STATE STONE MAY BE USED Government Considers Oregon Product for Postoffice. Samples of Oregon stone from the leading quarries of the state are to be placed in the hands of the proper authorities in Washington, in the campaign to have the new postoffice building constructed of local stone. A letter received at the Chamber of Commerce from Congressman LaFerty informs the Chamber that an order has already been issued from the office of the Secretary of the Treasury to the effect that Northwestern quarrymen and stonemasons shall be given a chance to offer their bids on furnishing stone for the new building. The movement to secure favorable consideration of Oregon stone from the Government authorities has been carried on by the Chamber in conjunction with the Manufacturers' Association and the Stonecutters' Union. A letter from the Department of the Treasury requests that samples of Oregon stone be sent and all owners of quarries in the state are to be requested to furnish to the secretary of the Portland Chamber of Commerce their companies' names and addresses and complete data concerning the quality of stone they are able to furnish. Each quarryman will be requested to send samples of the output of his quarry to his Congressman, to be deposited with the proper officials in the Treasury Department. Woodburn Re-Elects Two. WOODBURN, Or., June 20.—(Special.)—At the regular school election, held here Monday, A. E. Austin was unanimously re-elected school director and W. J. Mishler was re-elected clerk.

PAST DUE TAXES LISTED Assessments on Franchises are in Controversy in Some Cases. With a view to instructing the District Attorney's office to take such legal action as may be necessary to collect the amounts or clear them from the books in case they are uncollectible the County Commissioners have obtained a list of the larger amounts due as personal taxes for past years. The largest amount, more than \$13,000, is due from the Pacific Telephone & Telegraph Company. Others delinquent are the Western Union Telegraph Company, the Postal Telegraph & Cable Company and the Title Guarantee & Trust Company, the last named of which is in the hands of a receiver. The taxes against the telephone and telegraph companies are on their franchises. The county beat them in a test case to which the Pacific Telephone & Telegraph Company was a party in the Circuit and Supreme Courts of the state. Then the telephone company applied to the Federal Court and obtained a temporary injunction. This was in February, 1912. The county appointed L. R. Webster to defend and in August, 1912, he filed a demurrer. It has never been argued and the temporary injunction still stands. The outcome of this case will control as to the other two companies. In the Title Guarantee & Trust Company case District Attorney Evans has filed in Federal Court a motion requesting the court to direct the receiver to pay the taxes. He takes the position that as taxes are a first lien the county is entitled to be a preferred creditor.

MONKEY CAUSES BIG FUSS Factions Divide Over Dress and War to Go Before Commission. A factional fuss over the costume of a small monkey is to be one of the first puzzles to face the new city Commission when it takes office July 1. The monkey is the property of an Italian who appears on the streets with a grind-organ. One faction desires to force the owner to keep him muzzled, while the other objects to him having anything over his face. The problem came before the health and police committee of the City Council yesterday and was shoved along to the Commission, owing to the fact that the monkey is to operate under the jurisdiction of that body after the 1st of the month. One petition is before the Commission asking that the monkey be muzzled for the protection of the public. Another petition is on hand from the Humane Society objecting to the muzzle. Burglar Taken Redhanded. A young man, who gave the admittedly false name of John Jones, was arrested by Patrolman Gould about midnight when he was in the act of entering the "Wardrobe," a pressing and cleaning establishment at Raleigh and Twenty-second streets, north. The burglar had broken a rear window. A bank-book, not his own, and a bunch of passkeys were taken from the man, after Gould had thrust a revolver in his face and made him throw up his hands. He was charged with burglary. SALT LAKE YOUTH IN TOILS Caught in Burglarious Attempt, Other Circumstances Suspicious. J. D. Percival, a dapper youth apparently from Salt Lake City, is undergoing a rigid investigation by Detectives Goltz and Royle, following his capture in an alleged attempt at burglary by Patrolman Gould early yesterday morning. Percival had broken a window in a cleaning establishment when the officer came upon him. When searched, Percival, who gave the alias Jones, was found to be carrying a number of Salt Lake check books on various banks, and had two checks, aggregating over \$100, written out. The detectives found that he had four suitcases, of which two were in pawn.
