

HATFIELD REFUSES MILITARY RECORDS

Evidence Is Withheld From Senators.

INDICTMENTS BEING SOUGHT

Strike Committee Goes Into Heart of Mine Region.

MEN STOPPED ON ROADS

"Company Stores" Yield Secrets of High Prices and Peeps Into Cabins Reveal How People of Coal Regions Live.

CHARLESTON, W. Va., June 12.—Governor Hatfield of West Virginia declined tonight to submit to the Senate mine strike committee the records of the trials before the military committee which took charge of the strike-ridden district of the state during the trouble this Spring.

In a letter to the committee, the Governor said that the findings of the committee in these cases never had been approved, the men had been released, and he desired to keep the records for use in seeking indictments in the civil courts. To make them public at this time, he said, would be "prejudicial to the public peace."

Governor Hatfield's letter was presented to the committee at tonight's session by the clerk of the committee.

Peace and Harmony Sought.

"My attention has been called by the Adjutant-General," said the letter, "to a subpoena demanding military records and commission reports.

"With reference to the strike, I was induced into office March 4 and, as to conditions prior to that time, I have knowledge only through the newspapers." Under my predecessor military law was established in the strike district three times. A commission was in existence when I came to office and about 80 prisoners were in jail. I wanted peace and harmony, as the situation seemed threatening.

The Governor wrote that he carefully considered each of his actions in the strike situation and with reference to the papers now in his hands he had never approved them and had ordered all of the prisoners released "despite the fact that I had independent evidence in the nature of voluntary confessions in the cases of some. But for reasons of prudence I ordered the discharge of all. My object was to restore law and order and I have been successful and both sides have made mutual concessions.

Inflamed Opinion Feared.

"I would respectfully suggest," concluded the letter, "that it would be prejudicial to the quiet and peace to make the records you want public at this time. I want to keep them so that when the case is brought about without danger of inflaming public opinion, I can present them to the civil courts and secure indictments and trials of those accused by this evidence."

The committee will probably coincide with the views of the Governor and make no further efforts to secure the records of these trials.

Governor Hatfield issued tonight a proclamation raising martial law in the strike district. The last few soldiers left in the field were recalled.

George S. Wagner, who had the legal authority of the military commissions in the strike zone, defended the conduct of the commission under military law before the committee. He said he believed that under the authority of the Governor the commission in the martial law zone had plenary powers.

War Powers Exercised.

"We had the right to sentence an offender to death," he said, "under whatever law the commander-in-chief of the forces of the state selected. My contention is that in the theater of war the commander-in-chief of the forces makes the law. The Governor, when he declared martial law, recognized that the constitution had been suspended on Palat and Cabin creeks and he sent us there to restore it. We exercised war powers, that is all."

Among miners' little cabins, tucked away in the rocks and crannies of the West Virginia mountains, the United States Senate sub-committee sought today the truth about the strike which (Continued on Page 5.)

CUPID MOVES TO VANCOUVER, WASH.

MARRIAGE LICENSE RECORDS ARE SHATTERED.

Oregon's New Law Requiring Health Certificates Held Responsible for Extraordinary Impetus.

VANCOUVER, Wash., June 12.—(Special.)—The record for marriage licenses issued in one day during the 60 years in which records have been kept was broken here today when 10 couples secured marriage licenses. Nor is this all. At the present rate, in 15 days the greatest monthly record will be broken in one-half the time—and all because Oregon passed a law requiring certificates of health from men making application for marriage licenses. Already 58 licenses have been issued this month, the record being 65 for any entire month.

While the June maids are winning in the majority of cases, the widows are not slow. Of the 58 couples married, 22 of the brides had made the trip to the altar before at least once.

Judge Back, of the Superior Court of Clark County, may become famous as a marrying judge, as he performed four ceremonies yesterday. At times one couple was waiting in the outer office, while another was being married in his chambers. He has performed a large number of marriages during his short term of office.

FIRE BELL TO BE REMOVED

Portland Heights to Be Future Location of Historic Alarm.

The historic fire alarm bell, which has tolled the fire warnings in Portland from a tower at Fourth and Yamhill streets for 23 years, is to be removed. Upon recommendation of Fire Chief Dowell, the fire committee of the City Executive Board yesterday ordered the bell taken down and moved to a tower to be erected at the station on Portland Heights.

It is thought the alarm will be heard over a wider territory if placed high above the city, as high buildings which have sprung up around the present tower in the last few years may block the sound. The fact that the tower in which it swings at present is becoming weak has also contributed to the need for its removal.

WILSONS TO VISIT WEST

One of Daughters to Lay Cornerstone of New Jersey Building.

LOS ANGELES, Cal., June 12.—Mrs. Woodrow Wilson, wife of the President, their daughters, and perhaps the President himself, will come to California in the next few months.

Judge Robert S. Hudspeth, of Jersey City, N. J., chairman of the commission appointed by Mr. Wilson, when Governor, to select a site for the New Jersey Exposition at San Francisco, arrived here today and made that announcement.

Judge Hudspeth said he brought that message direct from the White House and added that one of the President's daughters, probably Miss Jessie Wilson, would be chosen to lay the corner stone when the cornerstone of the New Jersey building is laid.

WINNERS ASK NEW TRIAL

Wakefield & Co., Not Satisfied With Outcome of Former Suit.

Robert Wakefield & Co., who obtained a verdict for \$148,002.53 against the City of Portland in the Mount Tabor reservoir suit, which took three months to try in Circuit Judge Morrow's court, have asked for a new trial. The plaintiffs—Robert Wakefield, George W. Simons, H. C. Campbell and Charles P. Switzer, doing business as Robert Wakefield & Co.—yesterday filed a motion for a new trial, contending that, inasmuch as they had wanted approximately \$409,000, the verdict was inadequate.

On the other hand, the city, which insisted that the contractors had already been overpaid, penalties for delays considered, and asked judgment for \$75,000, is appealing to the Supreme Court.

CRAG SAVES RIDER'S LIFE

Horse Falls Over 800-Foot Precipice and Projection Stops Man.

PHOENIX, Ariz., June 12.—Going over an 800-foot precipice with a runaway horse at the summit of the Fish Creek Hill between Phoenix and Roosevelt today, Glen Cullen fell 80 feet, landing on a projecting crag and escaped with slight injuries.

The horse fell to the bottom of the precipice and was killed.

NORTHWEST GRAIN PROSPECTS GOOD

Yield Per Acre to Equal That of Last Year.

BEST PRICES ARE ASSURED

Value of Product Expected to Be \$55,450,000.

WHEAT CROP TO BE LATE

Delay Will Enable Growers to Dispose of Holdover—Idaho to Get Record Harvest—Decreased Acreage Is Shown.

	1912	1913
Wheat	90,000,000 bushels	63,000,000 bushels
Barley	14,000,000 bushels	15,000,000 bushels
Oats	18,000,000 bushels	17,000,000 bushels
Value 1913 crop		\$55,450,000

The grain crops of the Pacific Northwest have now reached a stage of growth where it is safe to predict an excellent yield. The total output may be equal to that of last year, as the acreage sown to wheat is less, but the yield per acre promises to be equally as good.

Based on present conditions, grain dealers look for a wheat crop of close to 60,000,000 bushels in the states of Oregon, Washington and Idaho. This is within a few million bushels of the crop produced last year, which can be closely estimated on the basis of the shipments during the season, now nearly at an end.

Wheat Crop Late.

While the wheat crop will be a fine one, it will be later than usual, owing to the backward Spring and the delay in getting in the Spring crop. The delayed harvest will enable farmers and dealers entirely to dispose of the old crop.

In Eastern Oregon, as a whole, the crop likely will be less than that of 1912, as there has been a considerable reduction of acreage.

Umatilla County promises to come through again with 5,000,000 bushels of wheat. For a time the growing crop in that county looked bad, but the recent rains were just in the nick of time, and the prospects are now fine. Wasco County has less acres in wheat, but an average crop to the acre, according to present conditions. In the other Oregon river counties the outlook is about the same.

Washington Prospects Good.

Eastern Washington has for several days past experienced the finest kind of growing weather. From the Palouse country reports agree that the wheat yield will be fully as large as last year's. The Big Bend crop, however, will be less than a year ago. Conditions in the Walla Walla country generally are favorable. In this section, as elsewhere in Eastern Washington, some of the wheat was blown out in the light lands and had to be reseeded.

Idaho Promises Record Crop.

Idaho this year will produce the largest wheat crop in the history of the state. In the Clearwater country, the Lewiston section and Camas Prairie the crop is looking better than it ever has before, and a 10 per cent increase in acreage is reported.

The farmers of the Northwest are assured again of a year of good prices, owing to the sound condition of the world's wheat markets. The coming crop will net the producers of the three states about \$45,000,000.

The barley crop will also be slightly under that of last year, because of the backwardness of the season and the reduction in acreage. A total yield of 14,000,000 bushels in the three states is looked for by grain men.

High Barley Prices Expected.

It is almost certain that barley prices in the Northwest will be high, as California, one of the great barley states of the Union, will have only about half a crop this year. The Northwestern barley crop will be worth over \$5,000,000 to the producers.

The outlook for oats is exceedingly good in all sections. The total crop of Oregon, Washington and Idaho is (Continued on Page 6.)

THREE HURT BY AUTOS

Two Riding in Wagon and One Pedestrian Hit by Machines.

Mr. and Mrs. D. Kaplan, of 1045 Corbett street, were struck and hurt by an automobile owned by Dr. Mac Cardwell, of 190 Bancroft avenue, about 9 o'clock last night, at Corbett and Gaines streets in South Portland. The Kaplans were riding in an express wagon when the automobile, which is said to have been driven by its owner, struck them from the rear. Both were taken to St. Vincent's Hospital, where their injuries were found not to be serious.

Miss E. Elizabeth Bond, of 87 Park street, was struck and severely injured last night about 8 o'clock, when an automobile belonging to the Dulmage Auto Company and driven by C. A. James, knocked her to the pavement at Broadway and Washington streets. Eyewitnesses told Patrolman McCulloch that the automobile was going slowly and that Miss Bond, evidently having her view obscured by an umbrella, failed to see the machine in time. She was taken to her home, where she is under medical attendance.

