WESTON IN HEART OF FINE GRAIN BELT

Wheat and Barley Thrive in District Where Prosperity Shows in All Lines.

FARMERS' METHODS EXCEL.

In Polk County Ward, Oregon, a district of 40 square miles, all the principal grains are grown, and the district is known as the 'Golden' belt of Oregon. The climate is mild, the soil rich, and the rainfall moderate. The district is situated on the east side of the Willamette Valley, about 30 miles south of Salem, and is well watered by the Molalla River.

In the district, wheat, barley, oats, flax, and potatoes are grown, and the yield of each crop is exceedingly high. The wheat, in particular, produces a fine crop, and is known as 'high grade' wheat.

The district is well known for its fine grain belt, and is a center of agricultural activity. The farmers are skilled in the art of farming, and their methods are highly developed. The district is well supplied with machinery, and the farmers are able to carry on their work with ease.

The district is also well known for its fine grazing lands, and the farmers are able to raise fine cattle and horses.

SUMMARY

The district is well known for its fine grain belt, and is a center of agricultural activity. The farmers are skilled in the art of farming, and their methods are highly developed. The district is well supplied with machinery, and the farmers are able to carry on their work with ease. The district is also well known for its fine grazing lands, and the farmers are able to raise fine cattle and horses.
