VOL. LIII.—NO. 16,388.

PORTLAND, OREGON, WEDNESDAY, JUNE 4, 1913.

PRICE FIVE CENTS.

## ALBEE IS MAYOR: PLURALITY 4524

### Complete Count May Give 5000 to Good.

### 4-YEAR TERM BEGINS JULY 1

### Daly, Dieck, Bigelow and Brewster Commissioners.

### CLYDE AND BAKER LOSERS

### Election of Aides to Mayor Due to Second and Third-Choice Votes. "Single-Shot" Talk Aids Rushlight Defeat.

HOW THE EAST AND WEST SIDES VOTED ON MAYORALTY CANDIDATES.			
First-Choice Votes.			
	Albee	Rushlight	Other
West Side	2,256	1,778	1,121
East Side	2,268	1,121	1,583
Grand total	4,524	2,899	2,704

At 2 A. M. the total first, second and third-choice votes for the leading candidates for Commissioner, with 105 precincts missing, were:

Candidate	First-Choice	Second-Choice	Third-Choice
Will H. Daly	15,546	15,746	15,807
C. A. Bigelow	15,467	15,830	15,982
W. L. Brewster	15,830	15,982	16,043
T. M. Hurlburt	15,982	16,043	16,104
Alfred C. Clyde	16,104	16,165	16,226

H. R. Albee has been chosen Mayor of Portland for the four-year term provided in the commission charter, as forecast in the Oregonian yesterday. At no time was his election in doubt, although a slight flurry was caused during the morning when some complete precincts from Rushlight strongholds were opened at the City Hall and out of that number Rushlight gained slightly. Mr. Albee pulled steadily ahead until at 2 A. M., with 155 precincts complete and 7 incomplete, he had a plurality of 4524. His plurality on the complete count probably will reach 5000.

Mr. Albee's plurality on first-choice votes was 4524 and on first, second and third-choice votes 5235, with 155 precincts complete and seven precincts incomplete at 2 A. M. The complete count will increase rather than decrease Albee's plurality.

Mayor-elect Albee will assume the duties of his office July 1, when he will succeed A. G. Rushlight, the incumbent, who will then have served a two-year term. Rushlight succeeded Joseph Simon.

Salary increased to \$6000. Under the present charter the term of Mayor is two years and the salary is \$4800 per annum, while under the commission form, to take effect July 1, it is four years. Mr. Albee will be the first man to see the city's chief executive under the new plan. The salary is increased to \$6000 a year.

The Mayor is well-nigh a dictator under the commission form of charter adopted for this city, as he assigns the Commissioners to the departments and apportions their work, and may at any time transfer them from one department to another without explanation, and he may also change their work, adding to or taking from, at any time, or he may go so far as to abolish a department and organize it under another name. He directs one department exclusively and has the privilege of choosing any of the five departments authorized by the charter.

Will H. Daly, C. A. Bigelow, Robert G. Dieck and W. L. Brewster, the high men for Commissioners on the count up to midnight, can attribute their election to their excellent second and third-choice votes. Each of them ran well in this manner, while Ralph C. Clyde, George L. Baker and others who were in the running at the outset failed because of the lack of second-choice or third-choice votes. The "single-shot" talk used by the Rushlight forces in the Mayoralty race, and by a number of the candidates for Commissioner, contributed to their defeat.

Hurlburt Makes Strong Run. T. M. Hurlburt, present City Engineer, made a strong run for Commissioner, being one of the voters of Clyde at midnight. He was endorsed by the Portland Society of Civil Engineers and had other backing. He climbed to fifth place during the afternoon and remained in that position in the count up to midnight.

Now that the election is over and the results are known, it is shown beyond doubt that the Portland electorate appreciates information and recommendations from unbiased sources. Mayor-elect Albee was recommended earnestly by The Oregonian and, while he was not formally endorsed by the committee of one hundred, it was generally known that he was favored by a major portion at least of the members of that body. He was endorsed by the Public Welfare Federation.

