Bonds for South Portland Viaduct Bearing 41-2 Per Cent Not to Sell Under Par.

ON BALLOT ALONE

BRIDGE ISSUE NOW

\$850.000 ESTIMATED COST

Point Is Emphasized That Only Publie Crossing on River Between Madison Street and Oregon City Is Sellwood Ferry.

One of the measures to be voted on by the people at the city election, June 2, is the question of issuing \$850,-000 in bonds for the erection of a bridge across the Willamette River in South Portland. This is the third time the proposal has been on the ballot.

It is the plan of those backing the measure to have a high bridge constructed from somewhere near Gibbs street on the West Side, at a southerly angle, to the East Side. The chief backers of the measure are the resi-dents of South Portland and the South East Side,

There is now no bridge for public traffic between the Madison-street structure and Oregon City, a distance of 13 miles. The only public crossing at any place between Oregon City and the Madison-street bridge is the Sell-wood ferry, near the city limits.

Hill, of Berea, Ky., was elected years at 4% per cent, to be sold for not less than par. The City Coundi in voting to place the measure on the bailot took into consideration the low market value of bonds. It was found president of oratory and debate, an of-fice to which particular significance is attached in view of the broadened that long-time bridge bonds bearing 4 per cent interest are bringing bids at present of 85 cents on the dollar and in, some instances lower prices. Eighty-eight cents was the maximum bid on similar bonds offered for sale by the city recently. To procure a fair price interest on the proposed is-sue was increased to 4½ per cent, and it was provided that they should not be sold at a discount.

Project Stands Alone. The residents of South Portland are particularly interested in the measure. At numerous booster meetings the plan has been discussed at length and that two months, will leave this morning for a trip to Europe. Mrs. E. H. Griffin, formerly of Port-
