CROP ESTIMATE CUT

Bullish Hop Cables From England and Germany.

COAST MARKETS VERY FIRM

Fifteen Cents Offered by Several Buyers on Contract, but Farmers Not Ready to Sell at Present Prices-Spot Demand Good.

The bop market remains firm at 15 cents for the new crop. Several dealers were offering this price yesterday, but with little success. As has been stated frequently, growers are very firm and not disposed to contract at this figure. None of the buyers, however, seem ready to raise the limit. Among the contracts recently signed were 80,000 pounds secured by Catlin & Linn, which included 20,000 pounds from Bradford, of Salem; 20,000 pounds from Simpkins, of Wheatland, and 20,000 pounds from Tweed, of Silverton. These crops were The hop market remains firm at 35 cents Tweed, of Sliverton. These crops were taken for English account.

The spot market is also firm with demand enough to take up all the remaining heldings in this state. Julius Pincus yes-terday took in 303 bales of 1912a, recently bought at around 1615 cents. Several smaller lots changed hands at various prices, in-

cluding some surplus stock held by brewers, which was traded for the new crop.
Several bullish cables were received during the day, one from London estimating
the English crop at 300,000 cwt., and another
at 325,000 cwt., as against a yield of 375,438

ing is being dene in some of the yards, but more as a preventive than a cure. The hot, dry weather is especially favorable for the spread of the sulphur and good results

As for conditions in Oregon they could not be much better than they now are. Esti-mates of the yield range from 120,000 to 180,-900 bales. The crop is going to be a clean

IMPROVEMENT IN HIDE MARKET Better Conditions Prevail in East, but Prices Hero Are Not Changed.

Reperts received from the East yester-day indicate a material improvement in the hide market, but it has not been reflected yet in much better conditions on this Coast. Trade here continues sluggish, but as there is a considerable scarcity in the offerings, the undertone of the market is quite steady. Short-haired hides are rather firm, but long-haired are difficult to dispose of at current prices. Quotations, on the whole, are about the same as last week.

As the hide market is regarded as a more or less reliable batometer of general busi-ness conditions, the slight rise apparent in the East is taken to mean a betterment of state of trade, as a whole. Advices received by mail yesterday from Chicago were

"The principal demand still continues for branded varieties, although native steers have received some attention, and the principal feature of this market has been the cleaning up of some odd lots of February and March native steers, amounting to from 25,000 to 30,000, at 16%c. Some packers are now talking up to 18%c for July native steers and 18c for May and June salting, but the market for July takeoff has not yet been established at over 18c. Melons were quoted higher at 12-25 cents. Light receipts and the advance in California, due to the hot weather and the big demand there, were responsible for the strength of the local market. Cantaloupes were also higher with a light supply.

The peach market was firm on yellow stock, which moved at \$1.15 to \$1.25 a crate, Oregon peaches were not over plentiful, but prices were lowered in some quarters to a range of 60 to 85 cents. Plums were steady at \$1.25 and other deciduous fruits sold at former prices. Receipts of berries about balanced the demand and prices show but little change.

Good tomatoes were scarce and the best sold at \$1.50 a box. There is also a temporary scarcity of cucumbers.

Mathews vs. Wahkiakum County for an erroneous assessment.

An echo of the famous Peacock case was heard in the action of L. L. Levings on his claim against the county for professional services rendered the county during the trial of the Peacock case in October, 1910. This claim has been before the County County says and the Peacock case nearly three years ago, at which time the defendant finally was discharged upon his agreement to leave the county. The present action was continued pending further negotiations with the County Commissioners for settlement.

Rain Damage in France Makes

Chicago Market Closes With Advances Ranging Up to 1 1-4 Cents Net-Unbroken Drouth Sends

CHICAGO. July 17.—Improved export business ran up prices today in wheat. The market closed stendy at an advance of 14 % to 14 for net. All other leading staples showed a gain—corn 3c to 14 % 1c, oats 3c to 15 c and provisions a shade to 10c.

Liverpool traders would not harmonise with yesterday's decline here and cables told of rain damage in France, and wheat bulls took courage from this fact.

Corn ascended because of unbroken drouth and heat West of the Missouri River.

Disappointing thresher returns in Illinois had a strengthening influence on oats.

Higher prices for hogs served as the chief basis or which to holst provisions.

The leading futures ranged as follows:
