# BEAN CROP FAILURE

Serious Condition in California Producing Sections.

SPOT STOCK VERY LIGHT

Local Jobbers Announce Another Half Cent Advance in Small and Large Whites - Rain Now Would Be Too Late.

Wholesnie grocers yesterday announced another half cent advance in small white and large white beaus. The former are now quoted at 6% cents and the latter at now quoted at 6's cents and the latter at 6 cents. This commodity has gone up in price a full cent in the past fortnight. The strength of the market is due to the serious crop situation in California, where all of these kinds of beans are grown. The outlook is especially bad in the Const dis-rict all the way from San Jose to Santa larbara. This has been the driest season

seven inches, which is only a third of the average. Those growers who have water available are irrigating and possibly may obtain fair crops, but the bulk of the acreage must depend upon the rain alone. The situation is aggravated by the fact that the rainfall of the preceding Winter was also helow the average and there is little reserve water in the ground. The soil is most to a depth of five or six inches, but inches, but he will be made to carry the crops in the sevent water to make the corps in the crops in the sevent water. average. Those growers who have available are irrigating and possibly may available are irrigating and possibly may obtain fair crops, but the bulk of the acreate age must depend upon the rain alone. The situation is aggravated by the fact that the situation is aggravated by the fact that the final of the preceding Winter was also below the average and there is little research which is a serve water in the ground. The soil is serve water in the best tiliage. It is now so late in the sense that the chances of having a scaling rain, such as is needed, are slim indeed. All of these conditions have a tendency to create a strong feeling have a feeling that the state of California which has had sufon all kinds of beans. The only section in the State of California which has had sufent rainfall is the country south of Sanin Harbara, or the Lima beam section proper.
Stocks of all kinds of beams in California
are smaller than inst year. Especially is
this the case with small white beams. It
is doubted if there are over 60 carloads on

Hops. Weel and Hides.

The market is certainly stronger, and as attractive perceis are becoming scarce the outlook new points to an advanced range of values. Japans have been largely neglected for some time, but as the higher class of these styles are being more sought after on account of their proportionately low price, the whole market for the Japans also shows a better feeling. Honduras pairs also shows a better foeling. Honduras arades are always more in request because of greater variety of quality, and there has been a quiet under current of buying recentity going on, especially for the better grades, which has resulted in slightly advanced.

## SUPPLY OF STRAWBERRIES IS LIMITED

Strawberry receipts, as expected, were small. Light arrivals from California fre looked for again today. The market in the South is firm, owing to dry weather and strong demand. Florin Dollars were sold on the street at \$1.75. No Jessian were reon the street at \$1.75. No Jessies were re-

The supply of Oregon berrice was also small. Sales were made at \$3.50 to \$3.75. Hogs Are Steady at Unchanged a steady increase in receipts is looked for. owing to the line ripening

Lemons are selling well and are very firm. The orange movement is checked by the high prevailing price. Bananas are well cleaned up on the street. Seven cars are

fected by the weakness at San Francisco.

Local receipts, in cars, were reported by the Merchants' Exchange as follows: Wheat Barley Flour Oats Hay

Commenting on the general hop situation.

Dun's Review, of latest date, says; Business locally was confined to small sales between dealers at unchanged quotaions, 21c to 23c for prime to choice states tions, 21c to 23c for prime to choice states being still the prevaillr, figure. Up-state markets were quiet, in sales of importance being reported. On its Pacific Coast 200 bales of inferior qu'Aty hops were sold at 12 cents. Few contacts are being made for the coming crop as the prices asked by the growers are considered too high by buyers in view of the present excellent condition of the plants in every section, which indicates a very large yield."

Dressed Meats Are Weak. Dressed means are the weakest feature of the country produce markets. Veal sales the country produce markets. Veal rales drag, and a wide range of 13 to 14 conts is quoted on the best. Pork is moving at 11 h \$12 cents. The recent decline at the yards caused an easier feeling in this line. Poutry is moving at unchanged prices. Receipts are fair and dealers find no dirficulty in disposing of them. The egs market holds steady and unchanged at 18% to 19 cents for case count. Butter and charge are steady.

Bank Clearings.

Heavy Over-Subscription of Chinese Loan Abroad-London Is Buyer in Wall Street-Oil Shares Are Heavy.

NEW YORK. May 21.—Union Pacific, Reading and Steel, the stock market leaders, moved within a range of a point or less today. The unusually narrow fluctuations of these speculative favorites gave the measure of the market in general, which was a duil and spiritless affair. Traders sought in the early session to inaugurate a buil movement on the strength of the flotation of the New York City and Chinese bond issues.

While the cables reported some improvement in sentiment abroad on account of the heavy oversubscription of the Chinese loan, and London bought stocks in this market, there was no corresponding change of feeling here. Efforts to put up the market were-cut short by the decline in the New York City bonds below the average price of \$100,159 obtained by the city, heavy sales being made at 100 and a few at \$9%. A small gain was lost and the day came to a close with most of the prominent shares under yesterday's final prices.

While the city bond sale demonstrated that capital is available, when the high rate of interest and the credit of the borrower make the offering unusually attractive, doubt was expressed that the result of the offering would tend to stimulate the investment market as had been hoped. The need of new financing by railroad and other corporations is heavier than for many years past.

An unfavorable feature of the day's trading was renewed liquidation in certain quarters of the list. The petroleum shares were especially heavy. The bond market was under pressure. Total sales, par value, were \$3,25,000, of which \$1,500,000 was new city bonds. United States bonds were unchanged on call.
