BUYERS BEAR PRICE

Oriental Situation Is Clearing and if Terms Could Be Agreed Upon. Orders of Good Volume 4 Might Be Booked.

If flour buyers and sellers could get toeither on prices, a good volume of trade with the Orient could be worked up. There a spread of 10 to 20 cents, however, in

with the Orient could be worked up. There is a spread of 10 to 20 cents, however, in the ideas of millers and purchasers for Far Eastern account, and neither side seems willing to make concessions yet. Indications point to an early demand of considerable proportions from the Orient, but up to the present time this demand is not of a character pressing enough to cause the buyers to advance their bids.

Affairs in South China appear to be clearling, as private cables received resterday were to the effect that the government is in control of the situation. It is taken for granted that the sol of the revolutionary troubles is not far off, and with this question settled and silver rising, orders from that quarter are looked for soon. Japanese buyers have already placed a few small orders, but are not inclined to operate actively at current rates.

Shippers are hoping for a further reduction of 50 cents in trans-Pacific freights. It is pointed out that \$0,000 tons of steamer space is available for all North Coast points, including Vancouver, B. C. in September, and the lines cannot possibly fill this at the rates announced. The lines, however, have given no intimation that they will make another cut.

New hay is beginning to come in freely and the market is easier. Prices are materially lower than a few weeks ago, when there was a scarcity in the market. Receipts of hay yesterday were 22 cars and for the week to date 41 cars have arrived.

Lill in Hop Trading.
Anide from an offer of 2015 cents for an Independence crop, there were no new developments in the hop market yesterday. The demand, on the whole, was small, and no contracts were signed up.

The weather in England was cloudy, according to the press cable. A private cable from Loudon said: "Weather unfavorable, Market aready and firm. Crop prospects unchanged."

All grades of refined sugar were advanced to cents a hundred yesterday. This change had been expected for several days, owing to the strength displayed by the Eastern market.

DROUTH AND HEAT GAUSE

Wheat Values Sag on Well-Grounded Fears of Bearish Government Estimate and Outs Are Likewise Affected.

CHICAGO, Aug. 8.—Government figures oday en crop losses in corn proved to be nuch more builtsh than expected. The rehowever, came too late to affect prices, the market closing easy at a net advance of \$6 %c to 12c. Latest trading left wheat ice to %c down, oats unchanged to ice higher and provisions off 24 65c to

Quessers on the Washington estimate as to the yield of corn had but the production 22,000,000 bushels too high. Advanced prices 52.000,000 bushels too high. Advanced prices today were not based so much on what the Government report would show, but on the continued drouth in Kanssa, Missouri, Iowa and Nebraska and the excessive heat in the two first-named states. The advance carried September to a new high level for the season, 72%c.

Because of bearish official figures expected after the close, the wheat crowd feared to follow the bull turn in corn. The dread was well grounded, for the Washington report on wheat verified advance estimates here.

nere. Outs displayed sympathy with the corn bulge. As in wheat, however, solicitude regarding hearts news from Washington served to check any decided upturn. Realtring sales weakened the provision market. Headers were taking advantage of support, due to strength of corn and hogs. The leading futures rapged as follows:

HOG MARKET UNCERTAIN

KILLERS HOPE TO BUY AT LOW-ER RANGE OF PRICES.

Need Swine Now, but Are Playing Waiting Game-Transactions at Yards Are Small.

ceived at the yards at North Portland yea-terday. A load of hogs was put on sale and this was the only business done. The bogs were sold at the previous day's prices. Commenting on the hog trage, the Livestock Reporter says:

"The hog market is a puzzler at the present time and nobody is boid enough to say what the exact trend is. Judging from the reluctance with which buyers bid for swine supplies, their game is a waiting one. Disastrous drouth in the Middie West has caused a flood of begs and cattle to all the great Missouri River markets and priess have sagged from 50c to 51 there in tendays. The reverse is true in the Northwest, where the Hudication has fallen off to a minimum, compared with June and July receipts. Killers hope to key in a pork supply at lower prices if peasible, but whether they can force the market much lower is a problem for the near future to solye."

The atrivals yesterday were 25 cattle, shipped by A. F. Hunt, of Caldwell, Idaho, and 92 hogs, from Nagel, Bres., of Pasco. The day's saiez were as follows:
