

HILL, IN AUTO, GETS LOST IN SAGEBRUSH

Great Northern Railroad Magnate Receives Hurry Call From New York.

RECLAMATION SERVICE HIT

St. Paul Man Denounces Work of Director Newell for His Neglect of Settlers on Western Irrigation Projects—Boise Passed Up.

BOISE, Idaho, June 4.—(Special.)—Although Louis W. Hill, chairman of the board of directors of the Great Northern Railroad, who with a party of Eastern capitalists arrived at Caldwell late today, following a tour of inspection of the military land grant lands in Central Oregon and the rich country in Eastern Oregon and Western Idaho, declared there was no particular significance attached to his trip, there is a feeling both here and elsewhere that the trip is, in reality, a locating one.

Accompanied only by J. H. Young, of Portland, Western head of the Hill lines in Washington and Oregon, Mr. Hill occupied a large automobile in the trip made from Ontario to Caldwell via Payette, Nyssa, the Big Bend country and Roswell. Other members arrived in Caldwell two hours ahead of Mr. Hill and his machine. The explanation was given that the latter became lost in the sage brush.

A short stop was made at Caldwell and a shorter one at Nyssa. The fact that Mr. Hill had received telegraphic information while at Ontario to go to Butte and later to New York without delay, Boise was cut off the itinerary. The party left tonight for Butte via Pocatello.

In a short address before the citizens of Caldwell tonight Mr. Hill expressed his surprise at the great development in Eastern Oregon and Western Idaho. He asserted that the intermountain section is vast empire of great wealth and still undeveloped. In his opinion he said this section, coupled with the vast Oregon interior, is destined to be the Mecca for hundreds of thousands of settlers.

While at Ontario Mr. Hill bitterly denounced the reclamation service, especially attacking Frederick Newell, director of the service, for his neglect of settlers on Western irrigation projects.

From information secured from members of the party careful attention was given by A. M. Luffner, chief engineer of the Hill Oregon lines, to the survey made from the Idaho border through Central Oregon to the Boise & Western, the proposed Hill line.

HILL'S TRIP IS SIGNIFICANT

Boise Expects Revelations Concerning Railroad Plans.

BOISE, Idaho, June 4.—(Special.)—Significance is attached to the present trip of Louis W. Hill, chairman of the Northern Pacific Railway system, to Eastern Oregon and Western Idaho, due to the recent reports concerning the Butte-Boise-Winnemucca railroad. Mr. Hill and his party will reach Ontario tomorrow morning, leaving for Caldwell, where, after visiting the Deer Flat reservoir, they will take the interurban loop trip to Boise.

Extensive plans have been made here for the reception of the party. Mr. Hill will be the guest of honor at a luncheon at the Commercial Club. It was asserted by railroad men here tonight that the representative of the Hill roads would have something to say concerning the Hill plans for Western Idaho and Eastern and Southern Oregon.

HILL MISTAKEN FOR FARMER

Railroad Magnates Reach Ontario and Travel on to Boise.

ONTARIO, Or., June 4.—Louis W. Hill, J. H. Young and party arrived from Burns last evening, leaving for Boise this morning early by auto via Caldwell. They were entertained here by the Commercial Club. People not knowing Mr. Hill mistook him for a farmer. He expects to make the trip to Pocatello by auto.

SUNDAY SPORTS OPPOSED

Resident of Upper Hood River Valley Deplores Move.

HOOD RIVER, Or., June 4.—(Special.)—According to J. P. Thompson, who was here yesterday from the Upper Valley, the recent effort on the part of a number of the citizens of that district to abolish Sunday sports and declare a half holiday on the first and third Saturdays of each month has created a division of opinion in the Upper community.

"Most of those signing the petition," says Mr. Thompson, "are either unmarried men or have small children, and they do not understand the needs of young men. If our sports are discontinued in the Upper Valley, these boys will leave the valley on Sundays for Hood River or other neighboring cities. We will find that we are pursuing a wiser course if we keep them at home."

Mr. Thompson also thinks that the failure to provide Sunday sports will also prevent outside people from coming into the Upper Valley. "At present," he says, "many Sunday visitors come because the excursion to some baseball game gives them a chance to view our scenery."

POLK FARMERS ORGANIZE

New Union Will Keep Closely in Touch With Portland Market.

BURNA VISTA, Or., June 4.—(Special.)—A farmers' union consisting of the farmers in the districts of Independence, Lewisville, Hickreal, Atrile, Burna Vista, Sover and Oak Point, has been formed and definite plans made by which the Polk County tillers of the soil hope to secure better prices for their products and pay nominal sums for implements.

