

DANIELS TALKS ON VOTES FOR WOMEN

Secretary Has No Fears for Love, Marriage and Home Under New System.

AID NEEDED FOR REFORMS

Sex Admitted to Use Ballot for Health, Sanitation and Protection of Children—Extension Is Bound to Come.

SAN FRANCISCO, July 25.—Secretary Daniels, of the Navy Department, told the women of the San Francisco Civil League tonight that whatever the opinion of individuals about the wisdom of woman suffrage, "We may as well get ready for the inevitable, for women are going to vote."

"Only last month," he continued, "Illinois gave them the ballot for all except constitutional offices, and the present generation will witness complete woman suffrage in every state in the American union. And when it comes, the Constitution will not be broken and the home will not be destroyed."

"Yours is the first state," said the Secretary, addressing himself directly to California, "with big population, with seaports of prime importance and cosmopolitan population, to give the ballot to women on the same terms with men. How will it turn out, either for us as well as every friend of woman suffrage is watching you. Is it too much to say that the question for this generation is hanging in the balance to be determined by the wisdom of your exercise of the ballot?"

Child Is State's First Care. "The world is only now fully awakening to Jefferson's conception of government. This chart of human liberties first of all declares to the state that, paramount to the protection of infant industries, is care for the infants of the Republic."

"For 6000 years they have been permitted to die by impure milk, impure food, disgraceful sanitary conditions, unhealthy surroundings, death-holds, tenements and typhoid and other preventable germs. We have spent millions to protect infant industries, and they have grown into giants and we continue to feed them. We have spent only a pittance to protect the infants."

"It is only in recent years that the conscience of the country has been aroused to the protection of girlhood and the suppression of the white slave traffic has been vigorously undertaken by local, state and Federal governments. Juvenile courts have come out of this new enlightenment."

Woman's Work Is Outlined. "If the women of California exercise the right of suffrage for health, sanitation, the protection of child, the women, the home, if they stand against graft and hysteresis, if they sense immoral men to political St. Helens; if they oppose privilege and the rule of protection that lets one man get rich at the expense of the many; if they set their faces for the real reforms, who will dare say that suffrage has not been justified of her children?"

"The only argument against suffrage that has had and still has weight, has been the fear that women would neglect the home for the object of Elysium, the family life would be less reticent and less wholesome; that race suicide would ensue and that the modesty and grace of our women would be sacrificed to self-assertiveness and grossness. Of course, if such results should follow, woman suffrage would be worse than the murrain of the locusts of Egypt and the plague would ruin the race. But did God make man and woman capable of forgetting the object of existence? Can love and marriage and the family ever fall to be the trinity that will have no rivals? To doubt that the family will always be the center is to doubt the wisdom of God."

ALASKA CASE NEARS END

Defense Rests in McDonald Murder Trial at Juneau.

JUNEAU, Alaska, July 25.—The defense rested today in the trial of Joseph McDonald, general manager of the Consolidated Mining & Milling Company, of the charge of murder in the first degree for killing N. C. Jones, a mission worker, at Treadwell, May 14, 1902, when McDonald was superintendent of the Treadwell mine. The Government began the examination of witnesses in rebuttal today, and the case probably will go to the jury Monday.

McDonald was on the stand testifying in his own defense all day yesterday and part of today. He told how Jones had bothered him many weeks before the killing trying to induce him to close the Treadwell mines on Sunday so as to "avoid the wrath of God." McDonald then illustrated how, when Jones was killed, he held the chamber of Jones' revolver with his left hand while with his right he shot Jones first in the arms and then in the body, causing death.

The trial will cost close to \$100,000, 60 witnesses having been summoned from all parts of the United States. Most of the expense falls on the defense.

CHILD LABOR ASSAILED

Legislation to Prohibit Transportation of Products Considered.

WASHINGTON, July 25.—Legislation designed to prevent the employment of children under 14 years old in mines and factories and to prevent the employment of women in manufacturing for more than eight hours a day was considered today by the House labor committee.

