The local and visiting delegates at The local and visiting delegates attending the third anual convention of the Architectural League of the Pacific Coast are combining serious business with strenuous pleasure. The annual report of the president, Ellis F. Lawrence, of Portland, covered briefly the work accomplished during the year and urged a continuation of the splendid educational work that is being done. He referred especially to the healthy growth in student enrollment, the number of students working in the various Western ateliers having increased from 141 in 1912 to more than 200. 141 in 1912 to more than 200.

In the competition for the \$1000 prize offered by the league, 38 students made preliminary sketches and of this number 13 completed the final draw-
