DOG ORDER ISSUED

Quarantine Effective in Seven Counties for Six Months.

CATTLE TEST IS REQUIRED

State Livestock Commission Holds All-Day Session and Provides Also for an Examination of Horses Shipped Into State.

At its first meeting following organization of the State Sanitary Livestock Commission, created by act of the last Legislature, in all-day session in the office of State Board and Dairy Commissioner Mickle in the Worcester building yesterday established a dog quarantine in seven counties in Oregon, the quarantine to last for six months dating from today.

The counties are: Multnomah, Clackamas, Washington, Marion, Yamhill, Polk and Columbia, and the members decided that as drastic a penalty as possible should be inflicted on all owners of dogs who fail to comply with the terms of the quarantine. The Board orders that all dogs in the counties named either shall be muzzled or kept in a kennel until the 15th of August.

This was the first official action of the new State Board and was taken upon representation that, although cases of rabies and suspected rabies are on the decrease in Portland and vicinity, there are scores of them throughout the state, and forceful means will be taken to prevent further infection.

All Members Attend. Present at the meeting were all the members of the Commission: Dr. Charles Cleveland, of Gresham, president; Dr. W. H. Lytle, of Tillamook, veterinarian, secretary; Dr. Calvin S. White, of Portland, State Health Officer; Dr. H. K. Kuster, of Tillamook; Frank Brown, of Carlton; Herbert Bowen, of Pilot Rock, and Frank Lynn, of Perrydale. All are appointees of Governor West.

Regulations were decided upon providing for the cleaning and disinfecting of all railroad and electric cars and street cars, and that all animals are shipped into Oregon for purposes other than range and immediate slaughter. This means all animals intended for feeding and breeding.

The Commission ordered that all cattle in Oregon which react to the tuberculin test must be branded with the letter "T" on the right jaw.

Hog Feed Regulated. Hereafter all restaurants, hotels and other establishments which sell garbage and other matter to be used in feeding hogs must see that the garbage is thoroughly cooked. This is regarded as a particularly important regulation in the direction of better sanitary conditions among live hogs.

Horses also occupied the attention of the meeting. They ordered that all horses shipped into the state except for purposes of breeding, racing and exhibition shall be subjected to the mallein test for glanders. Horses affected with glanders will be barred from the market, and all owners of infected animals will be liable to a fine of \$100.

According to another edict, milk from cows which have reacted to the tuberculin test must be sterilized and pasteurized before being sold. Milk to be labeled showing its origin. It is expected the effect of this will be that milk from tuberculous cows will be put on the market, and all unbranded animals will be liable to a fine of \$100.

The next meeting of the Board will be held at Pendleton, but the date has not been fixed. The law creating the body provides for four meetings each year.

ABATEMENT LAW TESTED

State Brings Suit to Close Lodging-House in Tacoma.

TACOMA, Wash., Aug. 8.—(Special.)—The first prosecution under the new red light abatement law, enacted by the last Legislature, was begun today by Deputy County Attorney William Anderson against the Tacoma Lodging House at 1815 1/2 Opera alley.

The defendants are cited to appear in court August 16 and to show cause why their property should not be permanently enjoined for a period of six months as prescribed by the law.

The law provides that if the impounding warrants, the court may issue an injunction for a period of six months restraining the owners of the building from making any use of it in any manner. An assessment of \$300 may also be levied against the building. Other suits will be brought if the state wins this case.

Military men have protested against the use of the word "cadet" in relation to the white slave traffic, and Miss Jane Adams has urged an end to its use in this offensive sense.

Wonderful Blood Remedy

Brings Health to a Host of Sufferers.

The remarkable action of this remedy on the blood is given impetus by a letter received from Earl C. Cook, 708 South Center St., Bloomington, Ill. He says: "I suffered several months and took treatment here, but obtained relief only for a few days at a time. Becoming doubtful of results, I quit the doctor, and there was marked improvement from the start. I used thirteen bottles of S. S. S. and was entirely cured. My blood was in a dreadful condition, and I can not thank S. S. S. enough for my wonderful recovery."

This preparation stands alone among blood purifiers as a blood purifier, since it accomplishes all that was ever claimed for mercury, iodides, arsenic and other destructive mineral drugs, and yet it is absolutely a purely vegetable product. These facts are brought out in a highly interesting book compiled by the medical department of The S. S. S. Co., 122 Swift Bldg., Atlanta, Ga. It is mailed free, together with a special letter of advice to all who are struggling with a blood disease.

Get a bottle of S. S. S. to-day of your druggist. It will surprise you with its wonderful action in the blood.

PARKER'S HAIR BALM

Keeps the hair clean, cool, and healthy. Promotes a luxuriant growth. Removes dandruff. Cleanses the scalp. Restores the natural color. Sells at 25c per bottle.

WOMAN SICK FOURTEEN YEARS

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Elkhart, Ind.—"I suffered for fourteen years from organic inflammation, female weakness, pain and irregularities. The pains in my sides were increased by walking or standing on my feet and I had such awful bearing down feelings, was depressed in spirits and became thin and pale with dull, heavy eyes. I had six doctors, but received only temporary relief. I decided to give Lydia E. Pinkham's Vegetable Compound a fair trial and also the Sensitive Wash. I have now used the remedies for four months and cannot express my thanks for what they have done for me.

"If these lines will be of any benefit you have my permission to publish them."—Mrs. SADIE WILLIAMS, 455 James Street, Elkhart, Indiana.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and to-day holds the record of being the most successful remedy for female ills we know of, and thousands of voluntary testimonials on file in the Pinkham laboratory at Lynn, Mass., seem to prove this fact.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

WHY RESINOL SOAP KEEPS COMPLEXIONS CLEAR AND HEALTHY

When you wash your face do you realize that it is not enough to remove the dirt from your skin...

Ordinary toilet soaps do not assert this influence. Many of them contain free alkali which tends to dry the skin and destroy its delicate texture.

Resinol Soap, besides being an absolutely pure toilet soap, contains the same soothing, healing, antiseptic and germicidal action of Resinol Ointment, the value of which in the treatment of skin affections is known throughout the medical profession.

That is why Resinol Soap does for the skin what cosmetics are supposed to do—it insures not only a clean skin, but a healthy skin, and a fair complexion. Resinol Soap and Resinol Ointment are sold by all druggists. Trial free; Dept. 4-R, Resinol, Baltimore, Md.

Quality Plus Reputation

Mr. Retailer owns a store in this town. Mr. Manufacturer makes things in some other town.

Mr. Retailer has a reputation for square dealing that can not be questioned. Years of contact with his own customers have won "in their confidence and patronage."

Mr. Manufacturer has a similar reputation among retailers (his customers) all over the United States. He has invited to write in order in the things he makes.

What happens when Mr. Manufacturer sells his product to Mr. Retailer? He writes to Mr. Retailer articles that represent the best-known quality possible in the produce. I think so well of them that I want a retailer of your standing to help distribute them. And I'm going to help you tell about them. How shall we proceed?

Mr. Retailer, knowing the power of newspaper advertising and the confidence his customers place in it, recommends it.

That is why you see Mr. Manufacturer's name in the yellow pages of this newspaper and you in this newspaper to go to Mr. Retailer to buy his merchandise.

Retailers and manufacturers with advertising problems on the Pacific Coast are invited to write to the Bureau of Advertising, American Newspaper Publishers' Association, World Building, New York.

VETERAN OF LATE WAR GIVES AN INTERVIEW

Soldier of the Philippines Tells in Few Words What He Thinks of Plant Juice.

The following interview with Mr. F. H. Greenia, who lives at 313 Fourteenth Street, in this city, will be of interest to many. Mr. Greenia saw service in the Philippine Islands in the Spanish-American War as a soldier in both the Volunteer and Regular Army, and was later a Lieutenant in the Philippine Constabulary. Our soldiers suffered greatly from the climatic conditions on the islands, many of them being entirely broken down in health. Mr. Greenia said:

"After spending nearly nine years in the Philippines, I returned to God's country a physical and almost a mental wreck as a result of malarial fever, phthisis and habitual constipation contracted while in the Government service. I have been taking Plant Juice some time now, and it has cured my constipation, and has given strength to my system and seems to have enriched and strengthened my blood. I feel sure a few more bottles will rid me entirely of the little rheumatism left. Plant Juice has toned up my entire system until I feel like a different person."

If you suffer from indigestion, gas, bloating, a feeling of weight after eating, no appetite, sour stomach, constipation, malaria, impoverished blood, pains across the back or in the joints, if you sleep poorly and wake tired in the morning, or if you are nervous of the muscles, you will find that Plant Juice will do you more good than anything you have ever tried. For sale at The Owl Drug Company's Store.
