

HARVEST DEPART
Returns From Inland Empire
Are Satisfactory.

WEATHER CONDITIONS GOOD

Recent Hot Spell Responsible for
Some Shrinkage in Certain Localities
Hay Cutting Is
Making Good Progress.

Generally satisfactory harvesting reports are received from Eastern Oregon and Eastern Washington by the traffic department of the O. W. R. & N. Co. today. The reports are summarized as follows:

Spokane Division—The weather the past week was warm. A nice rain Monday night broke the hot spell for a few hours. Reports as to the effect upon grain are considerably conflicting. Some say the grain has been burned by the hot sun and will affect the yield 10 per cent; others report that the damage is very slight and that the yield is up to what was expected.

Apples—From an exhaustive investigation made by the North Pacific Fruit Distributors' Association, the indications are that this crop will be somewhat lighter than last year, which was abnormally heavy. Other fruits are reported as doing well and the yield is expected to be about normal.

Walla Walla District—Conditions for both fruit and grain crops in this territory could not be better. The loss, caused by the high winds last week, was not serious. There was more of a scare than a reality. This is great weather for the harvest, which is reported to be progressing in good present conditions. The potatoes and onions are now moving East from this territory.

Yakima Division—The weather is ideal for the growing of all crops. Fall barley and wheat are in good condition, and are being harvested in the Tamany and Lapwal districts and in the vicinity of Lewiston. Spring wheat and barley are also looking splendid.

Timothy hay is being cut and will commence to ship at once. There will be very little cut this year near the railroad. Fruit and vegetables along the Lewiston and Snake River valley are in good condition and are being shipped rapidly.

Yakima Division—The second cutting of alfalfa is progressing rapidly, and no damage has resulted from rain. Fruit shipments are slow. We have had out these cars the week, mostly mixed. Heavy movement will commence about August 1st.

Harvesting of grain in the vicinity of Kennewick is progressing rapidly. The crop is light, but the quality is exceptionally good.

The heavy wind two weeks ago is having its effect now on the hop yards. The vines were whipped badly, which is going to affect the yield. It is going to be about 22,000 bale crop for the entire valley. No vermin has put in an appearance in the yards as yet.

Oregon Division—No damage reported to grain on account of heat. According to advices received, there is not now any danger of hot winds affecting the grain, as it is well filled. Harvesting is in full swing and the yield is better than expected, and in many sections as high as 32 bushels per acre for fall grain will probably be very good.

Apples and prunes will be the next fruit on the market and they are reported in fine condition. The yield of peaches, apricots and prunes is 100 carloads. The yield of peaches is 100 carloads. The yield of apricots and prunes is 100 carloads.

East of Pendleton (Baker)—Grain is ripening and the yield is favorably affected. The recent good weather has aided materially in the ripening of the grain throughout the valley.

Grain—Fall-sown grain is ripening and filling in nicely and growers expect an average of about 33 bushels per acre. Spring grain is also doing well. Spring grain is also doing well.

WHEAT IS NOT PRESSED FOR SALE
Operations in Country Still on Moderate
Scale, but Demand is Good.

Natural quiet conditions still prevail in the interior wheat markets. Demand has assumed fair volume, but with harvest under way, or about to begin, there is not much to be done in the selling side. Buyers quoted on the basis of 70¢ to 80¢ for club, most of them considering the lower figure to represent full value at the present time.

Local receipts in cars, were reported by the Merchants' Exchange as follows:
Monday—Wheat Flour Flour Oats Hay
Tuesday—Wheat Flour Flour Oats Hay
Wednesday—Wheat Flour Flour Oats Hay
Thursday—Wheat Flour Flour Oats Hay
Friday—Wheat Flour Flour Oats Hay
Saturday—Wheat Flour Flour Oats Hay
Sunday—Wheat Flour Flour Oats Hay

COPPERS DEMAND
Active Features of Strong
Stock Market.

AMALGAMATED UP 2 POINTS

Day's Operations Are at Expense of
Shorts—London Buying is on
Liberal Scale—Bonds
Are Steady.

NEW YORK, July 28.—The improvement in stocks, which signaled last week's operations, continued today, but in diminished volume. Such leaders as Amalgamated Copper, United States Steel, Union Pacific and Reading all rose to a higher level. Trading, however, was of the same professional nature. Houses with London connections were prominent on the buying side of copper.

Today's early activity, which gave way to extreme dullness later, was largely at the expense of the short interest, which was driven to retirement of commitments. Activity in copper, steel and Union Pacific, Amalgamated was strongest of active issues. Its two-point rise coinciding with another advance in the metal to a fraction over 15 points. Steel's strength was ascribed to expectations of a favorable statement tomorrow.

In the railway division, which was generally stimulated by the action of the Eastern railway managers in withdrawing their grievances with the trainmen, the Southern western group developing sudden activity, with gains of one to three points. The Erie issues added to last Saturday's gains. Canadian Pacific, "Soo," Reading and the Erie also were well to the fore.