At the first meeting of the farmers Saturday the new rules were laid and a full set of officers elected to serve for one year. The union men, when more permanently established, may employ a representative to get for them the best Portland market prices at all times and to handle shipments concerning the union in general, such as sacks, twine and other supplies at harvest time.

Despite the busy corn and clover planting season of the year, hundreds

ELDERLY SEATTLE LADY GIVES PERSONAL OPINION

Mrs. A. N. Pettigrew, of Seattle, Says Plant Juice Has Almost Made Her Young Again.

Among the Seattle ladies who have tried Plant Juice and found it good is Mrs. A. N. Pettigrew, who resides at 116 Twenty-ninth avenue. She says: "I have only used one bottle of Plant Juice and it surely has helped me. Of course, at 74 I do not expect to be made young again, but I felt as though there was something somewhere, if I could only find it, that would relieve me of my stomach and liver troubles. My liver has given me considerable trouble for a good many years. Last Fall I had a severe attack of biliousness and have not felt well all Winter. Plant Juice has helped me from the very first dose and I think it is just what I needed."

Plant Juice is a vegetable remedy that has proven of great benefit to elderly and aged as well as the younger generation. As a general tonic, vitalizer and invigorant, it is without any equal. It tones up both mind and body and gives energy and strength. Those who suffer from poor circulation, impoverished blood, low vitality, indigestion, gas or bloating after meals, headache, dizzy spells, a feeling of faintness or weakness, flashes, pains across the back or in the joints and under the shoulders, will find quick relief in the use of Plant Juice. Try it and see for yourself. The Plant Juice man is at the Owl Drug Company's Store, Seventh and Washington. Get a bottle from him today, and if it does not help you, he will refund your money.

of farmers in nearly every section of Polk County, assembled at Independence during the recent tour of the Willamette Valley by Professor Thomas Shaw, agricultural expert of the Great Northern Railway, and heard a lecture in which the most important branches of the farm industry were discussed in an extremely beneficial way. His interest at this and other lectures has caused the organization of the union.

UNIVERSITY IS GROWING

ENROLLMENT AT EUGENE AGGREGATES 1572.

Greatest Increase in Attendance Recorded in Law School—Correspondence Department Has 315.

UNIVERSITY OF OREGON, Eugene, Or., June 4.—(Special.)—There are 1572 students in all the departments of the University of Oregon, of whom 691 are enrolled in the collegiate courses at Eugene, according to the statistics for the present year issued from the registrar's office today.

The total of 691 includes the students in the college of liberal arts in Eugene, the law and medical schools in Portland, and the correspondence school, are not included in this computation, but are included in the grand total of 1572.

Of the three regular branches of the university located in Eugene, the graduate school has 20, the college of literature, science and the arts has 574, and the college of engineering 97 students. In the latter college, civil engineering proves the most popular course, with an enrollment of 60 against 34 for electrical engineering and 26 for chemical engineering.

The school of music, located in Eugene, has an enrollment of 171, but 61 of this number are registered in the regular college.

The school of law, located in Portland, shows the largest percentage of increase of any department. It has 226 students, against 177 last year. The school of medicine, likewise located in Portland, reports 59 students, nine less than last year.

The correspondence study department, which is fast becoming one of the great activities of the university, has 315 enrolled. The enrollment for the summer school last year was 171, against 148 the preceding year.

The report also shows the number of officers and instructors which is required for this body of students. The 14 regents and the 12 officers make a total of 26 in the administrative department. There are 15 professors, 11 assistant professors and student assistants in the three regular colleges.

Eugene, the school of medicine has 28, the school of law 17 and the school of music eight, making a total of 108 in the faculty.

While last year was a record-breaker in attendance, this year's total exceeds it by 84. The increase in the regular academic departments located in Eugene is 82.

Leaving out the college of engineering, which naturally is not patronized by the women, the co-eds have a majority of two.

Of the 691 academic students 624 reside in Oregon. Washington is represented by 25; Idaho has eight; California four, Wisconsin, South Dakota and Indiana three each; Kansas two, and the following one each: Pennsylvania, Texas, New Mexico, Iowa, Massachusetts, Colorado and the Philippine Islands. Two foreign countries are represented, Sweden and New Zealand. The university at present has but one Chinese and one Japanese student, although the number of Orientals in past years has been greater.

Cottage Grove Cow Productive.

COTTAGE GROVE, Or., June 4.—(Special.)—A Jersey cow owned by Rev. W. J. Gardner produced 1574 pounds of milk during the month of May. The average daily production being 50 1/2 pounds. The cow is 7 years old and was bred by Mr. Gardner.

LAW STUDENTS WHO SEEK ADMISSION TO STATE BAR.
