Quick Thinking Wins

Is your thinker fed right for prompt action?

At a dinner not long ago Thomas W. Law-son was talking on the subject of success. "Success in finance," said Mr. Lawson, "is due in a great measure to prompt action. The doubting, hesitating, Hamlet type of man had best keep out of finance. He is quite sure to be swamped."

most remarkable series of hunting pictures in motion ever made. It constitutes an exhibition that enthralis, entertains, and educates.

The difficulties of taking each of these films, and the points of interest in the pictures are carefully and intelligently set forth by a lecturer who relieves the straight information with little side journeys into the land of informal chatter and flashes of pertinent wit.
