

CAPTAIN RILEY TO BE ACTING CHIEF
Slover to Return to Rank to Be Left by His Successor on June 25.

GENERAL SHIFTING LIKELY
Changes in Every City Department Probable With Inauguration of Albee Administration Under New City Charter.

Police Captain Riley will be Chief of the police department a few days before the new city officials take their office July 1. E. A. Slover, Acting Chief, will resign his position about June 25 and will return to his rank of captain, probably taking command of the second relief. Confirmation of both changes was given last night.

Captain Riley, now in command of the first relief, was informed by Mayor Rushlight yesterday that for the remaining 26 days of the Rushlight regime he will be made Assistant Chief, a position created by the Council some time ago, but never filled. Senior Captain John T. Moore, now in command of the day relief, was mentioned for the position shortly after it was made. Over the long distance telephone from Oregon City, Acting Chief Slover last night confirmed rumors of his resignation. He said he would return to his rank of captain.

Captain Riley has also been prominently mentioned for the position of Chief under the new charter.

Riley, Chief of Attack, who was appointed Acting Captain to fill the berth of the first relief when Captain George H. Bailey resigned over a year ago, has been the object of considerable attack, and he tendered his resignation to Mayor Rushlight when an examination, the results of which were not made public for some time, showed a rating of 100 per cent by Chief Slover, placed the then Sergeant Keller in the Captaincy vacancy.

Chief Slover's resignation, the elevation of Captain Riley and filling the berth of Assistant Chief temporarily will fill the Captaincies.

Other important changes in the personnel of the various city departments are causing a good deal of speculation in Portland. Now that the new commission has been elected and the smoke of battle has somewhat cleared, undoubtedly, there will be numerous changes in the various departments which will be effected to a greater or less degree. While Mayor-elect Albee and the members of the commission-elect are absolutely mute on this point, indications are plenty that many changes are to be made. It would not be surprising should there be a new head for every department not under civil service, at least.

The chief of the fire department is under civil service and is therefore not amenable to dismissal, removal or reduction without cause. B. F. Dowell, appointed by Mayor Rushlight to succeed the late David Campbell, is the present chief. The position carries a salary of \$230 a month.

Health Employees Removable.
In the health department it is certain there will be changes, as Dr. C. E. Wheeler, the incumbent, has announced he will resign July 1. The salary of the health officer is \$250 a month. The garbage crematory comes under this department, too. David E. Otis, a Rushlight appointee, is the superintendent, at a salary of \$200 a month. There are several applicants for this position. There are an assistant health officer, city physician, school nurses and school inspectors, etc., all removable, for they are not under civil service.

There is a rumor to the effect that there will be a new City Attorney, Treasurer and Municipal Judge, and possibly a new City Engineer. These are elective by the commission as a whole and their salaries may be fixed by the commission.

Secretary to the Mayor is a position that is attracting many persons. A number of applications for that place have already been received by Albee. A salary of \$150 a month goes with this office.

Under the new charter, it is probable that the position of engineer in the water department will become vacant as it is generally believed that the City Engineer will do this work. D. D. Clarke is the present water engineer and Frank T. Dodge is superintendent.

BURNSIDE FILLS FINISHED
O-W-R & N. Has Four Tracks Laid Running North From Bridge.

All the fills north of the Burnside bridge approach and east of East Second street have been completed to the mouth of Sullivan's Gulch, and the steam shovel has been moved south of the bridge approach, where several deep depressions are being filled up.

The O-W-R & N. has laid four tracks on East Second street northward from the bridge approach. These tracks will be carried under the bridge approach southward, and the approach has been rebuilt. Steel for a span above East Second street has been delivered and will be used to support the viaduct above the tracks.

The O-W-R & N. Co. has had a large force of men at work on East First and East Second streets between the Burnside bridge approach and Sullivan's Gulch for several weeks reconstructing the tracks already built there and laying more tracks. As yet no movement has been started toward the erection of the proposed freight building which was announced to be built near the mouth of Sullivan's Gulch.

WINTERS ESTATE WINNER
Lease of Alice M. Routledge Annulled by Court.

Judgment for the defendant was given by Circuit Judge McGinn yesterday in the suit of Alice M. Routledge against Mrs. Agnes Butts, administratrix of the estate of H. D. Winters, to secure possession at a rental of \$150 a month of property which she contends Winters agreed to lease to her a week or so prior to his death. Attorneys for the state, which has started escheat proceedings, and for the various groups of alleged heirs, say that the property in question was bringing in \$400 a month.

W. W. Williams, a handwriting expert, testified yesterday that in his opinion the purported signatures of H. D. Winters to a receipt for \$5, in which

the terms of the proposed lease were set out, and to a letter in which he referred to the alleged agreement for a lease, were not genuine. He believed that they had been traced from a genuine signature. He said that no man writes his name identically the same on any two occasions, yet the two signatures in evidence were the same down to the minutest detail.

The proposed lease was to have been for five years, with option of renewal for 12 additional years on the same terms.

Max Cohen Allowed 30 Days.
Judge Bean yesterday granted Max G. Cohen, convicted Wednesday of subornation of perjury in United States District Court, 30 days in which to prepare action for an appeal. In case the

appeal is granted Cohen will be tried in the United States Circuit Court of Appeals at San Francisco. His bail was yesterday increased from \$2500 to \$5000.

EXPERT PAVING
Executive Board Accepts Milwaukee Street Work From Contractors.

After an expert employed by property-owners examined the condition of the paving on Milwaukee street from Holgate street to Nehalem avenue yesterday and did not discover any serious defects, the Executive Board formally accepted the improvement in behalf of the city. In taking this action a long drawn-out tangle of affairs in

connection with the contract was brought to a close and the contractors will receive their pay, amounting to \$137,351.31, which has been held up for several months.

Property owners complained about the paving being defective. The Executive Board, at a special meeting, recently considered the complaints of the property owners and held up the acceptance of the work until an investigation could be made. One place in the paving was found which was defective. This was repaired. Investigation in other places revealed no defects.

Superintendents Are Re-elected.
SALEM, Or., June 5.—(Special.)—The board of control has reappointed all superintendents and assistant superintendents of state institutions. The board having been created by a law

which became operative Tuesday, it was necessary to make the appointments.
