

STEFANSSON SAILS
VICTORIE BREAKS

Hypothetical Continent, Not Pole, Is Destination of Expedition.

STAFF ALL SPECIALISTS

From Every Point of Globe Comes 14 Men Who Will Travel Into Beaufort Sea Country on Strictly Scientific Journey.

VICTORIA, B. C., June 9.—Viktor Stefansson, radiating energy and magnetism, arrived here yesterday, preparatory to his trip to the North Pole. After a meeting with members of the scientific staff who went with Dr. Anderson, who leads the Southern expedition, and holding a conference with Captain Bartlett at Esquimaux, he expressed himself much pleased with the manner in which Dr. Anderson has conducted the loading and equipping of the Karikuk during the enforced absence of himself. He said the loading of the ship was well under way and the vessel would be ready to sail Thursday.

There is no necessity for haste, as ice conditions in the Beaufort Sea will not permit the Karikuk to go through Bering Strait until the ice pack comes down from the Arctic Ocean. Stefansson does not care to lie in the harbor at Nome wasting his provisions, so he will not sail until conditions are more favorable. The scientific staff complete is 14 men, gathered from every point of the globe, each man a specialist in his department. It is the largest staff of scientists ever taken toward either pole, and the investigation along a scientific scope is the most ambitious yet attempted by any polar expedition.

New Continent Sought. Stefansson says he will land Dr. Anderson's southern expedition at Victoria Land and proceed in search of a vast hypothetical continent of about 600,000 square miles between the Beaufort Sea and the North Pole. He will not attempt to reach the pole, as his plan is strictly a scientific expedition.

Essence of supplies will be established for the southern party on Victoria Island and for the northern party on the first land of any consequence discovered. Huts will be built, stores stored and everything made snug for the winter. Then the gathering of scientific data will begin. Stefansson will head an expedition to the north and will have Captain Bartlett, who commanded the Roosevelt with Peary, as his navigator. In the crew, now complete, are two men who know every shoal, shore and harbor from the mouth of the Columbia to the edge of the undiscovered area to the north of Beaufort Sea.

Party Equipped for Three Years. This is the most important scientific expedition of the last half century and it is equipped for three years, but after establishing Stefansson at the winter quarters will return to civilization until the following summer, when he will take mail and supplies to both southern and northern expeditions. Bartlett, when interviewed today, was indignant at a story in circulation to the effect that he had said the Karikuk was unfit for Arctic expedition. The Karikuk is built of Australian oak and has been used 15 years in the Arctic. It is in excellent condition, but so strong as the Roosevelt as a good sailer, has better accommodations for men and crew and makes coal, which is in important item. Bartlett and Stefansson agree that coal is more important than provisions, as in the Arctic should live on the country's game and fish as the Eskimos do, for it lessens the chances of scurvy, the scourge of the North. Stores and equipment will be apporportioned to each party.

Moving Pictures to Be Taken. Stefansson plans to hand down the history of a vanishing race in form of moving pictures. Two moving picture cameras are to be taken along, one for each party.

The wireless equipment has been abandoned as there is not enough room after installing the scientific equipment and meant employing two otherwise useless men. The Canadian government may install wireless at the mouth of the Mackenzie River within 100 miles of Dr. Anderson's southern expedition.

Each member of the expedition is enthusiastic and physically and temperamentally suited to Arctic exploration. All will undergo physical examination at the hands of Dr. Forbes McKay tomorrow. This is a mere matter of form, as each was selected as a man of physical prowess and endurance as for other scientific attainments.

21 CITIZENS ARE CREATED

Naturalization Granted Applicants From Many Nations at Walls Walla. WALLA WALLA, Wash., June 9.—(Special.)—Twenty-one new citizens were created Saturday in Federal Court after they had proved to Judge Frank H. Rudkin and Examiner John Speed Smith, of Seattle, that they were qualified.

