Over 100 Applicants for Licenses to Practice Medicine Being Examined.

STRINGENT RULE IN FORCE

Standing of 75 Per Cent in Every Subject Now Required and Members of Board Predict That Failures Will Be Numerous.

There is weeping, wailing and gnash. ing of teeth at the Lownsdale school, formerly Jefferson High School, where more than 100 men and women are taking examinations before the state board of medical examiners, for the purpose of being allowed the right to practice in Oregon.

This is because the Legislature, at its last session, passed a law requiring all applicants for licenses to practice medicine in Oregon to attain a mark of 75 or better on every subject included in

Aspiring physicians from all over the world came to Oregon to practice not knowing they were to run afoul of such a snag.

Due Prophectes Made. The state board of medical examiners didn't know it, either, until about two weeks ago when copies of the law were Members of the board yesterday prophesied that not more than 25 per cent of those taking the examinations would pass.

Members of the board are provoked. too, as nobody consulted them and they intend to find out who conceived the

Heretofore an applicant might get a mark of 75 in one subject, 90 in another, 80 in another, 40 in another, and so or but if the total averaged 75 or 70 whichever mark was set by the board, the applicant passed. Now he has to reach 75 or better in every subject. From no far as Japan have come the applicants for licenses, and as the ex-

amination progresses the perturbation increases. Yesterday those taking the examination sat about on the school-house steps like so many schools. They who had to stay after school. They read and re-read the new law which the state solons had wished on them and they wiped their foreheads despair Salem Physicians Blamed.

One theory of the origin of the new law is that it started from Salem phy-sicians who objected to giving licenses POLICE ORDER IS ISSUED to so many graduates and under-graduates of Willamette University. Another thing the legislature wished onto the medical profession and which the board of examiners knew nothing of until after it was all over is a law that a nurse, if she is to administer anesthetics, must pass an examination before the state board. Heretofore if a nurse was graduated and employed in the office of a physician she could administer anesthetics.

Government Dredge Results, However, Unknown.

LONG HOURS NOW ORDER

Major McIndoe Hopes for Successful Run but Will Not Get Report Till Ten-Day Operation Has Been Finished.

Further than that the Government dredge Chinook is handling immense quantities of material on the Columbia River bar and that daily since she resumed operations there, she has worked 16 full hours, Major McIndoe. Corps of Engineers, U.S.A., has received no report, but expects a statement within a few days of her first

10 days' operation.

Daily reports are made to Gerald Bagnall, assistant engineer, at Fort Stevens, and at the expiration of each 10-day period a full report is forwarded to the Portland office. As to there being a greater depth of water on the bar now over what prevailed when the Chinook began Major McIndon doe says he has had no official infor-mation to that effect, having heard only that it was estimated by outsiders that there was two feet more water. "I sincerely hope there is more water and that the Chinook will have a most successful run, but until there is a survey made it will be difficult to de-termine what has been accomplished,"

said Major McIndoe.

The dredge is under way virtually all of the daylight period and at night steams to an anchorage near Desde-mona light. Those who have seen her on the bar assert that she is working rapidly and that no time is being lost by her crew, so it is naturally assumed that from the amount of material that must be handled in a day she is doing excellent work.

No request has yet been made of

Major McIndoe for permission to send a delegation of shippers aboard the Chinook so they may watch her in operation and when the trip is made special arrangements will have to be provided so the party can reach her before she leaves for sea in the morn-

Some believe that after the Chinook has been in service a month there will be a big gain in depth on the bar, but as far as the Government is concerned dependence will be placed principally in soundings made under the direction of its officers.

LOCKS DEED PROMISED SOON

Final Details Being Worked Out on Oregon City Gateway.

Franklin T, Griffith, president of the Portland Rallway, Light & Power Company,, which entered into an agreement pany,, which entered into an agreement to dispose of the locks and canal at Willamette Falls, Oregon City, to the Jovernment over a year ago, has promised Major McIndoe, Corps of Engineers, U. S. A., that papers in the case will be delivered by attorneys for the company in a short time, so they may be forwarded to Washington for final action.

case will be delivered by attorneys for the company in a short time, so they may be forwarded to Washington for final action.

Highest Sale Is Made by R. H. Bunch—Grant County Growers

Do Better Than Those of Baker County.

Captain H. H. Robert, Corps of Engering the title must be satisfied and adjusted before the Government would accept the property. Until payment is made and money stringency caused practically every wool man to sell his clip taken over three will be no elimination of tolls on travel and cargo passing through the locks on river steamers.

Captain Robert delayed his trip owing the Holeson, Rudoiph in the formal action.

The agreement to sell was reached a year ago, in February, and while a draft of the deed was forwarded to Washington and received approval as to form, it was specified that certain small mortgages and minor features affecting the title must be satisfied and adjusted before the government would accept the property. Until payment is made and the property formally taken over there will be no elimination of tolls on travel and cargo passing through the locks on river steamers.

Captain Robert delayed his trip owing the formal action.