Commissioners Are Indorsed. Will H. Daly, Robert G. Dieck, C. A. Bigelow and W. L. Brewster, were indorsed, along with others, by the committee of one hundred, by the Public Welfare Federation.

## 2 RESCUED AFTER BATTLE WITH SEA

### BEACON KEEPER'S CRAFT CAPSIZES REPEATEDLY.

### Tillamook Lighthouse Men Pass Day and Night Fighting Waves and Clinging to Rock.

CANNON BEACH, Or., June 3.—(Special.)—A battle of several hours with wickedly breaking combers, which repeatedly capsized their light dory and finally forced them to abandon the fight, and a day and night passed clinging to the jagged edges of Bird Rocks, in full view of numerous persons on shore whom they were unable to attract, and the loss of official and private mail and their personal effects, were experiences met Monday and Monday night by Captain W. Dalghes, keeper of Tillamook Lighthouse, and his assistant, D. W. Clark. They were rescued today by M. S. Warren, proprietor of the Warren Hotel, who went to their aid in his motorboat on being advised by telephone of their predicament by Lester Bill, who sighted the marooned pair.

Captain Dalghes and Mr. Clark left the lighthouse early Monday to pass the day ashore. They intended landing at the mouth of Elk Creek. Soon after they started a heavy sea was encountered and their light craft was capsized numerous times and tossed about until the pair finally deserted the bucking dory, swimming to Bird Rock. The remainder of the day was passed in vain attempts to attract autoists traveling along the beach on the mainland. They suffered greatly from hunger, thirst and cold, but declared they were not otherwise hurt.

### TWIN FALLS TO GET LINE

### Western Pacific to Extend to Heart of Rich Idaho Country.

SAN FRANCISCO, June 3.—(Special.)—It is authoritatively declared by a Western Pacific official today that the Western Pacific Railroad will shortly be extended to Twin Falls, Idaho, the heart of a rich mineral and timber belt, and Boise City, the latter extension heading off the often-discussed line from Boise to San Francisco. Plans for these extensions have been divulged in the last few days during the Western Pacific's efforts to secure sufficient money with which to make improvements. By the extension into Idaho the road expects to acquire a large freight business in timber and ore.

## STOCK AND GRAIN PUT ON FREE LIST

### Senate Sub-Committee Reverses Action.

### PRESIDENT'S VIEW IS MET

### Inquisitorial Clause Is Giving Considerable Trouble.

### MODIFICATION IS SOUGHT

### Safeguard Against Undervaluations to Be Retained, Without Offense to Obnoxious Foreign Powers If Possible.

WASHINGTON, June 3.—Reversing its former action in voting to place wheat flour, oatmeal and fresh meats on the dutiable list, the Senate finance sub-committee in charge of the agricultural schedule voted, late today, to place livestock, wheat and oats on the free list.

This action, it was authoritatively declared, was taken to meet the views of President Wilson, Senator Simmons, chairman of the finance committee, and other Administration leaders, who disapproved the decision announced yesterday to tax meats 10 per cent compensatory to a duty on cattle in the Underwood bill and to assess a compensatory duty on both flour and oatmeal.

The vote to reconsider was taken in the sub-committee of a motion made by Senator Simmons, ex-officio member of all the sub-committees handling the tariff schedules, when he returned to the capital from a conference with the President.

President Approves Policy. In this enlargement of the free list, President Wilson is known to have taken a leading part, as he did in the matter of raw wool and sugar before the ways and means committee. As he still is standing uncompromisingly with the wool and sugar schedules, so, it is declared, he will stand firmly for free livestock.

"LAZIEST MAN" IS FOUND Able-Bodied Missourian Lets Mother Support Him by Rag-Picking. KANSAS CITY, Mo., June 2.—Edward Dunn, 28 years old, native of Armourdale, a suburb, was pronounced today "the laziest man in the world" by a Judge of the Municipal Court of Kansas City, Kan., and was sentenced to hammer out a \$500 fine in the workhouse.