There were 23 names called, but one was dead and one did not appear, so that all who applied were granted naturalization papers. The names of the believers in anarchy or polygamy in the list. Some of the applicants became nervous during the questioning but were quieted by Judge Rudkin, who occasionally suggested the right answer. Christ Hill, who renounced allegiance to Czar Nicholas, went immediately and registered. The countries from which the applicants came were Russia and Germany, five each; Ireland, Sweden, Canada and Switzerland, two each; Italy, Scotland and Denmark, one each.

SHIP BELIEVED TO BE SAFE

Burning Steamer Thought to Be Heading for Carolina Coast. NEW YORK, June 9.—In the absence of details, officials of the Munson line believe that the steamer reported by wireless last night to be afire off the Georgia coast and believed to be the Ollinda, might head for Charleston, S. C., and that she probably would arrive there tomorrow morning. The Ollinda, primarily a freighter, had aboard a crew of 51 and six passengers, four of whom are Cubans. Names of the passengers are withheld, pending receipt of more definite news from the vessel. Little apprehension is felt here regarding the Ollinda's safety. If the fire is confined to No. 1 hold, where it was reported, there is but slight prospect of real danger, officials of the line believe, as the cargo in No. 1 is brick.

"KODAK TRUST" IS DEFENDANT IN SUIT

Government Charges Eastman Company With Monopoly of Trade in Supplies.

DISSOLUTION IS SOUGHT

Complaint Made That Retail Houses Owned by Combine Are Conducted Under Guise of Being Competitors or Independent.

BUFFALO, June 9.—Dissolution of the so-called "Eastman Kodak Trust" was asked in a civil suit filed here today by order of Attorney-General McReynolds. The Federal Government secures the dissolution by receivership, if necessary, of the Eastman Kodak Company of New Jersey, and the Eastman Kodak Company of New York, which are charged with monopolizing the trade in photographic supplies. It is the aim of the Government to obtain a division of the assets and business of the two companies, controlling 72 per cent of the business in the United States, into such parts as will destroy the alleged monopoly and restore competition. The Government's equity asks for an injunction forbidding the fixing of resale prices of cameras, films and other patented photographic supplies.

Court Decision Involved. This marks the Attorney-General's first application of the recent decision of the United States Supreme Court denying the right to fix resale prices of retailers. Following are named as defendants: Eastman Kodak Company of New Jersey, Eastman Kodak Company of New York; George Eastman, Henry A. Strong, Walter S. Hubbell and Frank S. Noble, all of Rochester, N. Y. The bill filed by United States Attorney O'Brien is the result of an extensive investigation of the "trust" by James A. Fowler, assistant to the Attorney-General, and Clark McKooper, special Assistant Attorney-General. Mr. McKooper is in immediate charge of the suit.

Competition Suppressed in Charge. The alleged monopoly has been accomplished, the petition declares, by the Eastman company's absorbing or acquiring control of a great number of competitors in the United States and foreign countries. Complaint is made that retail or stock houses owned by the Eastman companies are conducted under the names of the original owners as competitors of the "trust." Unfair competition is charged through the alleged practice of the Eastman companies in marketing through one of its competitors, the Defender Company (Rochester), certain film as if it were the product of an independent, suppressing the fact that it is made by the combination.

Methods Will Be Adjusted. That Dissolution Will Be Fought. ROCHESTER, N. Y., June 9.—The Eastman Kodak Company will adjust its methods of doing business to meet the charges preferred against the company in the Government's dissolution suit filed here today by Attorney-General Eastman, president of the company, so announced here on receipt of the news that suit had been begun. Mr. Eastman indicated, however, that the company would refuse to dissolve. "While in the formal part of the petition filed by the Government there is a prayer for dissolution, as is usual, I am informed in all such cases," said Mr. Eastman, "it is believed that full compliance with the main spirit of the demands for changes of trade methods freely offered by this company will successfully meet all criticism and satisfy the trade at large and the Government."