The committee took up bills introduced by Representative Taylor, of Colorado, to forbid the interstate transportation of the products of the mines or factories employing children under 14, and the products of factories which work women more than eight hours a day.

Ball Game Breaks House Quorum.

WASHINGTON, July 25.—Shackled by a Republican filibuster organized to force the reopening of the debate on the Cambiatti case, the House dragged along today through four hours of unnecessary rollcalls and finally adjourned until tomorrow because enough members to make up a quorum had gone to the baseball game.

SCION OF RICH AMERICAN FAMILY, HIS SECOND WIFE AND 10-MONTHS-OLD BABY WITH NURSE, JUST ARRIVED FROM EUROPE

RICH BABY ARRIVES

Vanderbilts Return With Alfred Gwynne, Jr.

AMERICA SEEN FIRST TIME

French Liner Brings Home Wealthy New Yorker, Second Bride and Child, Who Hasten to Newport, Where First Wife Is, Too.

New York, July 25.—(Special.)—Newport already is entertaining in lavish style for the Vanderbilts—Alfred Gwynne, his latest wife and their 10-months-old baby, who is now on his first visit to America, having been born on British soil. The Vanderbilts returned to New York Saturday aboard a French liner. The family left immediately for Newport, where the Vanderbilts have one of the most beautiful of the famous Long Island places.

The Vanderbilts expect to do much entertaining this summer. They received a glad welcome by Newporters. Mrs. Vanderbilt is well known as the divorced wife of Smith Hollins McKim, the Boston physician, from whom she was separated in Reno two years ago. She is the daughter of Captain Isaac E. Emerson, of Baltimore, one of the wealthiest of Maryland's rich.

Yvonne Vanderbilt looked worn and tired when she arrived, and has not the color or appearance of the days when she was a noted beauty and became the bride of Dr. McKim. The first Mrs. Vanderbilt, who was Elsie French, of this city and Newport, will have the pleasure, no doubt, of seeing the woman who succeeded to her place as she, too, is at Newport for the summer.

Little Alfred Gwynne Vanderbilt, Jr., the newest heir in the house of Vanderbilt, is a husky youngster, and is constantly under the care of governesses. On his arrival here he seemed to be enjoying his first visit to the United States. He possesses the peculiar eyes of his family, with the slanting brows and full upper lip.

The Vanderbilts expect to stay in America until after Christmas. He is one of the richest babies of the smarter set.

CENSORS ARE SHOCKED

SOCIAL LEADERS BLAMED FOR "RAG" DANCING.

Extent to Which Oakland Women Are Using Liquor Also Declared to Be Alarming.

SAN FRANCISCO, July 25.—(Special.)—The public welfare and censorship committee of Oakland, in a report made today, puts the responsibility for the growth in popularity of immoral dances directly to the social leaders. Speaking in the house of Elmer, the committee's encouragement of "rag" dancing has on the people.

In a section on restaurants the committee reports that after careful investigation it has been shocked to note the extent to which Oakland women are taking to drinking and charges having it properly labeled. He uses his liquor without food.

The committee then recommends that steps be taken to correct the evils.

LAUNCH OWNER ARRESTED

Florence Prosecutes Transporter of Liquor Without Required Label.

MARSHFIELD, Or., July 25.—(Special.)—John Swing, master and owner of the seagoing launch "Tramp" returned here this week from Florence, where he was arrested for taking liquor without having it properly labeled. He uses his launch to transport merchandise from Coos Bay to the smaller towns along the coast.

In his last cargo for the "Tramp," he had two barrels of beer and some other liquors. He discharged it and the next day the town Marshal of Florence came aboard the "Tramp" and arrested him. Swing asserts that the Marshal violated the Federal law in arresting him aboard his boat and is threatening to sue the town of Florence. Meanwhile he has given bonds for hearing on the charge preferred.

FLYING SQUAD IN KLAMATH

Workers for Development League Meeting Visit Several Towns.