NOVELIST SLATED FOR JOB

Protest Against Meredith Nicholson's Democracy Unheeded.

WASHINGTON, June 12.—Meredith Nicholson, of Indiana, novelist, probably will be Minister to Portugal. Although there has been some protest from Indiana Democrats to the effect that Mr. Nicholson was not a "consistent Democrat," it was said today that the Portugal government was being sounded as to his acceptability.

Colonel Thomas H. Birch, of New Jersey, slated for Minister to Persia, had a brief conference with President Wilson and Secretary Bryan today. It is understood that Colonel Birch is hesitant about accepting the Persian post on account of its distance from his business at home.

MISS NEWCOMB ON STAND

Miss Ethel Newcomb took the stand for a moment to testify to her marriage to Von Klein in San Francisco in 1911, and a certified copy of the certificate was produced. The prosecution also exhibited a certified copy of the marriage papers of Von Klein with Miss Louise Histrup in Michigan City, Ind., in 1902 and it is the contention that she is still his wife and that the

(Continued on Page 2.)

MRS. MORROW HELD AS STATE WITNESS

Prosecutor's Questions Are Parried.

BOND OF \$2000 FURNISHED

Knowledge of Von Klein's Marriage Denied.

PROMISE OF AID ADMITTED

When Her Deception by Prisoner Is Shown, Champion Falters, but Each Time Relents; Bail of \$10,000, However, Unlikely.

For nearly an hour, with all the wit of a daring, clever woman, Mrs. R. Morrow battled with Deputy District Attorney Maguire, in Municipal Court yesterday, in an effort to evade telling what she knows about the marital relations of Edmond E. C. Von Klein, on preliminary hearing on a charge of polygamy.

It was all to no avail, however, for at the end of the hearing Von Klein was bound over under \$5000 bond, added to the \$5000 already imposed on the charge of stealing Miss Ethel Newcomb's diamonds, and Mrs. Morrow herself was required to give surety of \$2000 that she would appear as a material witness. After an ineffectual plea to have the bond remitted, Mrs. Morrow, under escort of Patrolman Sherwood, went to the bank where she is said to have \$5000 deposited, and procured the money.

Woman's Identity Disclosed.

Mrs. Morrow, who was released from prison at Chicago recently, following her acquittal on a charge of murdering her husband, acted as bondsman for Von Klein during his extradition proceedings at that place, furnishing \$14,000. She followed him to Portland and broke cover by visiting him in jail Monday, when he was bound over on the larceny charge. Following the closure of his case by the Oregonian District Attorney Evans caused watch to be kept for her, and she was intercepted when she made a second visit to Von Klein at the County Jail.

In private conversation with the prosecutor she indicated knowledge of a marital status, and was summoned as a witness.

Costume Attracts Attention.

Garbed in a gleaming black gown with silk skirt and vivid green petticoat, her shoe buckles gleaming with masses of brilliants, Mrs. Morrow hovered in the back of the courtroom yesterday until the case was reached, and from time to time conferred with Attorney Fitzgerald, of the defense.

When called to the stand she showed great self-possession and answered all questions in a well-modulated, contrived voice. She admitted knowing Von Klein and his family and after strenuous objection by the defense admitted that she had promised to try to obtain his release on bond.

Questions Are Parried.

"Did you talk of going to Minneapolis to get his wife?"

"I suggested that if he had a wife her place was here and I asked if I should get her. He said to do nothing of the kind."

"What did he say about his wife?"

"I don't know that he has a wife."

"Didn't he tell you he telephoned to his wife and she was ill?"

"I don't know that he has a wife."

For many minutes the prosecutor and witness feuded along this line, until the court was appealed to, and Judge Tazewell commented: "It is apparent that the witness knows more than she is willing to tell. Mrs. Morrow cannot remember telling Detective Day that Von Klein had spent \$50 of her money in telephoning to his wife. She reluctantly admitted that he had called for a woman whom he called Louise."

WALKING BANK VANISHES

W. C. Taylor, of Spokane, Disappears With \$60,000 in Pockets.

SPOKANE, Wash., June 12.—(Special.)—With a large amount of cash and notes and drafts calling for between \$40,000 and \$60,000 in his pockets, W. C. Taylor left his home, 2420 Broadway, Monday morning at 11 o'clock and has not been seen since.

Police officials, friends, acquaintances and firms with whom Taylor had business deals pending have searched day and night since, but not a single clue nor possible explanation has been obtained.

On Sunday Taylor carried a roll of bills that contained several thousands of dollars, according to those who were with him. Shortly after leaving his home Monday it is reported he was seen coming out of a local bank with another big roll of bills.

The missing man is said to have received Saturday his share of an estate in Buffalo, N. Y., reported to be in the neighborhood of \$50,000. On Sunday he visited a motor car company from whom he had just closed a deal to buy a car.

COLLEGE-BRED HEN HAS NEW RECORD

ONLY ONE LAYING DAY IN 100 IS MISSED.

Result of Breeding Only One of Many Experiments Now Under Way at Corvallis.
