NEWSBOY TYPHOID VICTIM

NO SIRREE, THEY'RE NOT ALL PLAYERS

Best Place in Town to Buy Any Fine Piano Is Here, but Don't Fail to See These Bankers' Player Pianos.

If it's a choicest Chickering or Sohmer or Kimball baby grand, or a fine upright or even an old-style piano for \$45 or \$55, Ellers Music House is the place to buy. No matter what may be offered elsewhere, depend upon it, the old reliable piano-house can do better than can any other concern in the city. We make a specialty of pianos, and more liberal treatment, say nothing of absolute guarantee and utmost dependability in every transaction, large or small, than we give elsewhere.

Just now it is possible to buy for only \$355 the very latest player pianos for which ordinarily more than double this price would be asked, and for as little as \$319 we are in position to supply now guaranteed right-up-to-the-minute latest player pianos, which under ordinary circumstances would not be obtainable for less than \$475. Every instrument contained in two big cartons, just received by Ellers Music House in its own price.

Arrangements were recently consummated whereby Ellers Music House secured at its own price and on credit of the very finest and internationally renowned player pianos, which belonged to bankers who had advanced a lot of money on them. These are the very finest player pianos, made by one of the most renowned institutions. The bankers' representative finally came to an agreement with Ellers Music House, and finally accepted the offer made by the management of Ellers Music House whereby the entire two cartloads came to us at our own price.

These player pianos are positively the very finest to be had, regardless of price. Each instrument is a model of perfection. Each will appeal to one of the best posted player pianists. Negligence to say that most extraordinary concessions were made in order to dispose of these costly pianos. Now Ellers Music House offers these instruments for sale. They are to be sold at a lower price than these or similar fine new player pianos will ever again be obtainable. But terms are cash; no payments.

The high standing, the untarnished reputation of these superb player pianos would be severely injured if the actual sale prices were published. But Ellers Music House stakes its reputation upon this statement, that these instruments are now offered for sale for less than any dealer in the country has ever heretofore bought new player pianos of such worth at wholesale from the factories direct.

These prices at which we are disposing of these player pianos are so low, and so low, very low indeed, if placed on ordinary pianos. Ellers Music House is the place to buy any fine piano. We have a large stock of pianos on hand, and we are constantly receiving new arrivals. We have a large stock of pianos on hand, and we are constantly receiving new arrivals. ASTORIA, Or., Aug. 27.—(Special.)—While the past fishing season on the Columbia River was a disappointment so far as the total pack was concerned, the individual fishermen, particularly those who drifted in the lower harbor close to the mouth of the river, did comparatively well. The majority of the fishermen were paid off yesterday and quite a number of them received checks ranging from \$1000 to \$2000 each for their season's work.

ASTORIA, Or., Aug. 27.—(Special.)—The "high boat" thus far reported that operated by Ben Johnson and Engrvald Elde, who fish for the Altoona Packing Company, their catch was 23 tons and 800 pounds, which brought them \$2980 in cash. After deducting the expenses, Johnson's net profit for the season was approximately \$1800, while his boatpiller received \$875. The second high boat was the one operated by Han Lovick and his boatpiller, Carl Iverson, who fish for Booth. Their catch was 45,000 pounds, or 22½ tons. Among others who did well were Harold Scruter, with more than 20 tons, and his brother, Chris Scruter, who had a few pounds less.

ASTORIA, Or., Aug. 27.—(Special.)—These four men fish in the most dangerous part of the river, close to the old Rosecrans wreck, and while all are chums, they have been vying with each other to gain the record. Since the closed season began large numbers of fishermen have been trolling outside the mouth of the river and are meeting with good success. Yesterday one man caught 2300 pounds.

Even at these low sale prices a very complete and exchangeable library of music rolls, which also includes numerous special soloist rolls, will accompany each instrument sold. Delivery will be made free of charge in the city or instrument will be boxed and delivered at any depot or boat landing free of charge. As stated heretofore, an unconditional money-back guarantee will accompany each instrument sold; a money-back agreement even if it is found that the same grade or quality is obtainable elsewhere for less money. This is positively the greatest player-piano buying opportunity that we have ever presented or that ever can be presented. Hence the above unprecedented proposal.

SOME ARE VERY ELABORATE. There remain two superb, largest-size, most extravagantly designed and finished orchestral grand soloist player pianos in this sale, representing, as stated before, the very acme of player-piano perfection. Values such as in the regular retail way are indicated by \$1275.00 and in one instance at even \$1440.00. There are also quite a number of these pianos, and somewhat smaller-sized instruments valued usually at \$725.00. Some are worth in the retail way only \$650.00, all of them most beautiful, tone quality, durable, and complete "88-note" player pianos, all accompanied with music rolls and benches as stated above. All are ready to be played and will never again be offered for sale. We know whereof we speak. If not prepared to make complete cash settlement make a deposit when selecting the piano, and the balance can be paid shortly it will be considered a sale. In conclusion bear in mind that Ellers Music House, the Nation's largest and most responsible music instrument merchants, guarantees every statement and every representation with reference to this hitherto unheard-of truly genuine bargain. Buy one of these player pianos now. You'll never regret it.

WILL BE TAKEN QUICKLY. This sale is being held at our store, 113 Broadway at Alder street. Be on hand early to secure choice. There are forty-two instruments and no more. At these astonishingly low prices we know from experience that every one of the valuable instruments will find a quick buyer in short order. This is an opportunity that will never come again. We know whereof we speak. If not prepared to make complete cash settlement make a deposit when selecting the piano, and the balance can be paid shortly it will be considered a sale. In conclusion bear in mind that Ellers Music House, the Nation's largest and most responsible music instrument merchants, guarantees every statement and every representation with reference to this hitherto unheard-of truly genuine bargain. Buy one of these player pianos now. You'll never regret it.
