

"SIR ROBERT" HEAD GETS FREE ON BAIL

Crystal Gazers and Soothsayers Fail, but Bertische Resorts to 'Phone.

OCCULT POWERS USELESS

Officials Believe They Have Evidence to Prove Clairvoyant Levied on All in Profession in Chicago, Promising Immunity.

CHICAGO, May 11.—(Special.)—All the occult and other powers of the "clairvoyant" trust were exerted to no effect today in an effort to find and release C. P. Bertische, "Barney" to the underworld—who had been locked up at midnight Saturday at the head of a trust of criminals in Chicago.

While the crystal gazers were gazing and the soothsayers were consulting their magic star dust without even discovering at what police station their accused leader was being held, Bertische telephoned from the Kensington police station to "Ike" Roderick, professional bondman, and asked him to obtain his release on \$25,000 bonds. Roderick did so.

Practical Methods Upset Plans. When State's Attorney MacLay Hoyne caused Bertische's arrest Saturday night, after the trust had been reached, he ordered him held at the Kensington station until Monday. He refused to say at what station Bertische was held in order that Bertische might not obtain his freedom until tomorrow, when he is scheduled to be indicted. He thought that he was dealing only with the marvelous and all-seeing minds of the neomancers. He forgot the practical methods of Bertische. Consequently, Bertische is at large on bonds.

Conclusive evidence showing that Bertische organized and levied tribute of vast sums of money on the clairvoyant trust is in the hands of State's Attorney's investigators, according to Mr. Hoyne. The chief difficulty now is to prevent the horde of powerful aids of the imprisoned leader from reaching the six witnesses who are expected to appear against him. These witnesses are being carefully guarded.

Police Immunity Pledged. Probably the most important feature of the investigation of Bertische's operations is the tracing of the large sums of money said to have been paid him by the clairvoyants who believed they were to receive police immunity through him.

There were also wiretappers and pickpockets who were led to believe that all that was necessary was to pay money to Bertische and they would be immune from police prosecution.

While Bertische is alleged to have pocketed most of the money, there are several police officials who are credited with accepting money from him. Two policemen are said to have known of the operations of wiretappers who made their headquarters at a first-class hotel in the loop.

Small Fry All Sell Star Dust. Bertische went so far as to maintain a bank account at a loop bank under the name of E. C. Chatter, and he turned to the State's Attorney's investigators. Methods employed by the neomancers who are alleged to have paid protection money to agents of the trust are being revealed during the day by a member of the detective force who had been detailed to investigate clairvoyants.

Only those who might be termed "small fry" in the trust sold star dust, money beans and love powders. The big men in the business reached after the larger sums to be gained by swindling persons of considerable wealth or those who were able to lay their hands on large sums of money.

EDITOR OF "DIAL" IS DEAD

Author's Work on "Every Day Life of Lincoln" Interrupted.

CHICAGO, May 11.—(Special.)—Francis Fisher Browne, author and editor of the "Dial" since 1880, died today in a sanitarium at Santa Barbara, Cal., following a long illness, according to word received by his son, F. G. Browne, of River Forest. Mr. Browne, who maintaining a residence in Chicago, had spent the last fifteen winters at Pasadena, where he was associated with John Burroughs, naturalist and John Muir, geologist, in literary work.

Mr. Browne for many years had been associated with most of the leading figures in American literature. William Dean Howells was a personal friend, and he included among his friends of earlier generation Ralph Waldo Emerson, Walt Whitman, James Russell Lowell and Oliver Wendell Holmes.

Up to the day preceding his death Mr. Browne was actively engaged in revising one of his early books regarding the life of Abraham Lincoln. The revised edition was to be known as "The Every Day Life of Lincoln."

RURAL SIDEWALKS BUILT

Orengo Citizens and Farmers Nearly Make Novel Improvement.

ORENGO, Or., May 11.—(Special.)—The committee building sidewalks into the surrounding country held a special meeting last night and found that they have raised enough funds to build more than three miles. Sidewalks will be built to Quatama, for the convenience of about 14 of the school children; to Orengo Acres, and to the poultry ranches northwest of town; to Borwick Acres, where work of construction has already begun; and to the small fruit and poultry tracts west of town.

These funds are being raised jointly by the citizens of Orengo and the farmers. It is the intention of the committee to build at least five miles this summer.

WEEK WILL NOT BE WARM

Government Forecaster Predicts Frosts in Some Sections.

WASHINGTON, May 11.—Unseasonably high temperatures are not expected to prevail the coming week over any portion of the country, according to the weekly Weather Bureau bulletin issued today.

YOUNG MILLIONAIRE TOO ILL TO ENTERTAIN SENATORS, AS HE HAD PLANNED.

VINCENT ASTOR.

POUGHKEEPSIE, N. Y., May 11.—(Special.)—Vincent Astor returned to Poughkeepsie, his country home at Rhinebeck, this afternoon in a state of collapse and was so ill that the reception which was planned for members of the Senate committee on military affairs at Poughkeepsie was abandoned. Members of the committee who visited West Point yesterday returned to New York today and Astor went alone to Poughkeepsie.

Astor is suffering from a severe cold and his throat caused him much distress. It is still undecided as to whether he will undergo an operation for his throat trouble. Elaborate preparations were made for the reception of the committee at Poughkeepsie, where the members of the committee were to spend the night.

AUTOIST IS KILLED

Car Driven Against Motionless Train at Salem.

SALEM, Or., May 11.—(Special.)—Charles Underwood, son of Joseph Underwood, who operates an automobile stage to the West Side station, was instantly killed early today when an auto in which he was riding crashed into an Oregon Electric train at the intersection of High and Ferry streets. Vance Clymer, employed at the Club Steables, who was driving the car, sustained a fracture of his left arm, all his teeth were knocked out and he received cuts and bruises on his head, shoulders and breast.

It was declared by witnesses that the automobile was going at a rate of 25 miles an hour when it struck the train. The train was not in motion. Underwood was thrown from the auto against a car loaded with timber and his skull was crushed. He fell into a pool of oil and water, and when he was raised he was dead. Clymer was saved from the fate of his companion by bracing himself against the steering wheel.

Dr. G. E. Miller ordered Clymer taken to the Salem Hospital, and it was announced tonight that he would recover. The front of the car was telescoped and other parts smashed beyond repair.

Underwood was 27 years of age and Clymer is 26. Coronor Clough will hold an inquest at 2 o'clock tomorrow afternoon. The funeral will be held Tuesday.

TEACHER CANNOT SAVE

INCREASED COSTS EQUIVALENT TO SALARY REDUCTION.

THOUSAND DOLLARS NOW EQUIVALENT IN PURCHASING POWER TO \$693 ONLY 15 YEARS AGO.

WASHINGTON, May 11.—"Public school teachers of the United States do not receive enough salary to save money to cred by adequate life insurance or to proceed with further professional training," announces a report of the United States Bureau of Education. Most of the teachers of the country have, in effect, had their salaries reduced since 1897, the report says.

Despite an apparent increase in money received by them, the high cost of living has cut into their salaries just as definitely as if a school board had sliced them. A teaching position which paid \$600 in 1897 is paying in purchasing power an equivalent of \$116 today, if measured by 1897 prices; the teacher on the \$1000 salary gets no more for his money than he would have procured 15 years ago for \$693.

The report shows that wholesale prices in 1911 were 44.1 per cent higher than in 1897; that retail prices had increased 59.2 per cent in the same period, while in June, 1912, retail food prices were 61.7 per cent higher than in 1897.

OREGON'S RICHES GROW

State Bank Examiner's Statement Shows Increased Deposits.

SALEM, Or., May 11.—(Special.)—The Oregon wealth continues to increase, as attested by a statement issued by State Bank Examiner Wright covering the close of banking business April 4. The total deposits in the banks of the state were \$128,359,926, an increase of \$1,222,629 for the year.

The statement gives the total resources at \$182,739,892, an increase of \$4,097,924. The statement shows there are 165 state banks and 85 National banks in the state.

A gratifying feature of the statement is that the cash on hand and due from other banks is equal to 84 per cent of the deposit liability, the requirement being 25 per cent.

'WHITE SLAVE' LAW PULLING PRISONS

Work Being Hastened on New Cells at Leavenworth to Accommodate Rush.

MORE ARRIVALS EXPECTED

Atlanta and McNeil's Island Also Taxed—Half of Prisoners Are American Born, but of Foreign Parentage.

LEAVENWORTH, Kan., May 11.—(Special.)—The Mann white slave law, which makes it a penitentiary offense for any person to transport from one state into another a woman or girl for immoral purposes, is the largest factor here in the over-crowded condition that it has been for some time, according to Major R. W. McClaughry, who has just retired as warden of the prison. At present the prison population numbers 1181, of which number 122, or more than 10 per cent, are serving sentences for violations of the Mann law.

Since the close of the last fiscal year, June 30, 1912, 74 such prisoners have been brought to the penitentiary here, but during the last few months the Federal Judges have been sending offenders to the Detroit house of correction and various state prisons on account of the crowded condition of the Leavenworth institution.

The Government prisons at Atlanta, Ga., and McNeil's Island, Wash., are also receiving the overflow of the Mann law cases that are taxing their cell capacity.

In anticipation of the wholesale convictions that are expected to follow the investigations of the vice commissions appointed in Chicago, St. Louis and other cities, the work of completing the new cell wings of the prison here is being pushed.

From the latest available statistics compiled by A. J. Reno, record clerk of the prison, more than 50 per cent of the "white slaves" here are American born, but of foreign parentage. Detroit, Mich., has the most, with a record of the most convictions, having 1000 cases here, and another great city in the Middle West, Kansas City, ranks second and Salt Lake City is third.

MONSTER SHIP PLANNED

NAVY BOARD WANTS DREADNOUGHT OF 40,000 TONS.

Vessel, Which All Factions May Join in Supporting, Would Outrank All Others.

WASHINGTON, May 11.—Congress will be asked next year to appropriate for one battleship—a mammoth dreadnought displacing 40,000 tons, and costing about \$20,000,000—according to the advocacy of the Navy general board made public today.

In the debate on the naval bill this year members of Congress particularly interested in the Navy became satisfied that with two extreme factions, one advocating two or three first-class battleships a year, and the other with "no battleships" as a slogan, an overwhelming majority on both sides could be counted on to vote for a single dreadnought.

This one battleship, however, will be a monster, if the board's plans materialize, with a displacement of 40,000 tons and would easily rank as the largest and most formidable craft of war in the world. The plans call for a speed of 25 knots an hour.

Just what the armament would be has not been announced, but it certainly would be equal to that of the last ship authorized, which is to carry a main battery of 12 14-inch rifles, mounted in four turrets, three guns to a turret.

GREEKS SEEKING DELAY

Friction With Bulgaria Now Menaces Peace Negotiations.

LONDON, May 11.—The Turkish delegates arrived in London today for the peace conference.

Dispatches from Sofia indicate that the Greek government is trying to delay the conclusion of peace by refusing to accept the draft of the treaty drawn up by the ambassadorial conference.

The Bulgarian government, however, has notified Greece of its determination to permit no further delay in signing the peace treaty.

Friction between Bulgaria and Greece still menaces the situation. The mixed syndicate responsible for claims over Macedonia have failed to reach an agreement. The two sets of representatives have arrived at absolutely opposite and irreconcilable conclusions.

MORAL COMMITTEE NAMED

The Dalles Picks 100 Citizens to Investigate Candidates and Policies.

THE DALLES, Or., May 11.—(Special.)—Following in the footsteps of the organization in Portland, which has a similar name and aim, a committee of 100 was formed here yesterday. The object of the committee is to "unite the Dalles as a moral force of the city toward judicious and effective moral and civic progress."

It will investigate and suggest municipal candidates and give attention to the strict enforcement of local laws and ordinances, keeping a record of the actions of public officials. The vice committee of the main organization will probe moral conditions of the city and suggest and direct reforms if deemed necessary.

The officers of the committee are: President, C. L. Owen; vice-president, Mrs. Harry Wheeler; secretary, Dr. Adaline Keeney; treasurer, W. P. Cragin.

VETERAN OF CIVIL WAR TALKS OF EXPERIENCE

Did Not Have Any Faith in Plant Juice, but It Has Agreeably Surprised Him.

There is not a better known man in the entire State of Washington than Jacob C. Campbell, who lives in Christopher and whose postoffice address is R. F. D. No. 1, Auburn. Mr. Campbell is a retired farmer and has lived in Washington for the last twenty-five years; he is an old soldier, and came out of the Army with a wrecked stomach, as so many of our brave men did. He says: "I have had stomach trouble for thirty-five years or more and catarrh for ten years. I had a continual buzzing, roaring sound in my ears and my head would stop up in the mornings and my stomach would not digest my food. The roaring kept getting worse, but I seemed to be unable to get anything to help it. To be honest with you, I did not have much faith in Plant Juice when I first began taking it, for I had tried so many things that had failed. I am glad to be able to tell you that I was agreeably surprised; the roaring and buzzing in my head has disappeared completely and my stomach is in better condition than it has been for thirty years. I have every reason to believe that Plant Juice will do all that you claim for it."

