Three who declined to serve gave no special reason and their places were filled by the election of Albert B. Ferrera, D. C. Henny and Edward Winter.

The meeting was called to order by Rev. A. A. Morrison, who acted as chairman of the committee of 15, which appointed the committee of 100, in response to the request of about 50 bustness men who felt that some action should be taken to meet what is generally regarded as a crisis in the city's It was felt that something should be done to insure the success of a good ticket in the general election to be held June 2 and that perhaps a large and representative committee

Rev. Mr. Morrison Keeps Chair. Rev. Mr. Morrison said that he did not feel that he could continue as the committee's chairman, as the committee of 15 had decided among themselves that they did not believe any of them should be on the committee of 100. He therefore called for the election of a chairman, and, after several names had chairman, and, after several names and been nominated and in each case those named declared they could not, for one reason or another, serve, Dr. W. T. Foster, president of Reed College, was chosen and he presided at the meet-ing last night, but at its close, said that he would not be able to continue in that capacity, owing to the fact that he had engaged himself for other work which would require his atten-

tion every day and nearly every night for a few weeks. Therefore, Rev. Mr Morrison was unanimously chosen as permanent president and, as Mr. Churchill had served as secretary to the committee of 15 and knew the detalls of the work, he was elected perma-

nent secretary.

In opening the meeting Rev. Mr. Morrison said that he believed that as many as 60 per cent of the voters of Portland have no means of knowing the records and the qualifications or lack of qualifications of the candidates. who have filed or who will file for of-fice under the new charter. He ax-

pressed the belief that the members of the committee of 100 and others inter-ested in the subject under considera-tion had no desire whatever to substi-tute something for the assembly, but that they simply wished in all good faith to provide the voters with such information as would enable them to select a good set of officers for the first Commission in the city's history.

Purpose Only Is Definite. After the election of Dr. Foster as temporary chairman, the call for the meeting was read, after which there was a brief pause, as no set programme had been outlined and no one knew what to do; all they did know was that the committee had been called into this meeting for the purpose of attention of a grave problem, namely, that of assist-ing to elect a set of capable officials to administer the city's affairs. W. A. Marshall was the first to make

ommittee authorize the investigation and publication of the records of all candidates. He said he did not believe that the people would appreciate it if the committee should attempt to go any further, as he believed, he said, that the votare themselves wished to that the voters themselves wished to use their own judgment when casting their ballots. He believed, however, that it would be a good service to the public to inform the voters on the rec-ords of the candidates. In this manner,

for Young People Urged. Conservation of natural resources for the benefit of the young men and young women of the country, was urged before the Oregon Society of Enyoung women of the gineers last night by Joseph N. Teal, president of the Oregon Conservation

Mr. Teal discussed both Federal and state conservation and declared that there should be both co-ordination and co-operation in development of the natural resources of the West. "When the Government is about to build an inland waterway," he argued, "it should go a step farther and, if practicable, use some of this same energy in providing irrigation for nearby arid lands." He also emphasized the ne-cessity of preserving the forests.

> LONDON, May 10 .- (Special.)-Like her sister, Mrs. Willard Straight, Mrs. Almeric Paget, who, by the way, is a sister of Mr. Harry Payne Whitney, is a great friend of animals and just now is especially concerned about cats. Some of the manufacturing furriers send through the streets of London bands of cat-catchers who pick up any stray cat and, having stowed it into a basket, take it to its fate. For each skin 35 cents is paid, but an all-black smooth skin will fetch about 48 cents. Many skin will fetch about 4s cents. Many society people have become inconsolable over the loss of their pets. The thieving is done in the most skillful manner, mostly by old women who pretend to feed the animals. In many quarters the streets are now being watched through the energy of a number of ladies, of whom Mrs. Almeric Paget is one.

INDEPENDENCE, Or., May 8 .- (Speclal.)—A report, which cannot be sub-stantiated as yet, that a new branch of the Salem, Falls City & Western will tap the Copper Hollow country, three miles west of town, has caused a stir in real estate conditions in that territory. A Mr. Cheesebourough, of The Dalles, has bought the C. Clapp ranch of 138 acres, Ramsey farm of 120 acres, and Kenyon place of 60, and the same have been put into crop for this season. It is reported that he is also trying to ge tother farms in the
