HOPGROWERS'	AT	TITU	DE	15	FIR

Crep of Continental Europe Estimated Barth at 740,000 Cwt. There were orders for new-crop hops

18 to 19 cents yesterday, and although the latter price was bid, growers could not be induced to sell. Holders of fuggles were Samples of new California heps were re-

Determines of the English crop range from 300,000 to \$150,000 cwt.

The Kentish Observer of August 14 said:
"The hops have been nearly at a standstill during the last fortalght so far as the development of the Durr is concerned. But there has been a further growth of laterals (teo late to produce any hops) and of foliage. In fact this is a year of foliage rather than of fruit. The vice generally and the sentence of the foliage rather than of fruit.

of foliage. In fact this is a year of foliage rather than of fruit. The vine generally is unfruitful in character, quite a contrast to that of last year which was exceptionally freshtul. Much of the vine has a too coarse and harsh appearance, and is too dark in solor now and is still getting darker.

Taking the reports from all districts a crop of about nine cwin per acre as an all-around average seems to be the most that can possibly be hoped for, and if a generous supply of sunshine is not available, it is impossible to say how much smaller the yield may be. Disappointed with the promise of the home crop, and encuraged also by the unfavorable continental reports, growers are anticipating a high range of prices during the coming season, ond very high ones will be required to pay for a crop which must be the most costly one ever produced."

OREGON WOOL SALES IN EAST Large Deal in Idaho Clip Is Also Remains of a lot of 100,000 pounds of fine Oregon Clething wool at 56 cents a least of a lot of 100,000 pounds of fine Oregon Clething wool at 56 cents a least of a lot of 100,000 pounds of fine Oregon Clething wool at 56 cents a least of a lot of 100,000 pounds of fine Oregon Clething wool at 56 cents a company of the commendation of the commendation

mass of petty sales, which have been the rule in the wool market for some time. has teemed one sale of fine Idaho original wool of some 1800 sacks, or about 450,000 pounds, which it is said brought 51@52 cents on the

Street Well Supplied With All Lines and Demand Is Good.

The fruit movement yeaterday was large. The street was well supplied with everything and the demand was brisk.

Feach receipts were unasually heavy, but cleaned up well and the market closed in good shape. Good stock sold at 40 to 65 cents.

Melons and cantaloupes were in libera supply and steady in price. The grape market was also in good condition. A fancy shipment of Umpqua Gravensteins

banance came in and more described in the rate. The vegetable market was steady, except on tomatoes, which were too plentiful, and sold lower at 20 to 50 cents. Another shipment of pickling onlors arrived from Yakima. They were quoted at \$1 to \$1.55

Poultry receipts were fairly large, but there was a place for all that came in and prices were firm throughout the list. Hens soid at 15th cents and springs at 18 tents. Dressed mans were also firm. Trade was good in the egg, butter and in spite of the fact that offerings at the cheese markets, and former prices prepresent time are large. Eastern Oregon valled.

celved and proved to be of fine quality. The quality of the Oregon crop is also certain to be choice, and if the growers will insist that their hops be picked clean they will have no occasion to regret it.

A London cable reported English and centinental crop prospects more favorable. A cable from Alost said the Belgian crop is coming down lighter than estimated.

Barth's cable estimates the continental crop at 740,000 cwt., distributed as follows: Germany, 220,000 cwt.; Austria, 240,000 cwt., Belgium, 80,000 cwt.; France, 14,000 cwt., and Russia, 70,300 cwt.

Estimates of the English cont.

Upward Progress of Stocks Is Continuous.

SENTIMENT VERY BULLISH

Is Responsible for Advance. Coppers Are Conspicuously Strong-Bonds Active.

NEW YORK, Aug. 28.—Wall street reached the conclusion today that this country's relations with Mexico had improved sufficiently to justiff a more confident position in the stock market.

Progress upward was uninterrupted from the spening of the market to the close, and material gains were scored in all departments. Although it was realized that no definite developments had accurred, sentiment was decidedly builted.

Standard dividend-paying shares led in the advance, with the Harriman stocks and the coppers conspicuous. The price of standard copper warrants in London has reached the highest figure of several months, and some domestic producers were said to be helding out for 16 cents.

Southern Pacific did not weaken with the appearance of its July statement, showing a decrease in net earnings of \$786,000. Reading was well in the front, despite rumors of a new Government suit.

Withdrawal of \$1,000,000 gold for shipment follows a recent sharp decline in Canada was announced. The shipment colored a recent sharp decline in Canadan exchange on New York. The bank loss on subtreasury operations has reached an unusually large figure so far this week, and a poor bank statement is not unlikely. The Bank of England made a particularly strong showing, the present proportion of reserves to Hadilities, given as \$8.46, not having been equalled at this season for 17 years.
