

TELEGRAPHERS IN IMPATIENT MOOD

What They Term Dilatory Tactics of Railroad Discussed at Meeting.

FEDERATION MAY BE JOINED

Southern Pacific Officials Believe Possibility of Key Men Walking Out With Trainmen Remotely Because of Order's Rules.

SAN FRANCISCO, Aug. 4.—(Special.)

The strike situation, so far as it affects the Southern Pacific and the Order of Railroad Telegraphers, took a decided turn today when the general committee of the telegraphers, which has been in session here for some time, decided to adjourn Friday to Los Angeles, where a big meeting of division 53 of the order will be held on Saturday.

At this meeting will be discussed what the telegraphers term the dilatory tactics of the railroad in the negotiations over the schedule of wages first considered by the men and the company on April 21. The men will also consider the advisability of joining the Federation of Labor.

The telegraphers are the first of the "big five" in railroad organizations to discuss joining the federation and if the move is made, it will be an important one in labor circles. John E. Cowgill, general chairman of the committee, and E. J. Manion, vice-president of the order, will accompany the committee to Los Angeles, where it is expected 150 delegates will meet.

The general committees of the conductors, trainmen and engineers and firemen held separate meetings today, but had nothing to report. They will continue to hold daily meetings until the mediators arrive from Washington, but do not believe any developments will arise which will lead to a decision action before that time. The telegraphers will continue to meet with the road and as an individual committee until the temporary adjournment to Los Angeles Friday.

The three general superintendents of the Pacific system of the Southern Pacific Company, H. V. Platt, of Los Angeles, D. W. Campbell, of Portland, and J. M. Davis, of San Francisco, conferred today in the hotel building with a committee representing the Order of Railway Telegraphers. The company believes that because of certain requirements of the order, the possibility of the telegraphers walking out with the trainmen is remote enough to be impossible.

SUNSTROKE PROVES FATAL

Workman Helping to Build Church Does Not Rally After Stroke.

BAKER, Or., Aug. 4.—(Special.)

From the effects of sunstroke received while he was aiding in the erection of the Christian Church here, August Henley died yesterday at the residence of his wife. The church had an old-fashioned "raising" a month ago and Henley was one of the most ardent workers until overcome. He was unconscious two hours and had never fully recovered until heart disease took him off. He was 68 years old and came here seven years ago with his wife and daughter, Mrs. F. D. Nitz, with whom he had lived 15 years. He was a pioneer of Colorado, arriving there from Sweet Springs, Mo., before the advent of the railroad.

The funeral will be held from the which undertaking parlors at 10 o'clock tomorrow and burial will be in Mount Hope cemetery.

BRYAN FUND IS STARTED

Texas Democrats Would Have Secretary Abandon Lecture Tour.

AUSTIN, Tex., Aug. 4.—(Special.)

It is planned by the Democrats of Texas to raise a large fund by popular subscription for the lecture tour of Secretary of State W. J. Bryan. The money will be paid over to him on the contingency that he agrees to abandon the lecture platform and devote his entire time to the State Department. The movement was started a few days ago in Orange, Tex., and the Democrats in that town have already pledged \$1000 to the fund.

Subscriptions will be taken in other towns and John McKinney, chief promoter of the movement, says he is confident \$50,000, or whatever sum Mr. Bryan may need as a supplement to his salary, can easily be raised in Texas.

CITY GARAGE APPROVED

COMMISSION MAY LEASE FOUR-STORY BUILDING. Structure on East Side Later May Be Purchased and House Municipal Shops.

PORTLAND'S FIRST MUNICIPAL GARAGE WILL BE A REALITY SOON.

An informal meeting yesterday the City Commission approved the plan recommended by Purchasing Agent Wood to acquire a central garage, where all automobiles and motor vehicles owned by the city, except those used by police and fire departments, shall be kept. The first municipal garage will be the four-story brick building at East First and Madison street, owned by S. L. Brown, if Mr. Brown will agree to a lease, which changes protecting the city's rights more thoroughly in the terms of the lease. The Commission decided to lease the entire building for one year at \$200 a month, with the privilege of renewing for two years at the same rate or of purchasing the property for \$25,000.

The city, by the lease terms, would also have to pay taxes, amounting to about \$25 a month. This led Commissioner Brewster to remark that he intended to bring action in court to see if there is any legal means by which this county could remit taxes on property owned by the city. The city owns approximately 70 automobiles and motorcycles. Some of the buildings in the city are being leased out by the city for a time until various municipal repair shops are located there.

MAYOR DISPLEASED WITH BOAT'S WORK

David Campbell Throws Water 22 Minutes After Alarm Is Sounded.

TEST COMES AS SURPRISE

Something Must Be Done, Says Albee, to Protect Waterfront From Conflagration—More Men Added to Crew.

In a test which the fireboat David Campbell was put yesterday afternoon by Mayor Albee it made a showing as miserable as on the day of the Harrison bridge fire, when its inefficiency caused much harsh comment. Just 22 minutes after being called out by a special alarm yesterday, the David Campbell was able to throw a stream of water. The Mayor took the time with his own watch. So far as being a fire fighter was concerned the Campbell might as well have been a rowboat during the 22 minutes it took to "warm up" the pumps. Had the boat itself been afire, the crew would have had to form a bucket brigade to quench the blaze. "It wasn't the fault of the crew," said Mayor Albee last night. "They worked like Trojans. It was not the fault of the engineers, and it was not because steam was too low, apparently. The boat got away from its dock in 58 seconds after the alarm was turned in."

"I don't know what can be done to remedy this slow action, but I do know that something must be done. I think it can be remedied. But we cannot afford to have a fireboat that won't work until 22 minutes after it starts to fire."

Mayor Albee said that one or two additional men would be put aboard the Campbell at once, as it seemed to be somewhat short-handed. At least one additional officer will be added to the engine-room crew.

Since the Campbell was put in commission a little more than a month ago, the old fireboat, the George H. Williams, which was badly in need of repairs, had been out of commission and her crew transferred to the fire fighter. The pumps of the Williams did not operate on the vacuum principle. In her official tests, the David Campbell acquitted herself well.

GARRISON TO VISIT POST

WAR SECRETARY TO INSPECT FORT WORDEN TODAY.

TACOMA COMMERCIAL CLUB IS HOST;

Major-General Wood Urges Larger Militia.

SEATTLE, Wash., Aug. 4.—Secretary of War Garrison, accompanied by General Leonard Wood and party, arrived from Tacoma by steamer late tonight and transferred at once to another steamer for Fort Worden, near Port Townsend.

The Secretary will pass tomorrow inspecting the reserves on the Lower Sound, returning to Seattle tomorrow night. Tonight's banquet in the Commercial Club and Chamber of Commerce tonight. Secretary of War Lindley M. Garrison and Major-General Leonard A. Wood made addresses urging the building up of the National Army. General Wood declaring there should be nine regiments in the State of Washington, instead of one.

"You ought to institute rifle practice in the public schools," said General Wood. "Employers should give preference to men who belong to the Guard."

Secretary Garrison declared there was a great deal of confusion in the popular mind regarding the preparedness of the country for war. "A strong National Guard, a reserve system and a volunteer law are necessary," he said, "if the United States is to hold to its cherished policy of a small standing army."

Tonight's banquet followed a day's inspection of three sites for an Army post near Tacoma. One stop was made at the Nisqually Indian Reservation, where the Government owns 6000 acres of land, another near the station of Murray and a third near old Port Steilacoom. Secretary Garrison would make no announcement as to the President's choice. The party left at 9 o'clock for Seattle.

AID FOR FARMERS SOUGHT

Kansas Senator Asks State to Assist Sufferers From Drought.

TOPEKA, Kan., Aug. 4.—State Senator Harry McMillan, of Ottawa County, today urged the state officials to call a special session of the Legislature to give state aid to the farmers of Western Kansas, whose crops have suffered severely from the long period of hot, dry weather.

He said \$100,000 should be appropriated for the farmers and he believed that the members of the Legislature would come to Topeka for a five-day session without expense to the state.

Why Hop Gold Is Still the Favorite

Many are the families who have used Hop Gold Beer for 15 years or more. —And there's no use trying to get them to substitute any other beer for this best of all brews.

The Reason? Q-U-A-L-I-T-Y

Hop Gold Beer is brewed to please the particular palate. It's so thoroughly aged that it never causes biliousness—in fact, when you hear a man tell you that beer makes him bilious, it's likely he never even tried
