

ELECTION DUBABOO IS WAVED ASIDE

President-elect Griffith, of Power Company, Says Work Will Not Be Halted.

EXTENSION PLANS TO HOLD

Official, Who Will Succeed B. S. Josselyn, Returns From East Convinced That Business Conditions Are in Ascendency.

Improvements planned and already under way by the Portland Railway, Light & Power Company will be continued and completed without interruption in spite of the proposed changes in the city and company administrations, declared Franklin T. Griffith, who, on July 1, will succeed B. S. Josselyn, president of the company. Mr. Griffith returned yesterday from a visit to New York, Philadelphia and other Eastern cities.

"Business in the East is improving," said Mr. Griffith, who is attorney for the company, "and I expect the prosperity that is everywhere evident in that part of the country soon will spread to the Pacific Coast. In fact I look for pronounced improvement in the local situation before the end of the summer."

While in Washington Mr. Griffith appeared before the United States Supreme Court and argued the case of the Milwaukee common carrier who is seeking to enforce a 5-cent fare between the city and Portland.

Public Now Accepts Receipts. The case has been carried to the highest court on the contention made by Mr. Griffith for the company that the State Railroad Commission, in seeking to require the company to carry passengers between Milwaukee and Portland for 5 cents is requiring the company to utilize its property without compensation. The city ordinance provides for a 5-cent fare within the city limits. Milwaukee is outside the city. Pending a final decision in the case the people are paying the usual 10-cent fare between Portland and Milwaukee but are accepting receipts. If the case is decided against the company these receipts will be related for differential between the present fare and the 5-cent fare. It is estimated that about \$25,000 worth of receipts now are held by the public.

Mr. Griffith went into conference yesterday with other officials of the company relative to the various improvements now in progress here. He was particularly interested in the East Side cross-town line and in the new line on Broadway.

Promises to Be Fulfilled. "We will do exactly what we promised on the East Side," he said. "We are ready to proceed with the work there as soon as the necessary legal and other requirements have been met. There is no disposition on the part of our company to delay work or to delay giving service."

"We will proceed with the work on Broadway as quickly as possible. I suppose that it is pretty generally understood that the pending application for franchise for standard-gauge cars over the new Broadway bridge will make a material difference in the time of completing the work. It will be necessary for us to order new equipment and new material if the broad-gauge line is to be built on Broadway and it will take a lot of time to get it. "It is useless for anyone to point out that we can give immediate service over the bridge when we are unable to make satisfactory connection on either side of the bridge. We don't accomplish anything by carrying people over the bridge if we can't take them anywhere after we get them across."

Mr. Griffith seems enthusiastic over business prospects in Portland, in spite of some of the unfavorable indications that have been apparent recently.

be deceived in attempting settlement on these lands, assuming that they could secure title provided the decree of the lower court is finally sustained. "Considerable difficulty is being experienced by the representatives of the Government in protecting prospective land claimants with honest intentions from the numerous alleged land locators who are commercializing the desire of such people to acquire a home. The fraud practiced by these locators upon their victims cannot be reached under any Federal statute, unless they have used the mails in accomplishing their purpose, which they very rarely do. Any representation by a locator or an attorney to the effect that any rights might be acquired by the tender of the purchase price to a railway company, by the filing of notice of settlement in the County Recorder's office, or by the taking of any other similar action, is a misrepresentation and should be so treated."

and have much better facilities and quarters than before."

According to Mr. Blethen, the Seattle Potlatch will be but four days long this summer. There will be fewer events than last year, but each will be bigger and more costly than the corresponding event of former seasons. Mr. Blethen, who was president of the Potlatch last year, is chairman of the publicity committee this year under President Walter F. Foster.

Politics in the Pacific Coast Admen's Association points to E. K. Hoak, of Los Angeles, as the next president, according to Mr. Blethen, and one of the local resorts near that city as the convention place.

Mr. Blethen had a good word for the work done for the associated carnivals of the whole Coast, under Secretary Hutchins, of the Portland Rose Show. "The southern Coast has a great tourist traffic and deserves more," he said. "We of the north Coast—Portland, Tacoma, Seattle and the British Columbia cities—have but little, and are out to win much. We will not rival California, only supplement it. California in the winter, the north Coast in the summer, that's our game, and 'Hutch' is on the right track."

"This tourist crop is the only one in the world that does its own financing. It can be added to all the natural and acquired resources of the north Coast, and be made very profitable. It's a part of the great movement to 'See America First.'"

Admen of the Northwest will assemble in Portland today preparatory to starting on the pilgrimage to the Pacific Coast Convention in Sacramento, May 19-21.

Spokane will be one of the first delegations to arrive here and will be met at the North Bank station by a crowd of local Admen. During the day trips to the stations will be made to greet delegations arriving from Vancouver, Victoria, Tacoma and Seattle. The visitors will be guests of the Portland Ad Club at the baseball game, and at 6:30 P. M. they will be guests at a dinner in the Portland Hotel.

The Admen's special will leave the Union Station for California at 11:55 tonight, in charge of J. M. Scott. A. C. Black will head the delegation of 16 which is to be sent from Portland and in the party will be the much-loved little Miss Mildred Tucker, who is to represent the "Rose City" in Sacramento during the convention. She will be one of the guests of honor at the banquet Wednesday night, and will sing especially composed songs for the Admen. Spokane will be led by "Miss Spokane" and in Portland today will make a demonstration parade through the streets of the city.

BOARD TO HEAR TEACHERS

Protest Regarding Pupils' Health Certificates Being Considered.

Four among eight or ten of the teachers of Portland who have been notified that they will not be re-elected for the coming school year have demanded a hearing before the Board and the Board has unanimously voted to permit them to appear in their own behalf.

Fire Chief Dowell recommended at the meeting of the Board Thursday installation of both electric and handbell alarm systems in the schools. The handbell has been in use because the electric gong alarm conflicted with other signals.

Another matter that was brought up for consideration at this Board meeting was a protest from W. S. Asher against the Health Board requiring certificates of health from pupils absent on account of illness before they may return to school. Violation of this rule of the Health Board was held to be responsible for the epidemic of scarlet fever in the Seckley Green school which made its closing for several days necessary. Mr. Asher's protest was referred to a committee for further consideration.
