Deveny, member of the Mount Hood Improvement Association, who spent five weeks in the Mount Hood district, has returned. He reports that the association has completed three bridges, one over Sandy, one over the Zigrag and one over Bear Creek, with the assistance of the forestry department. The main portion of the work, the material and money was furnished by residents and some interested Portland men. The road from the south side of the Sandy River connecting with the Mount Hood automobile road over these bridges to the north side of the Sandy has been cleared of rock and brush, and many automobiles filled with sight-seers are using the new route to get a view of Mount Hood from the north side. Mr. Deveny says that the Sandy bridge which collapsed last Winter has been rebuilt stronger and can stand any weight of snow.

On the eve of the date fixed for the sale by public auction of a dilapidated mahogany table which has been a fixture in offices of the city government since 1864, Mayor Albee yesterday called off the proposed sale and took possession of the table for use in his private office at the City Hall. It now occupies a corner and holds a typewriter and a few city books.

The Mayor declared that an historic table of the kind is worth more to the city than the small amount that would be derived from its sale. He says it should be retained in the city service as long as it will stand and should then be placed in the museum. The table has been sought by many old-time residents of the city, one of whom offered \$100 for it.
