

FAIR FOLK QUIZ CANDIDATE ALBEE

Progressive Mayorality Office-seeker Talks of Issues Before Study Club.

WOMEN ARE URGED TO VOTE

Newly Enfranchised Voters Told They Have Power to Correct Evils and Will Be Blamed if Derelict in Their Duty.

H. R. Albee, Progressive candidate for Mayor, addressed the members of the Civic Study Club of University Park yesterday afternoon at a meeting in the Portsmouth School. The audience was composed largely of women, who showed by the nature of the queries propounded at the conclusion of Mr. Albee's address, that considerable study had been given the various questions that figure prominently in the municipal campaign.

In the course of his remarks Mr. Albee dwelt on the importance of investigating the records of the various candidates who are being nominated for city office and declared it to be a reasonable assumption that a candidate who has failed to make a success of his business would hardly be likely to achieve success in the management of the manifold affairs of a large city like Portland.

The women of Portland have it in their power to correct many of the evils under which we have been laboring, declared the speaker, and they will be blamed by right-minded, patriotic citizens, if they are derelict in their duty and fail to cast their votes on Saturday.

New Charter Favored.

In discussing the proposed adoption of a new charter Mr. Albee said he believed the commission charter, although imperfect as drafted in its present form, is a considerable improvement on the charter now in force in Portland. The defects, he declared, could be in due course of time be eliminated.

"The modern trend of government is in favor of the centralization of responsibility," he said, "so that the people can always be in a position to pick out the official who is responsible for reprehensible conditions. The only way to secure this desirable result, as far as the experience of American cities has shown is to adopt the commission form of government."

Various municipal problems were touched upon by the candidate. He discussed at some length the arguments in favor of the establishment of a public market, commending in this respect the efforts put forth by the Woman's Republic and other women's civic organizations.

Incinerators Are Urged.

In regard to the necessity of having properly installed garbage incinerators Mr. Albee said that the proper disposition of garbage is a subject that ought to have had attention long ago in Portland. Experts have reported, after carefully comparing our system with that of other cities, that the method pursued in Portland not only is wasteful from an economic standpoint but actually is a menace to the public health. The incinerating plant should be located outside the city limits.

"I do not favor the purchase of Ross Island for municipal purposes, which practically forces the people to take over the property without knowing its true value. If the island is to be acquired for the public health, it should be done in a manner which will leave no doubt in the minds of the people that they are paying for it only what it is worth."

"I am particularly in favor of a better lighting system. Many of Portland's streets, especially on the East Side, are poorly lighted. It is the responsibility, in some degree, for evil conditions. Vice shuns the light and flourishes in darkness."

BALLOT TITLES ARE PREPARED

Captions Drafted by City Attorney Subject to Change by Council.

Ballot titles to 15 out of 16 proposed charter amendments to be submitted to the people at the city election June 2 were sent yesterday to City Attorney Barbur by City Attorney Grant. Mr. Grant in drafting the titles says his decision on the wording is not final. Persons who object to the titles as prepared can appeal to the City Council, which can change the wording if desired.

No title was prepared to the transportation terminal amendment fathered by J. B. Ziegler, as it is the plan of Attorney Grant to let Mr. Ziegler attend to the work himself, in compliance with his request. The only other measure which will be on the ballot which is not in the list prepared by Mr. Grant is the proposed firemen's relief fund measure, which is to be submitted under the initiative by petition.

FEDERAL CHARGE PENDING

Duffy, Alias Ellis, Being Brought Here From Sacramento.

Charles Duffy, alias Joseph E. Ellis, alias Rev. E. L. Richards, will face a Federal charge of using the mails to defraud in connection with his love affairs, when he arrives in Portland in charge of Sheriff Worens, who has left Sacramento, Cal., with him.

Mrs. Duffy has been taken to San Francisco by a Deputy United States Marshal for the northern district of California. There she will either give bail guaranteeing her appearance as a witness at her husband's trial in the Federal Court here, or she will be secured from the United States court in that city permitting her removal to Oregon as a prisoner.

The state charge against Ellis here is that, under the name of Joseph E. Ellis, he married Anna Beck, in Florida, lured her out of nearly \$2000 on the way to Portland and deserted her within a few days of reaching this city. The woman says that he had previously secured \$700 from her.

The postal inspectors say they have evidence that operating under several aliases Duffy carried on correspondence with many women in all parts of the country through the postoffice here.

PRODIGERS TO GATHER

NEW LAWS WILL BE EXPLAINED TO MANUFACTURERS.

Gus Moser and J. R. Latourrette to Be Speakers at Dinner at Commercial Club Tonight.

The members of the Manufacturers' Association will meet at a dinner at the Commercial Club tonight to hear explanations of the various points involved in the employers' liability and compensation laws. There is so much doubt among the manufacturers as to just what their responsibilities are in connection with both laws that the association secured the principal speakers Senator Gus Moser, who introduced the liability bill in the recent session of the Legislature, and Representative John R. Latourrette, who introduced the compensation bill in the house, both of which measures became laws. The speakers will explain the laws in detail and will answer the questions of the manufacturers who may seek further enlightenment on the points of the laws which may not be clear to them.

"We have had so many inquiries from members of the Manufacturers' Association regarding the intricacies of the employers' liability and compensation laws," said President Mann, "that the board of directors decided the best way to secure explanations of the two laws would be to invite Senator Moser and Representative Latourrette to address the manufacturers on the subject. Both men are so thoroughly familiar with all the points for and against the bills that information from them directed to the manufacturers will serve to clear up many of the points which are not entirely understood by the manufacturers. The dinner, which will be informal, is at 7 o'clock tonight."

YOUR DOCTOR

doesn't know your stomach as well as you do—he hasn't lived with it as long as you have—but he will tell you that a well cooked cereal eaten every morning for breakfast will strengthen the digestive organs and keep the bowels healthy and active. And if he is wise he will recommend

Shredded Wheat

for this purpose because it is the whole wheat made digestible by steam-cooking, shredding and baking. Make your "meat" Shredded Wheat.

For breakfast heat the Biscuit in the oven a few moments to restore crispness; then pour hot milk over it, adding a little cream; salt or sweeten to suit the taste. It is deliciously nourishing and wholesome for any meal with stewed prunes, baked apples, sliced bananas, preserved peaches, pineapple or other fruits. At your grocer's.
