMAN HANGS HERSELF

WILLAMINA RESIDENT, DESPONDENT, TAKES LIFE.

Mrs. Emma Badders, Deserted Wife of Blacksmith, Commits Suicide in Own Home.

WILLAMINA, Or., April 30.—(Special.)—Despondency, through which her mind became weakened, is believed to have been the cause of the suicide by hanging in this city today of Mrs. Emma Badders, 40, the wife of G. M. Badders, till two months ago a blacksmith of this place.

The constable found the body of Mrs. Badders late this afternoon hanging in the hallway of her home. It is reported she was committed about 10 o'clock this morning.

The suicidal act was carefully planned, as Mrs. Badders last night visited her neighbors, intimating that she would do something rash, and it was thought by several that she would need watching, as it was felt her mind had become deranged.

Securing a rope, Mrs. Badders carefully tied it to a beam, placed a towel about her neck, drew the slip-knot over the towel and then jumped from a chair.

Mrs. Badders had worried greatly over her domestic life, which, neighbors say, was not most pleasant and culminated, in a supposed, weakened condition mentally, when her husband disappeared two months ago in the company of a widow known as Mrs. Westfall. Since then she has heard nothing of Mr. Badders, who is said to have gone to Iowa.

Besides intimating that she would do something rash, Mrs. Badders wrote a carefully worded letter to her physician, Dr. Morrison, of Carlton, telling of her contemplated deed and asking him to take charge of her body.

SOCIALISTS OPPOSE BILL

PROPOSED CHARTER BITTERLY DENOUNCED.

Party Convention Issues Statement Advising Defeat of New Measure.

Sweeping denunciation of the proposed charter is contained in a statement adopted by unanimous vote of the Socialist party at a convention held by that organization Tuesday.

The statement is as follows: The Socialist party in convention assembled unanimously condemns the proposed Commission form of Government for the following reasons:

Democracy is abolished and in its place is substituted the autocratic rule of the few who have four whole years in which to build up an invulnerable political machine, stronger by far than any many Hall in its palmy days. It gives the Mayor and Commissioners too much political power. (See Section 20, page 14 of proposed charter.)

Discrimination is made in favor of the rich office-seeker by requiring the Commissioner to furnish a \$25,000 bond. This will place the Mayor absolutely dictator of the city government.

It would be easier for big business in secret conference to select an entire ticket of five persons and, with an unlimited slush fund, elect their tools to office.

The rank and file of the numerous jokers scattered throughout the proposed charter is the one absolutely prohibiting a candidate from having any affiliation with a working class organization.

Wherever the Socialist party has threatened to capture the city government, big business immediately became busy and advised the Commission form of Government in support of the district council, embracing British Columbia, Washington, Oregon and Nevada.

The council has agreements with 35 corporations. A meeting of the strikers will be held today at 204 1/2 Third street.

Officers of the local union are J. Soltau, president, and F. L. Gifford, business agent.

Mr. Burghdoff said that the reason the Home Telephone Company refused to fix a minimum scale was that it believed in paying employes according to their worth.

"We do not propose to pay men \$4 a day who are not worth that much," he continued, "and men who are worth more will be paid more."

CLAIMANTS TO APPEAL

PRIOR RIGHTS TO LAND LOST BY RAILROAD SOUGHT.

Attorney Garrigus Appears in Federal Court Saying He Wants to File Appeal for 7000 Claimants.

An appeal will be taken from the decision of Judge Wolverton that the entire Oregon & California Railroad land grant, including those portions that have been sold or settled on, shall revert to the claimants who, following the Lewis G. Garrigus, an attorney who appeared before Judge Wolverton yesterday, saying that he wanted to file notice of appeal for 7000 claimants.

His clients are of the class who, having applied to the railroad to buy 160 acres of the land at \$2.50 an acre, were refused, and who then entered suit as intervenors, asking that the railroad company be compelled to sell the land to them according to the terms of the grant. The railroad company demurred and its demurrer was sustained by Judge Wolverton.

The people represented by Mr. Garrigus do not pretend to be actual settlers as do claimants represented by A. W. Lafferty and Arthur L. Moulton, who will also appeal. There are about 7000 claimants who, following the advice given them by their attorneys, made actual settlement and residence on the land. When the Government bill of complaint was filed in 1908 these people were made co-defendants with the railroad company.

Yesterday's decision, therefore, has the effect of denying them any right to the lands.

Of course, Mr. Dunlap doesn't have to walk back to Portland. He could come back "on the cushions" if he so desired. But he says that even if there were no other way possible for him he wouldn't let a trifle like that interfere with his coming home.

The Market Place

There is always a business center in every city. Sometimes it is called the market place and sometimes it is called the shopping district. But always there is one center that maintains the greatest amount of attention in that city.

In the same way the For Rent columns in the want ads of The Oregonian are the business center for all transactions in rents and leases.

If anyone has a house or a roof or an office or a factory for rent, he announces that fact in a little want ad and puts it in these columns under the proper heading.

If anybody wants to rent a house, or a room, or an office, or a factory, he simply turns to the want ads in this paper, looks up the columns headed "For Rent," and there all the desirable places are before his eyes.

The Oregonian is the market place for that business. It saves the people of this city much time and a great deal of money.

If you are thinking of moving this Spring—if you are looking either for a new office or a new home—these rental ads in the want ad columns of this paper are the most natural place to look and to find it, because everything that is worth renting is here.

Check off our rent list today; answer the ads and mention The Oregonian, please.

SLEEP DISTURBING BLADDER WEAKNESS BACKACHE-RHEUMATISM, QUICKLY VANISH

Even Most Chronic Sufferers Find Relief After a Few Doses Are Taken. Backache, urinary disorders, and rheumatism are caused from weak, inactive kidneys, which fail to filter out the impurities and keep the blood pure, and the only way on earth to permanently and positively cure such troubles, is to remove the cause.

The new discovery, Croxone, cures such ailments because it reaches the very roots of the disease. It soaks right into the stopped up, inactive kidneys, through the walls and linings; cleans out the little filtering cells and glands; neutralizes and dissolves the poisonous uric acid substances that lodge in the joints and muscles to scratch and irritate and cause rheumatism; it neutralizes the urine so it no longer irritates the tender membranes of the bladder, and cleans out and strengthens the stopped up, lifeless kidneys so they filter and sift all the poison from the blood, and drive it out of the system.