KLAMATH FALLS, Or., July 25.—(Special.)—The "Flying Squad" Phil S. Bates, of the Pacific Northwest; Dean A. B. Cordley, of the Oregon Agricultural College; R. H. Crozier, of the Hill

MILITIA REMAINS COPPER REGION

Calumet & Hecla Illuminates Works to Prevent "Planting" of Explosives.

DISORDERS ARE FITFUL

Sheriff's Deputies Driven From Mines on South Range—Governor Not to Attempt Arbitration at Present.

CALUMET, Mich., July 25.—Reports that Governor Ferris would come to Houghton tonight to help arrange a settlement of the strike of 15,000 copper mine employees in the northern peninsula brought out an unofficial statement from the mine managers that they would welcome the Governor's presence.

Any plans for arbitration under the direction of the Governor were soon dispelled, however, by the announcement that the Governor had no present intention of coming to the copper country or of withdrawing the militia which is protecting the mines against any further outbreak of the strikers.

Disorders Are Sporadic. Disorders occurred spasmodically in the outlying districts of the mining country today, but in no case did the union members manifest the spirit which appeared in the attack on Calumet & Hecla properties yesterday.

A call for troops came from the South Range, where the sympathizers drove away the Sheriff's deputies at the Baltic, Tri-Mountain and other mines, but an investigation by militia command officers convinced them that the situation was not serious enough to require the presence of state soldiers.

It was the consensus of opinion among officers of the three companies already here that the storm center would remain about Calumet. Accordingly, the militia commanders wired all about the Calumet & Hecla shafts and shops with 60-candlepower lamps depending therefrom every six feet. The militia commanders were convinced that the illumination would prevent any possibility of "planting" explosives, which has been a night.

Union Issue Statement. After a lengthy conference, union officials issued a statement outlining the position of the miners. The statement declared that the strike was not called until peaceable means had failed and reply had been refused to a letter to operating companies requesting a conference for the adjustment of grievances.

The statement urges that as a laborer's citizenship gives him a voice in his government, his employment should give him a voice as to hours, wages and other conditions. That is what is meant by "recognition of the union," and that to offer to treat with individuals and refuse to treat with a committee representing the employees is a mock of fair dealing.

"TRUST BUSTER" IS CHOSEN

George Carroll Todd, of New York, to Have Charge of Work.

WASHINGTON, July 25.—George Carroll Todd, a New York lawyer, now in the Department of Justice, was nominated today by President Wilson to be assistant to the Attorney General. He will be in direct charge of anti-trust work, succeeding James A. Fowler, of Knoxville, Tenn.

The President also made a long list of other nominations, including the following: Assistant Secretary of the Treasury—Charles S. Hamlin, of Massachusetts. Register of the Treasury—Adam E. Patterson, of Oklahoma. Assistant Treasurer of the United States at San Francisco, William J. McGee, of California. Superintendent of the Mint at San Francisco—Thaddeus W. H. Shanahan, of California.

Appraiser of Merchandise, District of San Francisco—Edward E. Leake. Collector of Customs, District of San Francisco—John O. Davis. District Officer, District of California—James H. Barry. Surveyor of Customs in the District of San Francisco—Justus S. Wadell. Collector of Internal Revenue, District of California—James J. Scott. Collector of Internal Revenue, Sixth District of California—John P. Carter.

SALEM TO HAVE BIG DAY

Elaborate Program Being Arranged for Labor Celebration.

SALEM, Or., July 25.—(Special.)—Salem will have its biggest labor celebration this year. The Central Labor Council has arranged an elaborate program which includes a big street parade and a basket picnic. The picnic probably will be held on the state grounds but this has not been determined definitely.

Commissioner Daly, of Portland, will be asked to make the principal address, and several local men will speak. There are about 700 members of unions in the city, and it is probable that other workers will participate in the exercises.

WOMAN ATTACKED BY BULL

Mrs. William McCall Badly Hurt at Home Near Washougal.

WASHOUGAL, Wash., July 25.—(Special.)—Mrs. William McCall, wife of a prominent farmer in the Forest Hill district, on Wednesday was attacked by a bull, to which she had carried a pail of water, and badly injured before she screams attracted workmen in the fields.

