

SENATOR BRYAN DISCUSSING BRYAN

Bristow, His Resolution Defeated, Insists on Being Heard in Criticism.

COUNTER-CHARGE IS MADE

Ashurst Says Kansan Was Glad in 1906 to Give Part Time to Federal Job—Townsend Calls Example Unwholesome.

WASHINGTON, July 18.—Secretary Bryan's policy of lecturing in his vacation time involved the Senate in a bitter controversy today. It began when Senator Bristow, ignoring the defeat of his resolution directed at Mr. Bryan's action, insisted on being heard in severe criticism of the Cabinet officer.

Before the debate ended charges and countercharges between Senators on the two sides of the chamber had brought the Senate to a high pitch of excitement. Senator Ashurst produced an old letter of Senator Bristow's which he declared indicated that Mr. Bristow in 1906 had been perfectly willing to take a Federal position and devote only part of his time to it.

Bristow Accuses Ashurst. Senator Bristow retorted with the charge that Senator Ashurst had spent more than \$100 of public funds sending private telegrams that should have been paid for from his own pocket, a charge denied by Senator Ashurst, but which Senator Bristow insisted is proved by producing original telegrams that had been paid for out of the Senate funds.

From these personal accusations the debate went into the general field of public lecturing and writing, and Democratic Senators called attention to the Chairman's platform work of Senator Bristow and many others, and to the newspaper writing that Senator Bristow had done at the last Baltimore convention.

The Kansas Senator emphatically declared that he never had neglected the duties of his office. "I am not on trial here," he said. "I simply want to show that people who live in glass houses should not throw stones," said Senator James.

Bryan Strongly Criticized. Senators Bristow, Townsend, Fall and others attacked in strong language the action of Secretary Bryan in delivering paid lectures at a time when, they contended, public questions required his close attention to the affairs of the State Department.

The Bristow resolution introduced Tuesday calling on President Wilson to say what salary would be sufficient to secure all of Secretary Bryan's time as it came up today, the Democrats and Senators Borah and Poinsette opposing it.

A prepared attack on Secretary Bryan's action by Senator Townsend and an extensive defense by Senator Lewis illumined the oratory of the day. Senator Townsend insisted "the example of the Secretary in selling his time for private gain, when it already had been sold to the Government was unwholesome for the entire country."

"The question is simply this, whether, under the circumstances it is the duty of the citizen and the public servant to modify his style of living to bring it within his legitimate income, or whether it is his privilege to resell his services in order to cover the cost of the style of living he has adopted," said Senator Townsend.

BRYAN TO LECTURE SUNDAY

Secretary Expects to Net About \$250 From Each Engagement.

WASHINGTON, July 18.—Secretary Bryan talked freely with the newspapermen today about his much-discussed and criticized plan to pass his vacation on the lecture platform. He said he probably would make a little more than \$250 on each lecture and added: "When I return I'll tell you just how much I have made."

Mr. Bryan will deliver his first lecture before the Winoona, Ind., Chautauqua assembly Sunday afternoon. He will make as many additional lectures as time will permit before his return for his conference with Ambassador Wilson, now en route to Washington from Mexico City, to make the report to President Wilson and Secretary Bryan which probably will determine the future attitude of the United States toward the revolution-torn republic to the south.

The Secretary indicated that he was making the trip under his own auspices and said he would not become president of the Winoona Chautauqua until its reorganization, after its indebtedness had been liquidated.

CARNEGIE CHANGES PLANS

Administration of \$10,000,000 Fund Transferred to Great Britain.

LONDON, July 18.—Andrew Carnegie has instructed the Carnegie Dunfermline Trust with the administration of the income from \$10,000,000 of 2 per cent Steel bonds heretofore administered by the Carnegie Corporation of New York. In a letter today the ironmaster says: "The transfer of administration to my motherland has not been made because the fund has not been wisely administered in New York but because in the nature of things the conditions which have enabled me to keep closely in touch with the fund soon must change. It is my duty to consider the future."

Mr. Carnegie adds that the income of \$500,000 hitherto devoted to public libraries and church organizations in the United Kingdom, but the Dunfermline Trust is to have full power to divert the fund "into the most beneficial uses for the good of the masses of Great Britain and Ireland."

Medill McCormick Says Parties Will Not Combine.

NEW ALIGNMENT FORESEEN

Former Chicago Publisher Insists Republicans Make Overtures Because They Fear Their Own Weakness in 1916.

"In the ultimate future there will be but two political parties. One will represent the liberal element. One will represent the conservatives. The sentiment of the country is divided sharply upon these issues. Whether the surviving parties are called Republican, Democratic or Progressive is of little consequence. The principles they stand for will be the same. But I look for the name 'Progressive' to survive. It represents the spirit of the times."

"You hear a lot of talk about the amalgamation of the Progressive and the Republican parties these days, but it comes principally from Republicans. The only Progressive who is advocating that is Munsey and he has recruited no strength behind him.

GALLINGER LEADS TARIFF MINORITY

With Submission of Majority Report Senators Prepare for Debate.

TERMS OF BILL ANALYZED

Reduction of 27.64 Per Cent Estimated as Compared With Present Law—Underwood Bill Reduced 4.22 Per Cent.

WASHINGTON, July 18.—With the submission today of the report of the majority members of the finance committee on the Underwood-Simmons tariff bill formal consideration of the measure was begun in the Senate, but it continued a few minutes only, due to the unavoidable absence of Chairman Simmons, detained in North Carolina on account of death in his family.

Senator Simmons will inaugurate the debate tomorrow with a speech setting forth the general views of the Democratic majority on the bill and the needs for tariff revision. Senator Cummins served notice that he would speak on behalf of the minority and he might follow Senator Simmons tomorrow afternoon.

Senators Smoot and Burton plan to talk Monday.

Gallinger to Lead Minority.

Republican Senators in conference today reaffirmed their support of Senator Gallinger's New Hampshire tariff bill and agreed to support requests of Republicans for record votes on amendments when desired.

The majority report estimates that the pending bill effects a reduction of 27.64 per cent from the rates of the existing law.

The report also shows that the bill as reported to the Senate, provides for a 4.22 per cent lower than the Underwood bill as it passed the House, and that from it, together with other persons and the rearrangement of this, the report comments upon as follows:

"While the amendment may make no wide difference in the volume of revenue derivable from the tax it is deemed equitable as the measure will add obligations on account of marriage and children and salary as emigration and other social features."

SUICIDE FEARS MASON'S

WIDOW SAYS BELL LIVED IN DREAD OF VENGEANCE. Conscience of Retired Packer Said to Have Pricked Him Until He Became Insane.

CHICAGO, July 18.—A remarkable story of the later years of the life of the retired packer, Kossuth H. Bell, who committed suicide recently, was told to a coroner's jury here today by his widow, Mrs. Emma M. Bell, from whom the decedent separated three years ago.

About five years ago, Mrs. Bell recalled, her husband became involved with a married woman whose husband was a Mason. When Bell, himself an active Mason, learned this, he worried continuously until his mind became affected.

"He would not let me put napkins on the table, because he said that the Masons signalled him with them, and he made me keep the window shades down so that their 'gang' could not see him," said the witness.

Bell was finally adjudged insane and took poison at the Kenilworth Asylum, but recovered. Later, when brought to Chicago to see a dentist, he jumped from a moving train and was at large for some days after the separation he obtained a housekeeper, for whom the coroner's jury is searching.
