

ALBEE TAKES VIA STRIKE TROUBLE

Testimony Taken From Packing Plant Girls and Agitators as First Step.

BUSINESS MEN ASK ACTION

I. W. W. and Socialists Said to Employ Woman to Provide for Strikers to Avoid Idle Gossip of Any Wrongdoing in Plant.

MAYOR ALBEE GIVES ORDERS TO CHIEF OF POLICE CLARK.

In the strike at the Oregon Packing Company plant, permit no person, striker or other to use abusive, obscene, vulgar or threatening language. Permit no person to block the street or sidewalk. Permit no rowdiness, threats or violence of any kind. Arrest forthwith all violators of the penal ordinances and the City of Portland or violators of these orders.

To get at the bottom of the strike troubles at the Oregon Packing Company plant at East Eighth and Belmont streets, Mayor Albee yesterday commenced a thorough investigation, the result of which will be decisive action.

Brushing all other business aside the Mayor devoted nearly the entire day to the taking of testimony from the girls who are on a strike, girls who are still at work in the plant, persons who have information regarding the actions of the strikers and the I. W. W. agitators, and the I. W. W. agitators and the City of Portland and representatives of the packing company.

It developed that the settlement proposed by the Industrial Welfare Commission and the management of the plant was not acceptable to the strikers, and that the strike is still under way as strong as ever, owing to the fact that the girls were not consulted or considered in the settlement. It was declared that the socialist party and I. W. W. workers are paying the board and room bills of the striking girls, and that they are getting a minimum wage of \$9 a week for six days' work of nine hours per day.

The first delegation summoned by the Mayor was that of the women who are working at the plant. It was found that those who are still at work are satisfied with the terms of the settlement, and have no desire to join in the strike. It was declared that their objection to the strike is that the agitators, who crowd the streets about the plant, abuse them and make life miserable for them when they are going to and from work and when they sit near the front door of the plant and eat their lunches.

It was declared also that abusive and vulgar language is used by the agitators on the outside. One woman who is still working at the factory said she often has been denounced by the crowds as a white slave and as a scab. The Mayor said that the women facts to the effect that the workers in the plant have been cursed at times and that the swearing has been heard by children.

Finishing with the workers, the Mayor took up a hearing of the strikers, who marched to the City Hall in threes. There were about 200 in the crowd, including some men and women, who are not on strike but are conducting the strike. The Mayor had a stenographer on hand to take their testimony, and each was placed under oath by city Attorney LaRoche.

More Pay is Demanded. It was declared by the strikers, who were examined one by one, that they are after more pay. They insist upon a minimum wage of \$150 for a nine-hour day, and double time for overtime work, and work on Saturdays. In some cases they declared that they had worked hard for the factory and had received ridiculously low wages.

Strikes Admits Support. Several of the women were asked how they are supporting themselves during the strike, and said that the socialist party is paying their board and room bills, and that they are being paid by a woman of the party, it was said.

It was said by several of the witnesses that no attempt was made to insult anyone or to create trouble. It was said that the strikers have their own policemen on the ground and that they are being immediately arrested if they are found interfering with these men. Strong denial was made of the reports that abusive or improper language is being used by the strikers.

Mayor Albee said that he was going to enforce the city ordinances. He warned the strikers against causing trouble at the scene of the strike, and notified the socialist leaders that they must discontinue the use of abusive language.

Business Men Ask Action. At 10 o'clock in the afternoon a delegation of about 30 members of the East Side Business Men's Club appeared before the Mayor and asked for definite and decisive action from the police department to end the meetings of the strikers and agitators and to keep them away from the packing plant.

The delegation urged that the Mayor instruct the police to drive away the crowd in the streets about the plant. He said that unless this was done the proposition would be taken up with Governor West.

Superintendent McPherson, of the Oregon Packing plant, declared that the crowd of so-called strikers are not strikers at all, but a few of the number being members of the I. W. W. He said they are on the ground merely to stir up trouble and that the girls who are on a strike are being paid for their services as strikers. He declared that the agitators want "interference with that gang of I. W. W. followers," said one speaker, "will stir

up a hornet's nest like that which played havoc in San Diego recently. There are thousands of the agitators who are longing for interference." Mayor Albee gave his views on the subject when the other speakers had finished. "I am just as anxious to abate this trouble as anyone present, but I am limited in my power. I have taken up the proposition of police interference with the City Attorney and with the District Attorney and other lawyers and I find that I must stay within the law. I want to be just and fair to all concerned and also to enforce the law to the letter. I have instructed the Chief of Police, Mr. Clark, who has handled some of the biggest strikes in the country, to see that the law is observed in every respect by the strikers at the packing plant. Any infraction of law will result in arrests. I am not a politician and I have no legal or moral authority.

Mayor is Congratulated. "I have investigated this proposition as thoroughly as I can and I admit that things have happened at the plant that have not been tolerated. They will not be tolerated in the future. There will be no more police on the ground continuously to see that my orders are obeyed."

At the close of the meeting several of the strikers congratulated the Mayor on his stand and said that they considered it the only wise and fair course to take for the protection of the interests of law and order and good citizenship in Portland. The Mayor declared that he will have representatives on the ground all of the time and will keep close tap on what happens.

PACKING CONCERN MAY QUIT Agitators' Annoyance Brings Threat From Plant's Manager.

Unless the annoyance from the bands of I. W. W. agitators about the plant of the Oregon Packing Company on the East Side is abated, the managers of the concern will practically shut it down Saturday night, operating it thereafter only on a scale sufficient to handle material already on hand or under contract. The chief activity of the concern will be transferred to the plant which is in operation now in Salem.

"Since the beginning of the trouble with the I. W. W. agitators we have lost about \$5000 of business, and our hands because we were unable to take care of it," said R. D. Fontana, manager of the company, yesterday. "I am not the one who is persecuting our workers; it is the I. W. W. people who hang around the plant all day long, and the girls and women who come to work for us are continually intimidated and insulted by the I. W. W. ruffians and many of them after the fact have committed suicide. I do not risk it a second time and do not return."

O. L. McPherson, superintendent of the plant, said that before the trouble began there were 300 women employed in the packing plant. Only about 20 girls were left before the trouble began, and others did not begin to work because the I. W. W. agitators began to accost and annoy them on the street as they went to and from work. There are now not more than 150 women and 50 men employed in the plant.

The time sheets in the office of the company show that as a rule the majority of the women are earning more than the \$1 a day minimum which was fixed by the commission after the beginning of the strike. On the basis of 10 cents an hour, a woman a day, most of them are earning by piece work, nearly twice as much as they would earn working by the hour.

At the entrance of the warehouse yesterday afternoon 200 boxes of cherries, which had been spoiled because they could not be handled, were piled up waiting to be hauled away to the garbage incinerator. Already, according to the superintendent, five tons of cherries had been hauled away that day, to be destroyed.

"We have tried every means that is at our disposal to get rid of the agitators who are interfering with the work," said the manager, "but apparently it cannot be done. If the city of Portland can offer us no protection against such molestation, we will simply have to transfer our activity elsewhere."

ORR GETS BIG ESTATE YEAR AND HALF MARRIED LIFE BRINGS \$75,000.

Thomas Burke Fortune Passes Into Hands Who Recently Were Strangers of Family.

As a reward for being the husband of Mrs. Mollie Burke Orr during the last year and a half of her life, August 15, Orr falls heir to a large estate valued at approximately \$75,000. Mrs. Orr, who died July 19, left no will and no children and under the law the estate of her husband is being administered by Probate Judge Cleeton.

Mrs. Orr's property consisted of two-fifths of the real estate of the late Thomas Burke property, at Broadway and Salmon streets. Dr. A. S. Nichols purchased this property for \$190,000. Through marriage three-fifths of the money has now passed into the hands of those who were strangers to the Burke family until two years ago. The other fifth went to Miss Gertrude Baker, who was to have married Orr, but who was killed by him. Later she married Henry Honey, brother of Mollie Burke. He died just as they reached London, England, on their honeymoon trip in June, 1912. She succeeded to his entire estate of about \$200,000 and \$40,000. This estate was in the form of a note secured by a mortgage given as part consideration in the purchase of the Thomas Burke property referred to.

In the petition for probate presented by Orr the value of Mrs. Orr's personal property is given as \$38,200. This property also is chiefly a note secured by mortgage on the Burke property. In addition she owned an undivided interest in certain real estate in Washington County. Frank Schlegel, attorney for Orr, stated that her interest there probably is worth \$100.

Orr and her former wife were divorced not long before he married Miss Burke. Later he was engaged to marry Miss Gertrude Baker. She was a beauty specialist employed at a department store and was rooming at the home of Miss Burke. On the same day that she married Miss Burke at Oregon City, Orr took out a license in Multnomah County to marry Miss Baker. It was canceled and some months later Miss Baker became the wife of Henry Burke, brother of Mollie Burke-Orr. Henry Burke is known to have been addicted to intoxicants and drugs. A post-mortem examination developed that Mrs. Orr's death was due to alcoholism.