Dunn, broad shouldered and physically fit, allowed himself to be supported by his mother, 60 years old, a ragpicker.

## HILL NEGOTIATING FOR BAY TERMINAL

### San Francisco Expects New Railroad.

### YARDS ON ISLAND PLANNED

### Deep Sea Facilities Also Ac- quired, It Is Thought.

### PROPERTY CHANGES HANDS

### Site Sought Ostensibly for Amuse- ment Park Now Said to Have Been Intended All Along for Use in Railroad Scheme.

SAN FRANCISCO, June 3.—A definite and authorized announcement concerning the entry of the Hill railroad interests into San Francisco is expected within a few days.

Negotiations are now pending which, if satisfactorily closed—and thus far they have been pursued without interruption—will give the great railroad system of the Northwest dominated by Hill one of the most magnificent terminal properties on the Pacific Coast.

According to tentative plans Bay Farm Island in San Francisco Bay will be acquired for the site for the railway shops and freight yards.

Proposed Terminal Ideal. Bay Island Farm, on the south side of San Leandro Bay, it is said, will be the terminal of the Hill line. The island is an ideal site for such terminal, one of the few remaining, and many times before has it been mentioned in connection with factory sites, shipping yards, railway terminals and even as a navy yard.

The land for the most part is 10 feet or more above high tide point, and is absolutely level. The acreage can be extended almost indefinitely by means of filling in the tide lands as far up as the Southern Pacific's bridge.

The most important holding on the island is the McCartney property. Not

## DEFEATED MAYOR IS PHILOSOPHICAL

### RUSHLIGHT CONGRATULATES MAYOR-ELECT ALBEE.

### Chief Executive Passes Day at Offi- cial Duties—Thanks Given and Support Promised.

Mayor Rushlight takes his defeat philosophically. He was at his desk at the City Hall as usual yesterday, attending to the routine business. In the afternoon he presided at a meeting of the executive board, and when it was proposed to postpone the decision of the board on the acceptance of the Milwaukee street improvement, he protested that unless some real good reason to the contrary existed the matter should be disposed of at once, so that it would not by any chance be left as one of the problems of the new administration.

The Mayor yesterday issued the following statement:

"I want to thank my many loyal supporters for the kind interest they have taken in my behalf. I believe that in the two years that I have been Chief Executive of the City of Portland that the people's interests have been well cared for and property safeguarded.

"I have endeavored to encourage business, investments and the development of the city generally. I have avoided grandstand methods and have tried to operate the business of the city on sane business principles.

"I congratulate Mr. Albee and hope that his administration will be as good as mine, or better.

"We are bound to have a great city here, and its people should be represented by good men, fair to all classes of citizens.

"I will lend my assistance to the incoming Mayor and to the people in general to make Portland a bigger and better city."

### DEMAND FOR CHILDREN BIG

### Societies Spending Time Seeking Babies for Childless Homes.

SPRINGFIELD, Ill., June 2.—The committee investigating home-finding institutions in Illinois reported to the lower House of the Legislature today. The report says in part:

"In most of the home-finding institutions the demand for children has been greater than the supply. The societies started out to find homes for homeless children, but they now are seeking children for childless homes. The moment a society so forgets its purpose, its license should be cancelled, as it is a standing menace to the homes of the poor and ignorant."

## BANKERS FORESEE BIG CROP INCREASE

### Survey of Northwest Spells Prosperity.

### 500 OBSERVATIONS AVERAGED

### Reports Cover Washington, Oregon, Montana, Idaho.

### LUMBER OUTLOOK BRIGHT

### Gain in Oregon Grain Yield This Year Placed as High as 50 Per Cent in Some Places—Livestock Industry Shows Advance.

SEATTLE, Wash., June 3.—(Special.) Reports from nearly 500 bankers in Washington, Oregon, Idaho and Montana insure an era of great prosperity for the Pacific Northwest, according to information in the Trade and Crop Bulletin of the Seattle National Bank, off the press today.

The bank has issued a review of this kind every Summer for some years, and the publications have been accepted universally as standard and authoritative.

The most important reports contained in the review, as to existing conditions in Washington, are summarized as follows:

"Forward again is the ringing note in the reports just gathered from the Pacific Northwest. We have received from nearly 500 bankers covering every county in the states of Montana, Idaho, Washington and Oregon, a territory running over 1000 miles east and west, and 700 miles north and south. The products of this great domain cover almost everything which is grown in the temperate zone, and, with few exceptions, the reports indicate a great increase in productivity throughout.

"Big Lumber Increase Predicted. In the analysis of replies lumber leads with regard to the proportion of increase, as compared with decreases indicated. There are 75 predictions for increase to each prediction of decrease. In logs there are 29 predictions of increase to one of decrease. In hay, 15 to 1; livestock, 19 to 1; dairying, 6 to 1; oats, 5 to 1; wheat, 3 to 1; small fruit and vegetables, 3 to 1, and fruit 1 1/2 to 1. In the case of wool, the percentage of increase prediction is slightly in excess of the percentage of decrease prediction.

"From Northwestern Washington logs and lumber production are predicted to be 25 per cent higher; from Shaght County, 25 per cent; from Lewis County, 17, 40 per cent; from King County, predictions ranging from 20 per cent to 30 per cent; from Stevens County, 75 per cent on lumber.

"Greater Hay Harvest Seen. "Hay production is predicted to be in Okanogan County 25 per cent greater; King County, 25 per cent; Benton County, 25 per cent; Cowlitz County, 25 per cent; Lewis County, 25 per cent; Yakima County, 10 per cent; Whitman County, 10 per cent.

"As to livestock, Cowlitz County predicts 25 per cent increase; Yakima County, 15 per cent; Lincoln County, 10 per cent; one section of Benton County, 100 per cent; Stevens County, 50 per cent; Spokane County, 10 per cent.

"We have abundant evidence of the fact that the raising of livestock is on the increase, this being part of the tendency to diversify farm products.

"From the Walla Walla country we hear:

"All cereal crops are at this date looking well, though somewhat backward, particularly on Spring sowing, because of late cool weather. Should nothing occur later to reduce the yield, we would look for a heavier grain crop than last year—perhaps 10 per cent heavier."

"Big Bend Crops Look Good. "From Lincoln County: 'The prospects for a large crop of wheat and other small grains in the Big Bend country to this date, May 20, are the most promising they have been for the last ten years; the average of winter wheat is fully 50 per cent greater than was ever sown before in this section of the country.'

"From a report from a highly valued source, which has covered the entire Palouse country, we have the following:

"The condition of winter wheat in the Palouse country, a district comprising the greater part of Whitman County, Washington, and Latah County, Idaho, as a whole is reported as average, ranging from 5 per cent above in the western part to 5 per cent below in the eastern. The acreage is slightly increased.

"Spring wheat on about 75 per cent of the usual acreage is nicely up and of healthy growth except in the eastern part of the Palouse, where seeding and growth have been retarded by late rains. There is a material increase in the barley acreage.

"Oats occupy about half the acreage of former years. Timothy, alfalfa and clover show rank growth on an increased acreage.

"Increase in Oregon Seen. "Oregon reports by counties indicate a big increase in dairying, in hog and cattle raising.

"In the wheat-raising counties of that

## MAYOR-ELECT ALBEE AND FOUR MEN CHOSEN TO SERVE AS COMMISSIONERS

WILL H. DALY, Commissioner. C. A. BIGELOW, Commissioner. H. R. ALBEE. WILLIAM L. BREWSTER, Commissioner. ROBERT G. DIECK, Commissioner.
