APPLE SEASON ENDS

Stocks in Pacific Northwest Are Closely Cleaned Up.

LAST PRICES ARE FIRMER

Supplies in Eastern States Will Be Worked Off Before New Crop Is Ready-Sales Larger Than in Recent Years.

With strawberries now in first place in the fruit market the apple season has been brought to a close. There are a few small lots left at various points in Oregon and Washington, but taken as a whole, the apple clean-up is better than was expected. Supplies in the Hood Eiver district are about exhausted and but little is left in the Yakima country. There is enough de-mand yet to take care of the moderate shipments arriving and the prices obtainable are slightly better than prevailed in the Win-ter months. This was shown by a car of Wenatchee Winesape brought in yesterday, which sold at \$1 to \$1.25 for the 5-tier,

considered high, they are comparatively good now and give promise of holding.

Apple dealers are elated over their success in marketing such a vast amount of one variety of fruit, as compared with amounts in previous years. Some of them think the persistent advertising campaign conducted by the association had much to do with the result; but in addition to this. It is pointed out that the big shertage of the orange crop in California and the quality of strawberries that have been causes January are factors in the achievement; but they say whatever may have been causes they say whatever may have been causes. they say whatever may have been causes the fact remains that at the end of the season the consumption of American apples will have been about 20,000,000 barrels more than it has been for any other

eats handlers yesterday talked \$30, track. This price was bid on the sound, but locally the best price was \$29.50.

Local receipts, in cars, were reported by the Merchants' Exchange as follows: Wheat Barley Flour Oats Hay

Of common stock not much is left besides Ben Daviz. The poorer lots are moving at 50 cents and the better grades at 75 cents. Members of the International Apple Shippers' Association declare that the great American apple crop of 1912, amounting to not less than \$50,000,000 barrels, will be cleaned up before the new standard crop is ready for market. While prices are not considered high, they are comparatively good per pound.

season the consumption of American apples will have been about 29,000,000 barrels more than it has been for any other year in the past ten or more.

Experts are already getting information as to the condition of the trees and orchards throughout the country, and also of the thousands of young orchards, especially in the Northwest, that will come into bearing for the first time this year. Repairs are of a most promising nature, and on a basis of the past crop and conditions now being reported, venturesome forecasters are already predicting a commercial crop of 60,000,000 barrels for 1913.

WHEAT HOLDERS AND American applies the post of the consumption of American applies that the country, and also post in the past crop and conditions now being reported, venturesome forecasters are already predicting a commercial crop of 60,000,000 barrels for 1913.

Market Reflects Improved Situation in Europe.

BUYING ON BROAD SCALE

Prospect for Repurchasing of American Securities by Foreign Investors Is Opened Up - Shorts

Cover Heavily at Opening.

NEW YORK. May 5.—The decided improvement in the European political situation consequent upon Montenegro's decision to yield to the powers, and the resultant strength of necurities abroad exerted the dominating influence upon the stock market today.

Expectations of speedy settlement of problems which have meanced the peace of Europe for months opened up the prospect of the repurthasing of American securities

of the repurshasing of American securities by foreign investors.

The situation was one which offered no comfort to the bears and there was spirited bidding for stocks to cover when the market buying most heavily of Steel, Amalgamated and Union Paolifo. Operations on the long side were carried on more confidently, and in the first hour there was a sharp upturn, resulting in gains for important issues of one to three points.

Later trading grew dull and prices eased off, sithough in the final hour the list rose to around the top again.

Traders were disappointed at the Supreme Court's refusal to extend beyond July 1 the time for completing the Harriman dissolution, and Union and Southern Pacific sold off.

Bonds showed an improved tone. Total sales par value \$1,870,000. United States bonds were unchanged on call.

CHOICE OREGON STOCK OF.

FERED ON LOCAL MARKET.

Cotton Markets.

Best Steers Bring \$8.30 and \$8.35. Top-Grade Cows Are Taken at \$7.40-Hogs and Sheep Firm.

There was a liberal supply of choice Oregon cattle on the market yesterday, and buyers were, therefore, more ready to take hold. The consequence was not only an active, but also a strong and higher market. Hogs and sheep continued firm at last week's prices.

For a few fancy steers \$5.05 was paid. Four loads were moved at \$8.50 and five at \$8.25. From that price the sales ranged

Condition of the Treasury.

WASHINGTON, May 5.—The condition of the United States Treasury at the beginning of business today was:

Working balance.

Total of general fund.

110.645,513

Total of general fund.

120.645,513

Total of general fund.

120.645,513

The surplus this flical year is \$2,445,638, as against a find in the condition of the treasury of the two Templetons came to grief because they were fishing beyond the "dead line" on the river, and within 200 feet of a fish ladder. It is a state offense to angle within 200 feet of the pathway followed by the fish over obstructions in a river, and inadvertently the Templetons, who are from Portland and who had never before visited this locality, broke the law. The \$50 fine is the minimum that can be assessed.

Coffee and Sugar,

NEW TORK, May 5.—Coffee futures to the United States ingreased by nearly \$17,000,000 in 1912, as
compared with the preceding year.

CHINCH BUGS KNOCKED OUT

Weakness Is Aggravated by Clearing

CHICAGO, May 5.—Wet weather was the chief influence today in lowering wheat values, % 6 ½c to ½c. The close was steady. Corn and oats both suffered net declines, corn ½c, cars a shade to ½c. Provisions made a net upturn of 5 to 15c.

"Goodbye chinch bug," said wheat traders today as they read reports of the soaking rains of Saturday and Sunday in Missouri, Kansas and Oklahoma. It is said the moisture stored by the fields will be enough to carry the plants through maturity as well as rid it of the peats. The downward course of wheat prices inclident to the weather map was augravited by the clearing of the disturbed political situation in Europe.

Europe.

Primary receipts of wheat today were 1,213,000 bushels; last year 1,000,000. Seaboard clearances of wheat and flour equaled 690,000 bushels.

Expectation of increased country offerings lowered corn. The market showed a narrow range throughout the session.

General rains caused heaviness in oats. In spite of lower prices at the yards provisions made gains. Offerings were limited and there was good investment buying, as well as covering by shorts.

well as covering by shorts.

The leading futures ranged as follows: WHEAT.
