Business Session in Morning Followed by Programme of Entertainment.

PLEA FOR ATELIERS MADE

Professor Perry, of University of California, Suggests League of Coast Art Schools as Beauz Arts Auxiliary Body.

Three tired individuals reclined at full length yesterday afternoon at the Portland Architectural Club 24 1/2 Stark street. They were all that was left temporarily in town of the local or visiting architects here for the third annual convention of the brush men on the coast.

The main point in the morning address and one that brought out a good deal of discussion, was that of due to failure at first to apprehend clearly the scheme suggested, was the suggestion by Professor Perry of the formation of a league for the coast architects from an educational point of view.

Professor Perry warmly advocated the starting of numerous ateliers on the ground that he who teaches learns ten times as much as he who is taught. He told of the three main systems that prevailed for the teaching of architecture, namely the Ecole des Beaux Arts, in Paris; the educational work of the American Society of Beauz Arts architects, and the school of architecture at the University of California.

Empress Theater Houses First White Magician to Make the Trip Across Arctic Circle

He is Del Adelphi, who, with his wife and three children, is offering a mystifying act at the Empress. Adelphi is the right name of the magician. Mrs. Adelphi, her daughter, Norma, and sons, Bert and Jack, assist Adelphi, Sr., in his vaudeville act, Northing doing all the disappearing. Dave Stewart accompanies the Adelphis as carpenter, tinkering required by cabinets and other paraphernalia of the magician keeping him busy.