Peace Plan Is Indorsed. China Fourteenth Nation to Accept Bryan's Idea in Principle. WASHINGTON, June 9.—China today became the 14th nation to indorse Secretary Bryan's peace plan. Minister Chang called upon the Secretary and told him that his government accepted the idea in principle and would like to consider the details. "One of the main points of this policy (respecting dealers in our patented goods handling no other goods) has been to prevent the substitution of goods that are inferior to ours to unsuspecting customers," said Mr. Eastman. "However, desiring to avoid a long and expensive litigation, the waste of time of our most important men and the unsettling of normal business conditions, we are willing to meet, the wishes of the Government, even on this point."

Carnival Visitors Are Invited to This Store

The Show Store of the Pacific Coast. We bid you welcome to the store. If you have been in Portland before we are more than ready to meet you again, and to serve you with the increased advantages now at our command. If this is your first visit to Portland we bid you thrice welcome, and hope to be of service to you during your stay. Lipman, Wolfe & Co. have grown and prospered even as has the City of Portland. The New Store combines all of the best features to be found in stores the world over. In planning our new store we have ransacked the world for ideas. We took pleasure in making it as beautiful, and as complete, and as good as the best. We wished to represent Portland, and to give to the public a business institution worthy of our city.

Our aim now, as always, is to give you the utmost in worthy merchandise in return for your patronage—to guarantee the quality and standard of every article purchased—and to insure prompt and courteous service. Style—Beauty—Reliability—are things that we offer free of charge. They are included in our liberal business policy. Once more we bid you welcome, and beg to be of service to you in every way at our command. The rest and retiring rooms, with their public phones and writing desks, are on the second floor. The postoffice—express office—accommodation desk and information bureau are on the first floor. The architectural exhibit, one of the best ever held in America, is in progress on the eighth floor, showing original drawings and photographs by the most eminent architects in America. Our art and picture galleries on the sixth floor are an exhibition in themselves, and will be of keenest interest to all lovers of things beautiful. Our Jewelry Store—Book Store—in fact every section of this great building is filled with things of interest collected from all parts of the world. We bid you welcome to make this store your headquarters—to inspect and admire—to enjoy this modern treasure-house, whether you buy or not.

Lipman Wolfe & Co. Merchandise of Merit Only

The Finest Tailored Suits Made of Imported Fabrics That Sell Regularly to \$42.00 Tuesday \$28.50. Every woman likes to wear suits of fine imported weaves; not necessarily because they're foreign, but because they're fine. These suits are fashioned from just such materials. In these suits you get the best that money can buy; fabrics, styles, tailoring as high-class as a fifty or even a seventy-dollar tailor can offer. You could not possibly find such distinction of style and finish in any other ready-to-wear suit.

Suitcases at Clearance Prices. Do you know that if you are properly and economically supplied with a suitcase or traveling bag—one of those nice light matting ones—the hurry-up trip takes on an added pleasure? \$2.00 MATTING SUITCASES, \$1.65. A guarantee with every pair of FOWNE'S KID FITTING SILK GLOVES Double tips, of course.

Kelso May Build Dikes. KELSO, Wash., June 9.—(Special.)—The water here continues to rise. Yesterday some of the finest berry patches, with berries almost ready to pick, were submerged. A movement is already on foot to employ engineers to ascertain the practicability of diking the Columbia river in order to prevent a recurrence of the flood. Today, the appeal carries the case before the highest tribunal in the United States, and with it will go a carload of exhibits now in Boise, which will be shipped direct to Washington to be set up there for illustration when the case is presented. The case involves extra lateral rights and underground workings of the properties of both mines. Ex-Senator Jonathan Bourne is a heavy owner in the Ontario Company. The District Court of Shoshone County held for the Ontario Company. The Idaho Supreme Court affirmed this decision from which the appeal was taken.

ROSE FESTIVAL WEEK SEVEN ISSUES, INCLUDING POSTAGE, 25 CENTS. Mail to your friends in the East The Oregonian during Rose Festival week, beginning Monday, June 9, and ending with the great Sunday edition, June 16. It is complete and exclusive reports with numerous high-class half-toned illustrations will be featured daily. The Portland Annual Rose Festival has been widely advertised throughout the United States, and no more attractive testimonial to your friends could be given than a subscription to Oregon's great daily during the event.