The above is only one of the many in Washington that have been convinced of the merit of Plant Juice by personal experience. Catarrh is an inflammation of the mucous surfaces of the body; this surface reacts from the inside of the nostrils clear through the alimentary tract, and any portion of this surface can be affected by this most dreaded and annoying disease. Catarrh of the head is the most frequent of all, and this often affects the stomach from the constant dripping of the mucus from the head and throat into the stomach at night. As a constitutional treatment for catarrh Plant Juice has no equal; it heals and soothes the mucous membranes and keeps them clean and healthy, tones up the entire system, aids digestion, sharpens the appetite, relieves the constipation and gives sound, healthful sleep. The Plant Juice man is at the Owl Drug Company's Store, Seventh and Washington streets. Call and get a bottle from him today, and if it does not help you he will refund your money.

interesting reading of that time, among which is an article relating a \$10,000,000 fire in Turkey.

J. J. BURCH DIES, AGED 75

Death Takes Polk County Resident Who Crossed Plains in 1847.

RICKREALL, Or., May 11.—(Special.)—Jacob Jefferson Burch, one of Polk County's oldest and earliest pioneers, died at his home in this city, aged 75. He was born in Charlton County, Missouri, crossed the plains with his parents in 1847, settling in a donation land claim in the Rickreall Valley. The Burch family has been prominent in the history of Polk County, the late R. F. Burch, an older brother, having served in the constitutional convention in 1857, as well as in several sessions of the territorial and State Legislatures. Mr. Burch was married in 1850 to Miss Angeline Nance, who with the following children survive him: Alice Burch and Mrs. Forest Craven, of Rickreall; Mrs. George Schneller, of Sherwood; Warren and Lee Burch, of Sherwood.

\$20,000 CHURCH DEDICATED

Collection at Morning Service Toward Building Fund \$12,000.

TILLAMOOK, Or., May 11.—(Special.)—The new Christian Church, a handsome and modern structure costing more than \$20,000, was dedicated today. The other churches in the city suspended their morning services. There was a large congregation in erecting such a splendid building at so small a cost. He told the congregation that it was necessary to raise \$10,000 and borrow \$4000 from the board to put the church out of debt.

To this appeal there was a liberal response, for between \$11,000 and \$12,000 was raised at the morning service. The new structure is an ornament to the city.

HIGHWAY GRADING RAPID

Hard-Surfacing of Road From Toledo Two-Thirds Complete.

CENTRALIA, Wash., May 11.—(Special.)—The work of clearing and grading the first mile of the Pacific Highway out of Toledo, which will be hard-surfaced this summer, is progressing rapidly under the supervision of Contractor Herriot. At present there are ten teams and 18 men employed on the road.

The work is more than two-thirds completed, and it seems that Mr. Herriot will be able to complete the contract before the time required.

Centralia to Ship Berries to Canada.

CENTRALIA, Wash., May 11.—(Special.)—The Pacific Fruit & Produce Company has made arrangements for

"CASCARETS" MAKE YOU FEEL GREAT

Gently Cleanse Your Liver and Sluggish Bowels While You Sleep.

Sick headache, biliousness, dizziness, coated tongue, foul taste and foul breath—always trace them to torpid liver, delayed fermenting food in the bowels or sour, gassy stomach.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this matter reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Fast Cathartic pills, oil and purgative waters force a passageway for a day or two—yes—but they don't take the poisons out and have no effect upon the liver stomach.

Cascarets immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and poisons, take the excess bile from the liver and carry out of the system all the constipated waste matter and poisons in the bowels.

Fast Cascarets might well surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet and your liver and bowels clean and regular for months.

"Slim" Sallee of the Cardinals is for

"Slim" Sallee, the noblest southpaw of them all—is for it first, last and all the time—St. Louis sport writers even call him "Coca-Cola Sallee."

He says it's the best beverage to train on—Satisfying—Refreshing Thirst-Quenching

Demand the genuine—Refuse Substitutes.

THE COCA-COLA COMPANY, Atlanta, Ga.

shipping Centralia berries into Canada one of the biggest berry crops in history will be produced this summer.

This Is Where the Man of Brains Steps In

Jay Gould said he only wanted to see ten minutes ahead of the rest of the world on any plan. Watching the development of a subdivision of city property means seeing ahead of the rest of the world.

Any man of brains ought to investigate every subdivision that is opened up. For this is where property values climb most rapidly.

That very word subdivision ought to hold the attention of every man who doesn't have to figure on his next week's board.

Because subdivision means that property is being cut up, and many people are going to take possession of it where only a few have had their ownership before.

And wherever many people take possession, property values go up. That is what makes the value of city property—people. If you are an investor, if you are seeking a home, if you claim to have any brains more than are necessary to draw your next week's pay, you should never overlook that word.

In the want ads of The Oregonian, under the heading of Subdivisions, outlying property is constantly being divided and offered for sale.
