PRICES NOT SHADED

Wheat Holders Turn Down Low Oriental Bids.

CALIFORNIA READY BUYER

Local Market Is on Firm Basis With Quotations Unchanged — Crop Reports From Interior More Favorable.

Oriental wheat buyers are still dickering in the market, but they are a cent or two under sellers' prices. There is no likelihood that quotations will be lowered, and it is probable the buyers on the other side will have to come through. California millers continue to take wheat at current prices, and this is helping to keep the market firm. No change has been made in local quotations this week.

Weather reports from the Inland Empire yesterday were more favorable. The weather was cooler, and it is believed no material damage was done. The only complaints have come from the late sections. There were the same complaints from there last year, yet the crop came through fine. According to reports from farmers in some sections, the three or four days of hot weather has been the making of the grain. In the Oregon river counties the crop is not looking as well as last year, when it was exceptionally good, but elsewhere in Eastern Oregon the reports are favorable. The Eastern Washington crop, as a whole, seems to be coming along fully as good as a year ago. In Idaho the prospects are better than last year.

Local receipts, in cars, were reported by the Merchants' Exchange as follows:

WALLOWA COUNTY WOOLS CONSIGNED

Only One Outright Sale Has Been Reported This Season.

ENTERPRISE, Or., June 4.—(Special.)—Although only one outright sale has been reported, more than half of Wallowa County's 1913 wool crop may be considered as having been marketed. The bulk of the clip will be consigned direct to Boston houses and held to await developments in the Eastern market. This business is being handled on agreements under which advances are made to the growers.

The one sale made was by R. F. Stubblefield to Bicknell & Oxman. Mr. Stubblefield sold 11,000 fleeces, estimated to produce about 88,000 pounds. This included the wool of Omar Stubblefield and a number of smaller or sheepmen whose clip is mixed with the Stubblefield wool. The price was 13 cents for the fine wool and 14 cents for the coarse.

The largest part of the consigned wool already engaged goes to Halliwell, Jones & Donald. The clips are as follows: Fred W. Falconer, 9000 fleeces, or 72,000 pounds, including the Ramsay and Moxley wool; Jay H. Dobbin, 21,000 fleeces, or 168,000 pounds; C. R. Daugherty, 3000 fleeces, or 24,000 pounds; N. C. Longfellow, 5200 fleeces, or 41,600 pounds; C. L. Hartshorn, 5200 fleeces, or 41,600 pounds.

A consignment agreement for Peter Beaudoin's 18,000 fleeces was made in the Winter by E. W. Rumble, of Joseph, representing Crimmins & Peirce, of Boston. None of this wool has moved yet.

No announcement has been made in regard to the clip from the 16,000 or 19,000 sheep of the David & Michelliod Company. Last year this wool was bought by Julius Dufour for the French manufacturers, The Litch & Graves, the L. C. Johnson, the Luther Stubbaugh and some other good-sized clips are still on the market.

Results to date have given an agreeable surprise as to Winter range sheep. Protracted cold weather and snow in the Winter naturally made the Snake River, the Imnaha and Joseph Creek caused considerable hardship to the flocks. It was feared the wool would be inferior. But while the fleeces are light, they are of decidedly better quality than had been expected.

The shearing plant at Johnny Johnson's, on Pine Creek, began work the first of the week. Eight new machines were installed, making this a 20-machine plant.

GRAHAM FLOUR OFFICIALLY DEFINED

Department of Agriculture Reports on Its Investigations.

The bureau of chemistry of the United States Department of Agriculture has been conducting an investigation of graham flour, concerning which product there is great confusion in the milling trade, with the idea of establishing certain standards with which all graham flours shall comply. Statements made by many millers show that a very large percentage of the so-called graham flours on the market are mixed products, or imitations made from feed bran, together with low-grade flour, 5 or 10 per cent cracker flour and in many instances contain the sweepings from the mill.

True graham flour, according to Bulletin 184, just issued by the bureau, is "unbolted wheat meal made from sound, clean, fully-matured, air-dried wheat." This may also be called "whole wheat flour," or "entire wheat flour." Mixtures, or flours from which part of the bran has been removed, should be labeled imitation graham flours.

Bread made from whole wheat meal was much esteemed among the ancients for its medicinal properties. It was reintroduced into general use early in the 10th century by Sylvester Graham. Bulletin 164 gives a brief history of graham flour. It also contains physical and chemical analyses of the graham flours found on the market.

BERRIES SELL AT LOWER PRICES

Farmers Consigning to Outside Markets With Unsatisfactory Results.

Conditions in the strawberry market were not materialy changed yesterday. A good many of the arrivals showed the effect of the recent hot weather. The best stock sold at $2.25 and poor berries went as low as $1.

The demand from outside markets has been hurt by farmers in the Valley consigning sunburned or green berries there. They are not only getting poor returns, but have closed an outlet for the surplus of this market and thereby weakened local prices.

