With Officials on Improvements.

A conference will be held today with the officials of the Portland Railway, Light & Power Company by joint committees of the Broadway Neighborhood Club and the East Twenty-eighth-Street Improvement Association concerning the re-establishment of through streetcar service on East Twentyeighth street.

Through service across the East Twenty-eighth - street bridge across Sullivan's Gulch to Halsey street, as maintained until recently. Since then a stub car has been operated between

Halsey and East Glisan streets, a service which does not satisfy the people of the district.

The joint committee also will discuss street rallway company, the construction of the cross-town carline. The locked up under official seal.

members of the committees will meet there to the offices of the Portland Rallway, Light & Power Company.

CHINESE GENERAL KILLED Bomb Is Shipped to Supporter of

President Yuan Shi Kal.

SHANGHAI, China., May 25 .- General Hsu Pao San was killed by a bomb today while opening a box in the belief that it contained porcelain, of which he was an ardent collector. He had sent for a piece of porcelain, and when the box arrived he attompted to pry off the cover. A terrific explosion resulted, and he was huried with great force to the opposite end of the room. A servant also was instantly killed.

The General, who was known as "Tiger Hsu," was a strong supporter of President Yuan Shi Kai and the object of bitter hatred to the Southern extremists.

Grand Jury to Make Inquiry.

While City Attorney Stephen Long was occuiped with the legal phase of the disaster's aftermath today, Mayor Hatch, members of the City Council and of the Board of Public Works conferred with District Attorney Fred-East Side Associations to Confer ericks with reference to the grand jury inquiry, which will be started either before or just after the Coroner's inquest Tuesday. The object of the inquiry is to fix responsibility for the condition of the pier, a section of which, in front of the municipal auditorium, went down under a weight of human beings which has been estimated at not less than 750 tons.

On the order of the District Attorney two officers were placed on guard this morning over the ruined section of the pier, with instructions to keep watch

constantly until relieved by the grand jury and allow no tampering with any part of the structure.

#### Broken Timbers Scaled

Several broken timbers, which are expected to show the general condition

of the pier and thus aid in developing with Mr. Griffith, president-elect of the evidence of negligence, if there be any, were taken out of the pler today and

The weakness of the pier, which was at the chambers of Judge Gatens in the built eight years ago and never re-Courthouse at 1:39 o'clock, and go from paired in that particular portion, is believed to have been due to decay caused by the action of salt air on wood and its iron fasteners and sup-

ports. However, it was declared that a much stronger structure might have been wrecked under the same circumstances, as the participants of the big parade marched on the pier in step.

Military men pointed out that the rythmic vibration created by the measured tread of thousands of feet caused a tremendous strain on the supports, which already had been heavily burdened by the crowd which thronged in front of the doors awaiting admittance and they recalled that military columns comprising large numbers of men always broke step when crossing even iron bridges in order to avoid causing

collapse or serious damage. Civil Linbility Denied.

The grand jury investigation was demanded by the officers of the United Societies of British-Born Residents and Visitors, whose celebration of Queen Victoria's birthday anniversary was interrupted by the tragedy.

City Attorney Long answered reports of the prospective damage suits for large amounts with the statement that in his opinion the city could not be held responsible for the deaths and injuries because no charge had been made by the city for the use of the municipal

amusement property. Use of the pier used it at their own risk.

All but the more seriously injured were removed to their homes in Los This announcement is regarded as an Angeles and neighboring cities today.
