DEMONSTRATION "BEAVER" VARNISHES — "MADE IN OREGON"

## ELECTION SCHOOL PLAN

PRECINCT OFFICIALS TO BE INSTRUCTED BY BARBUR.

At Meeting Monday Night in Council Chambers Proper Method of Handling Ballots Will Be Told.

A new departure, a school for election officials, will be inaugurated as a preparation for the coming municipal election. The chairman of the election boards for the 164 precincts of the city have been summoned by Auditor Barbur to meet in the Council chamber at 8 o'clock Monday night, where they will be instructed in the manner in which the election should be conducted. The chairman of the day boards will be told how to open the poll books, deliver the ballots to the voters, and perform the other duties, while the chairman of the night boards will be instructed in the proper manner of counting the ballots under the preferential system. Former elections under the old system have always been productive of more or less trouble, owing to "green" election boards, and it was feared that with the new system in practice the misunderstanding as to the proper procedure would be increased. "We hope in this manner to have at least one man in every election booth who has a thorough understanding of what should be done, and thus remove the possibility for the arguments and disagreements that have heretofore arisen," said Auditor Barbur yesterday. "By this means we also hope to facilitate the counting of the ballots."

## ASHLAND HAS BIG PLANS

EASTERN LAND SHOW TO GET EXCELLENT EXHIBIT.

Representative From Rogue Valley to Accompany Agricultural Display That Will Go to Chicago.

Ashland is going to get into the Eastern Land Show "game" on a big scale next Fall. This news was contained in a letter received yesterday by Manager Chapman, of the Portland Commercial Club, from D. M. Lowe, of Ashland, who will have charge of collecting a comprehensive exhibit showing the varied products of the Ashland section. Not only will an excellent collection of agricultural and horticultural exhibits be sent by Ashland, but the club plans to send along a representative to explain the collection of products to inquirers and answer questions made concerning it. An effort will be made to unite the whole Rogue River Valley in one big showing, so that the maximum benefit may be realized by that section of Oregon. It is Mr. Lowe's plan to make up a dry-farming exhibit from one ranch that will make up a part of the showing. A former display of this kind attracted much attention. He has been advised by Mr. Chapman that the state will make its chief showing at the United States Land Show at Chicago next Fall and that the State Immigration Commission will do everything possible to aid the people of the Rogue River Valley in shipping their exhibit and installing it where it will attract the most attention. Mr. Chapman says that such a display of products will do more than anything else to stimulate interest in the section represented and bring it new settlers. Mayor Enlarges Committee. Professor Arthur E. Wood, of Reed College, Mrs. Henry L. Corbett, V. R. Manning, superintendent of the Associated Charities, Rev. Philip E. Bauer, chaplain of the State Prison, and Mrs. Millsie R. Trumbull are additional members, appointed by Mayor Rushlight yesterday, of the committee authorized by the City Council to investigate and advise ways and means for the establishing of a detention home and free dispensary for those convicted of minor offenses. George A. Thatcher is chairman of the committee, which now consists of 10 members.

## SEED CORN SUPPLY SHORT

Ambitious Oregon Farmers Exhaust C. L. Smith's Visible Amount.

In his efforts to stimulate the corn-growing industry of the Northwest, C. L. Smith, agriculturist for the O.-W. R. & N. Company, has exhausted the visible supply of acclimated seed corn in this part of the country and still has many applications from ambitious farmers unfiled. Mr. Smith has toured Oregon, Washington and Idaho in his search for suitable seed corn. Last week he secured the last lot in the territory and this now has been distributed. More than 200 applicants probably will be disappointed unless he can secure more corn. Mr. Smith is determined to prove that Oregon is naturally fitted to become the best corn-producing state in the Union, in spite of the contrary but unfounded theories held by the old-time farmers.