Advances elsewhere included American Express, Harvester and the petroleum shares, the latter assisted by reports of an increase in the price of that commodity. The final hour saw numerous recessions. London exercised some influence, buying about 11,000 shares, mainly Amalgamated and Erie.

The Bank of England acquired most of the month's African gold deliveries, and the market, Paris is strong and Berlin firm. The local bond market was steady, but not active. Total sales, par value, aggregated \$1,614,000.

DAY'S ARRIVALS ENORMOUS

Deliveries at Terminal Cities Are
Over 3,000,000 Bushels—Weak
Cables and Large Visible In-
crease Add to Depression.

CHICAGO, July 28.—Huge primary receipts acted as a burden today on wheat. The market closed nervous, 2 1/2¢ to 3¢ down. Corn showed a net gain of 3¢ to 4¢, with oats varying from 1/2¢ decline to 1/4¢ advance. The outcome for provisions ranged from 2 1/2¢ off to an upturn of 10¢.

Arrivals of wheat today at the chief terminal cities reached the extraordinary total of 3,115,000 bushels, as against 2,287,000 bushels at the corresponding time a year ago. The visible supply, too, increased to an unexpected extent. Simultaneously, the price of the year's crop to arrive here from the Northwest and the West was word that Minneapolis had today received the first car from the new spring crop.

Weak cables gave the wheat market a downward impulse at the outset. Fine mercantile establishments, set for more and buyers proved more wary throughout, with the December option lower. Many districts of the year from Illinois and a few from Iowa reported the crop to be firing. Damage advice from Nebraska was worse, and Kansas estimates pointed to the smallest yield there since 1907.

Options closed early, but later succumbed to the influence of the weakness in wheat. Active options in provisions held about steady, but a decline in the price of the year's crop was offset by the bullishness of corn.

WAGE MEETING POSTPONED
Conference on Factory Conditions to
Be Resumed Tonight.

Because of the absence from the city of Amedee M. Smith, who was to have sat as chairman at the hearing, the conference in the rooms of the Industrial Welfare Commission was postponed.

THE PERSONAL OPINION
OF AN ELDERLY WOMAN

Among the Seattle ladies who have tried Plant Juice and found it good is Mrs. A. N. Pettigrew, who resides at 116 Twenty-ninth avenue. She says: "I have only used one bottle of Plant Juice, and it surely has helped me. Of course, at 78 I do not expect to be made young again, but I felt as though there was something somewhere, which could find it, that would relieve me of my stomach and liver troubles. My liver has been very uncomfortable for a good many years. Last Fall I had a severe attack of biliousness and have not felt well all Winter. Plant Juice has helped me from the very first dose, and I think it is just what I needed."

Plant Juice is a vegetable remedy that has proven a great benefit to elderly and aged as well as the younger generation. As a general tonic, vitamin and vigorator it is without an equal. It tones up both mind and body and gives energy and strength. Those who suffer from poor circulation, impoverished blood, low vitality, indigestion, gas, bloating, headache, dizzy spells, a feeling of faintness or weakness, hot flashes, nervousness, and all the ailments that attend old age, will find quick relief in the use of Plant Juice. For sale at the Owl Drug Company's store, 124 Third Street.

Omaha Livestock Market.
SOUTH OMAHA, Neb., July 28.—Cattle—market steady; Native steers, \$7.50 to \$9.00; cows and heifers, \$5.50 to \$7.00; Western steers, \$8.25 to \$9.50; Texas steers, \$7.50 to \$9.00; cows and heifers, \$5.50 to \$7.00; sheep, \$4.00 to \$5.00; hogs, \$4.00 to \$5.00; pigs, \$4.00 to \$5.00; lambs, \$4.00 to \$5.00.

Chicago Livestock Market.
CHICAGO, July 28.—Cattle—Receipts, 10,000; market steady; Native steers, \$7.50 to \$9.00; cows and heifers, \$5.50 to \$7.00; Western steers, \$8.25 to \$9.50; Texas steers, \$7.50 to \$9.00; cows and heifers, \$5.50 to \$7.00; sheep, \$4.00 to \$5.00; hogs, \$4.00 to \$5.00; pigs, \$4.00 to \$5.00; lambs, \$4.00 to \$5.00.

WAGE MEETING POSTPONED
Conference on Factory Conditions to
Be Resumed Tonight.

Because of the absence from the city of Amedee M. Smith, who was to have sat as chairman at the hearing, the conference in the rooms of the Industrial Welfare Commission was postponed.

THE PERSONAL OPINION
OF AN ELDERLY WOMAN

Among the Seattle ladies who have tried Plant Juice and found it good is Mrs. A. N. Pettigrew, who resides at 116 Twenty-ninth avenue. She says: "I have only used one bottle of Plant Juice, and it surely has helped me. Of course, at 78 I do not expect to be made young again, but I felt as though there was something somewhere, which could find it, that would relieve me of my stomach and liver troubles. My liver has been very uncomfortable for a good many years. Last Fall I had a severe attack of biliousness and have not felt well all Winter. Plant Juice has helped me from the very first dose, and I think it is just what I needed."