A broken shoulder blade and at least one broken rib, are believed to be the most serious injuries received by Mrs. McCall. She was attended by Dr. Smith.

EX-PRESIDENT IS ARRESTED

Ministerial Crisis Threatened as Result of Riots in Peru.

LIMA, Peru, July 25.—Augusto B. Leguina, ex-President of Peru, and his wife were arrested today and sent to the Penitentiary. Their arrest followed a riot last night, during which six persons were wounded by shots fired from the windows and roof of the Leguina residence. The crowd had threatened to attack the house.

The affair has caused a great sensation here and will probably bring about a ministerial crisis.

Mills to Build Water System. NORTH BEND, Or., July 25.—(Special.)—The Simpson Lumber Company has been granted a franchise here to install a water system to supply fresh water for its mills and factories. The mills have been using water from the town water system but recently the water company advanced the rate.

MILITIA REMAINS COPPER REGION

Calumet & Hecla Illuminates Works to Prevent "Planting" of Explosives.

DISORDERS ARE FITFUL

Sheriff's Deputies Driven From Mines on South Range—Governor Not to Attempt Arbitration at Present.

CALUMET, Mich., July 25.—Reports that Governor Ferris would come to Houghton tonight to help arrange a settlement of the strike of 15,000 copper mine employees in the northern peninsula brought out an unofficial statement from the mine managers that they would welcome the Governor's presence.

That is what is meant by "recognition of the union," and that to offer to treat with individuals and refuse to treat with a committee representing the employees is a mock of fair dealing.

SULZER SUSPECTS PLOT

GOVERNOR SAYS GRAND JURY INQUIRY IS WANTED.

Threatening Letters Are Told of Hired Tools of Political Enemies Said to Molest Him on Streets.

ALBANY, N. Y., July 25.—(Special.)—Governor Sulzer, in an interview tonight said that he believed a plot to get him out of the way had been hatched by his political enemies in Tammany Hall, and that he regarded it as serious enough to be made the subject of inquiry by the grand jury in New York County.

The Governor says he has been molested in the public streets on his way to and from the Capitol by men whom he regards as hired tools of his political opponents. Threatening letters have come both to him and to Mrs. Sulzer.

Governor Sulzer says threats or even plots against his life would not drive him from the firing line, nor would they deter him from doing his full duty to the people as Governor of the state. He said he had enemies as desperate as Becker was when he went after Rosenthal.

KAHN PRESSING INQUIRY

Demand Made for More Information in Diggs-Caminetti Cases.

WASHINGTON, July 25.—Representative Kahn introduced another resolution today relating to the Diggs-Caminetti "white slave" cases in San Francisco. It would direct Attorney-General McReynolds to give the House a copy of the telegrams received by the House (more than a month prior to the date when Mr. Wilson, Secretary of Labor, telephoned to the Attorney-General in regard to a postponement of the Caminetti case), directing United States Attorney McNab to take no further affirmative action against Diggs and Caminetti under "white slave" indictments until further directed by the Attorney-General, and also copies of the memorandum placed in the files of the office of the Attorney-General in connection with or relating to the sending of such telegram.

The resolution was referred to the Judiciary committee.

BRIDGES ARE COMPLETED

DeVeny Road Near Mount Hood Also Greatly Improved.

WELCH'S, Western Mount Hood, July 25.—(Special.)—Through the efforts of the Mount Hood Improvement Association, of which C. W. Kern is president, the bridges over Bear Creek, Zigzag and Sandy rivers have been completed, and the DeVeny road opened from the Mount Hood automobile road to the north side of the Sandy River. The association also has cleared the road of stumps and stones.

The bridge over Sandy River is a single span, and was built by contributions of residents. Forest rangers assisted in erecting the bridges over Bear Creek and Zigzag River. William DeVeny, of Portland, assisted in this improvement.

Tenino Contract Awarded. TENINO, Wash., July 25.—(Special.)—The contract for a new reservoir has been let to William Waller, of Olympia. The construction is to be of concrete.
