IDAHO CAPITAL MAY

Oregon Short Line Considering Portland. Plans for Building Into Boise, Now on Stub.

PRESIDENT MOHLER HERE

Announced Intention of Western Pacific to Build Southern Idaho Feeder Regarded as Spur to Harriman Officials.

To place Boise, Idaho, on the main line of the Oregon Short Line, thereby giving that city better service over the Harriman system and forestall the effect of the proposed Western Pacific invasion of the same territory, is the plan now being considered by A. L. Mohler, president of the Union Pacific and Oregon Short Line, who will ar-

rive in Portland this morning.

Mr. Mohler is accompanied by Gerrit
Fort, passenger traffle manager of the some roads, who, while here, will con-fer with local O.-W. R. & N. officials on the new train service and schedule changes that become effective next

It is understood that Mr. Mohler will return home through Boise, stopping there to study the plans for the change of line which he has in mind. Conference Is Held.

While in San Francisco last week Mr. Mohler conferred with William Sproule, president of the Southern Pa-cific, on the proposal to build a joint line from a point in Nevada near Winnemucca to Boise, but on account of the forced segregation of the Harriman system it is doubtful whether such a partnership arrangement will be con-sidered advisable.

The Western Pacific has announced its intention of building north from Winnemucca to Boise and under the leadership of B. F. Bush, the new president of that system, it is probable this work will be started soon.

Now the Harriman system is confronted with the danger of this Gould

fronted with the danger of this Gould opposition. Boise people are eager for another rail line and it is reasonably certain that they will throw generous support to the first new line that invades their territory.

Boise Chafes at Service One of the chief causes of Boise's complaint against the present Oregon Short Line is that the city is off of the main line. Boise is about 20 miles from Nampa, which is the main line connection. All through trains connect at Nampa with the Boise stub trains.

The new train and service schedule.

The new train and service schedule on the O.-W. R. & N., Oregon Short Line and Union Pacific becomes effective next Sunday. According to this plan a new fast train from Portland to Chicago will leave here at 6:40 P. M. daily, carrying both mail and passengers. It will take the place of No. 6, the present passenger thin leaving at 8 o'clock, and of No. 10, the present mail train leaving at 6 o'clock. It will operate as No. 6, however.

An additional train will run from Portland to Salt Lake City Leaving

An additional train will run from Portland to Salt Lake City, leaving hers each morning at 12:30. It will carry local passengers and sleepers for Baker, Boise, Yellowstone Park and Denver & Rio Grande connections.

RIVER FRONT IN BAD SHAPE state's interior.

Following an inspection of the water front in South Portland, City Health now being built across the state from Officer Marcellus yesterday ordered an Immediate cleanup in the district along to a point near Riverside, 80 miles the West Side known as "scow town." west of Vale, to which point construction work has been authorized. Satisfactory progress is being made on the ground, where 50 children were busy. Officer Marcellus yesterday ordered an immediate cleanup in the district along the West Side known as "scow town." It is said that rubbish and filth are so bad that rubbish and filth are so bad that with lack of sewers in the district the health of residents in that vicinity is in danger. It is probable that a tract, which was under water recently and which is now occupied by a number of small boathouses and shacks, will be ordered vacated.

An inspection will be made Saturday of the bathing places in the river. Reports have reached the health department that some of the public baths are too close to the Sellwood and Brooklyn sewers.

Vale. The grading has been completed to a point near Riverside, 80 miles to work.

Eventually this line will be pushed work.

WYOMING EDUCATOR HERE

Dr. C. A. Duniway Favors Single Management for State Schools.

Dr. C. A. Duniway, a son of Mrs. A. S. Duniway, of Portland and president of the University of Wyoming, is visiting relatives in this city and will go to California soon for a short visit. He is enthusiastic over the prospects for his university in the coming year and predicts great increase, both in attendance and equipment. In the last ten years there has been a growth of

trendance and equipment. In the last ten years there has been a growth of 54 per cent in the enrollment.

"I do not believe that competition among schools of a state is a good thing," he says "I believe that the state university, agricultural college, engineering college and normal schools should be conducted under one head."

Pince Nez Lost by Mayor in Bull Run PARTY CLIMBS ST. HELENS Recovered by Workmen.

A pair of eye-glasses which were lost by Mayor Albee last Friday in the swift current and rocks of Bull Run River were yesterday returned to him at the City Hali undamaged. They were re-covered by workmen at the headworks in Bull Run Canyon.

The Mayor in inspecting the head-works on Friday stepped out on a plank over the stream. He went to brush off a mosquito and struck his glasses, knocking them into the water. They disappeared in the rocks, and the Mayor gave them up as lost. He was greatly surprised when they were returned neatly done up in tissue paper.

Mr. Wyman passed two weeks at the reports that the youngsters are turned neatly done up in tissue paper.

Mr. Wyman leaving a fine time. Six came back with Mr. Wyman, leaving a fine time.

Mayor and Commissioners Inspect Grounds at St. David's Episcopal Church and Indorse Movement for Children.

PLAYGROUNDS RESOLUTION IS ADOPTED.

Resolved. That this meeting goes on record as favoring installation playgrounds in every part of Port-land so that they will be accessible to every child; that they should not that the city and school district should co-operate in installing such playgrounds; that we commend Rev. H. R. Talbott, rector, and St. David's Episcopal Church for maintaining a playground in Central East Port-

Mayor Albee, Commissioner Daly, Bigelow and Brewster, representing the Bigelow and Brewster, representing the administration, and Robert Krohn, representing the school district, were guests at a luncheon of the East Side Business Men's Club yesterday, given in St. David's Church parish house, East Twelfth and East Morrison streets, by Bay H B. Talbott and the women of Rev. H. R. Taibott and the women of St. David's church. "The Supervised Playground, and Its Power for Good" was discussed. M. B. McFaul was chair-

Mayor Albee, who made the opening talk, said that the policy of the present administration was to favor installation of playgrounds on the theory that by doing so the children are made bet-ter citizens. The Mayor pledged his support to the movement.

Moral Ald Cited. Robert Krohn, physical director of the Portland public schools, told what Portland has in the way of playgrounds, and declared that these playerounds are doing more for the moral and physical development of the children

physical development of the children than all other influences combined. "We have 14 supervised playgrounds," said Professor Krohn, "and they are well equipped, but we should have at least 30 supervised playgrounds where children can get to them. In Central East Portland there is no playground between Brooklyn and Holladay Park, the Willamette and Laurelhurst, except the one maintained by St. David's Church."

the city might lease vacant tracts, where they cannot be bought, and playgrounds equipped, but said that such an arrangement could only be tempo-rary, and he would not recommend that permanent improvements be made on such tracts. Commissioner Brewster said that he favored the full development of the parks the city owns.

Daly Gives Views. Commissioner Daly indorsed the play-ground campaign, and he declared that if the last bond issue had been specifion his recent tour of Central Oregon, cally for playgrounds he believed the returned to Portland yesterday morn-

Mr. Wyman passed two weeks at the DYNAMITE IS THIEF'S LOOT

County Tools Stolen. Fifteen sticks of dynamite were stolen from the Linnton rock quarry Sunday night, it was discovered by Superintendent A. G. Rose yesterday. The powder-house, where the dynamite is stored, is situated some 600 yards up the canyon from the jall, and in going to it workmen discovered that the lock had been twisted off with a crowbar. Investigation revealed the theft, but no trace of the thief or thieves. no trace of the thief or thieves.

A tool chest belonging to the county, at East Eighty-second street and Sandy boulevard, was broken into about the same time, a monkey wrench, a hammer, a pole-ax and a pair of pliers being taken away, in addition to an