Additional shipments of loganberries were received from California. They offered at $1.50 a tray, but were in small demand. Cherries and apricots were unchanged.

Lemons were quoted a quarter higher at $8.25 for fancy. Three cars of bananas arrived.

A car of new potatoes was received and quoted a quarter cent higher at 2¾ cents. Peas were firm at 9 cents. Other vegetables were unchanged.

CHEESE MARKET IS TENDING UPWARD

California Buying Freely at Tillamook—The Local Supply Small.

The cheese market is firm and will probably be quoted a half cent higher at the opening of the coming week. Local stocks are small and Tillamook reports good California orders. No change was reported in the butter situation.

There was a good steady demand for poultry at former prices. Hens were moved at 15 cents and broilers cleaned up quickly at 23 cents. Spring ducks are still bringing a high price. Dressed veal was firm at 14 cents and pork was steady and unchanged.

The egg market is in good shape and dealers look for no change in the immediate future.

Bank Clearings.

Bank clearings of the Northwestern cities yesterday were as follows:

BEARS RAID MARKET

Series of Drives Followed by Rally in Stocks.

TONE GOOD AT CLOSE

Denial From Washington of Any Immediate Trust Prosecutions Is Responsible for Improvement in Sentiment.

NEW YORK, June 4.—Liquidation on a large scale, together with a series of bear drives, caused a severe disturbance in the stock market in the first half of today's session. A rally then occurred and trading became quieter, with a decided improvement in prices.

The initial downward impulse came from London, where American securities were depressed substantially in some instances before the opening here. With the beginning of business the market was flooded with selling orders, and quotations were forced down rapidly in all directions. Of 187 stocks dealt in about 100 reached new low levels for the year. In some cases the prices were the lowest since the panic of 1907.

Denial from Washington that any immediate trust prosecutions were in prospect had a good deal to do with steadying the market later, and in the afternoon prices gradually improved. The upturn seemed to be due largely to short covering, however.

The further decline in stocks today led to the calling of loans, and while the effect upon the money market has not been pronounced, bankers predicted stiffer rates before the end of the month. Time money was somewhat firmer today.

The bond market was weak with declines of 1 to 2 points in some cases. Total sales, par value, $2,850,000. United States bonds were unchanged on call.

BEST GRADES STEADY

BUYERS BIDDING FULL PRICES FOR QUALITY STOCK.

Choice Steers Moving at $8.35 and $8.25 at Yards—Top Hogs Hold at $8.55.

There was a fairly steady market in all lines at the stockyards yesterday. Sheep continue to come forward freely.

In the steer division top grade stock was taken at $8.35 and $8.25, and medium quality at $7.25. Cows sold at $6 to $7 and heifers brought $6 and $6.50.

Only two full loads of hogs were disposed of, and these went at $8.55, the current top price. A few heavy hogs were sold at $7.75.

Sheep buyers were ready to pay full prices for desirable quality, as shown by sales of yearlings at $5.75 and lambs at $7, but a considerable proportion of the recent arrivals have been off grade.

Receipts were 256 cattle, 539 hogs and 1590 sheep.

Shippers were: Oak Island Land Company, by boat, 30 cattle; M. Hector, Goldendale, 1 car of sheep and hogs; L. McCredie, Roosevelt, Wash., 1 car of hogs; Frank Wann, Canby, 1 car of sheep; T. A. Kline, Corvallis, 4 cars of sheep; H. A. Yocom, Yamhill, 1 car of sheep and hogs; J. B. Taylor, Echo, 4 cars of cattle; R. N. Stanfield, Stanfield and Castle Rock, 3 cars of sheep; J. A. Martin, Blackfoot and Shelley, Idaho, 2 cars of hogs; D. W. Owen, Idaho Falls, 2 cars of hogs; Dr. Hilligan, Lima, Mont., 8 cars of cattle, and James Wilson, Shanko, 2 cars of cattle.

IDAHO WOOL SALE IS LARGE

Total of 600,000 Pounds Disposed of to Eastern Buyers.

BOISE, Idaho, June 4.—(Special.)—One of the largest wool sales in Idaho since buying opened this year took place at Mountain Home today when 600,000 pounds of this year's clip was sold at prices ranging from 13 to 14 cents to Eastern buyers. The clip represented a pool of a number of growers, the largest amount sold by any one grower being the clip of Senator Worth Lee, of Mountain Home. The wool was sold entirely on its merits and as it was of good quality bidding among buyers was crisp.

Growers have about completed shearing and the clip is being stored by many of them to await more favorable prices. They believe that good quality wool from this year's clip should bring a better price than 16 cents, now apparently the maximum, and as they are confident the buyers will pay better prices they are willing to take their chances by waiting. A number of the large sheepmen, however, are willing to let their clips go at this price. This fact, it is believed, is established by the sale at Mountain Home today.
