

MEXICO IS FIRED WITH PATRIOTISM

Thousands of All Ages Ask for Instructions in Use of Military Arms.

PLANTERS OFFER MONEY

Preparations Under Way for Large Demonstration on Independence Day—Exodus of Americans in Centers Checked.

MEXICO CITY, Aug. 31.—A wave of patriotism is said to be sweeping over Mexico, and from many states and from all classes, it is announced, assurances of allegiance and offers of service are being received daily by President Huerta and his minister of war.

Plans are being made for as large a display as possible of military strength on September 16, Independence Day, when it is proposed to hold a big parade in which 20,000 are expected to march.

The war department has been called on to furnish military instructors to a dozen cities, where the fear of being impressed for service against the revolutionists has given away before a later patriotic ardor. Thousands of all ages are asking to be drilled in the use of arms.

Nor is the aid offered the government confined to offers to serve in the ranks. A delegation of planters from the state of Morelos has waited on the president and tendered a subscription of 2,000,000 pesos.

In addition to the students of the preparatory schools, where military instruction has been enforced for some weeks, the manual of arms is being taught workers who are attending night schools and the employees of the tax department. The employees of several banks are also said to have organized a company and proffered their services.

The newspapers continue to devote themselves editorially to the late diplomatic exchanges, dwelling on the alleged sympathy and encouragement Mexico is receiving from the press of France, Germany and Great Britain.

Followers of General Felix Diaz expect him to return to Mexico City not later than October 4 to push his campaign for the presidency. The excitement among American residents over President Wilson's warning subsided to a large degree over Sunday. A limited number of persons left on trains to Vera Cruz today. The opinion is growing that the warning, so far as regards the large centers, will not be generally obeyed unless further information of definite character is forthcoming.

HALE HAS IMPORTANT FACTS

Lind at Vera Cruz Still Without Further Intimations.

VERA CRUZ, Aug. 31.—Dr. William Bayard Hale, who now is on his way to Washington, is expected to place before President Wilson and Secretary of State Bryan important facts in the Mexican situation. The President's personal representative, John Lind, is still here awaiting instructions from Washington, but so far has not received any indication from the Huerta government that it would be willing to make more concessions to the American demand.

It was considered not improbable that Foreign Minister Gamba's explanation that General Huerta could not become a candidate for the Presidency at the next election because of the constitutional amendment made during the Madero administration might be construed by the American representatives as an assurance that he would withdraw definitely from the executive power after October at the latest, but Mr. Lind is cognizant that the American constitution does not prevent General Huerta from resigning and thus rendering himself eligible for the Presidency. Mr. Lind is also well informed regarding the editorials in the Mexican newspapers since the exchange of notes, in which is suggested the necessity of General Huerta's accepting such candidacy.

The authorities at Vera Cruz, to whom has been shown the State Department's intimation that they would be held personally responsible for any maltreatment of Americans, appear to have taken the matter philosophically. Considerable confusion has resulted here through a misunderstanding on the part of the American refugees and American residents attempting to comply with Washington's warning to leave Mexico. Consul Canada is lodging in hotels those Americans who represent that they need assistance, because there is no American transport here and no boat is sailing for some days.

WASHINGTON STILL IS WAITING

Mexican Orders for Mobilization Cause No Anxiety.

WASHINGTON, Aug. 31.—Secretary of State Bryan, on his return today from a lecture trip, announced that nothing had been received at the State Department from Mexico City to cause any alarm or to change the diplomatic situation that exists between this government and the provisional government in Mexico City.

Mr. Lind, it was asserted, would remain in Vera Cruz tomorrow. That the administration is still content to await developments is apparent on every hand, President Wilson planning to remain at Cornish, N. H., over Labor day.

Reports of new orders for mobilization of troops in Mexico by the provisional authorities caused no excitement in official circles here. At the War and Navy departments officers were on duty all day, but no reports from the Mexican border were received regarding attempts to smuggle arms into Mexico.

The Administration, it was reported, is encouraged by statements emanating from Mexico City which give strong indications that the provisional authorities do not regard negotiations with the United States at an end, and that they are expecting to hear further from the American confidential agent.

POLICE ROUTE STRIKERS

Riots in Which Stones Are Hurlled Result in Dublin.

DUBLIN, Aug. 31.—Fierce rioting in connection with the tramway strike was renewed today. Hundreds of persons, including 26 constables, were injured. Sixty or more persons were wounded Saturday. All the hospitals are so crowded that many serious cases

had to be sent to their homes for treatment.

The strike committee, in the interest of peace, had rescinded early in the morning the proposed mass meeting in O'Connell street and had substituted a parade from Beresford place to Crofton Park at Fairview, a suburb on the north side of the city. The authorities meanwhile had prohibited the mass meeting.

Crofton Park belongs to the Transport Workers' Union and a meeting was held there without disorder. But on the return march attempts of the police by baton charge to disperse the constantly growing crowds led at once to rioting. The mob was incensed by the arrest of one of strike leaders, James Larkin, against whom a warrant had been out for 24 hours. Larkin was on the balcony of a hotel in Sackville street. He was wearing a disguise, but an enthusiast's admirer raised the cry: "Three cheers for Larkin." The police immediately pounced on him and violent scenes ensued.

The rioting became general in various parts of the city. The police charged repeatedly with their sticks and this led to pitched battles. Stones, bricks and bottles were hurled by the infuriated rioters and the streets soon were covered with prostrate forms.

T.R.'S JEWELRY STOLEN

COLONEL'S SIGNET RING IS GIVEN TO WOMAN.

Missing Property All Found and Negro Employee of Household Is Arrested for Theft.

MINEOLA, N. Y., Aug. 31.—George A. Parker, a colored employe of Colonel Roosevelt at Sagamore Hill, Oyster Bay, was placed in jail here tonight charged with having stolen \$1000 worth of jewelry from the Roosevelt home Saturday. All the jewelry was recovered.

Much of the Roosevelt jewelry and silverware has been in a safe deposit vault, until Thursday, when James Ames, the colored butler in the employ of the family, removed the valuables to the Roosevelt home.

It was rumored tonight that the reason Parker was discharged from the Colonel's home was an attack he had made on one of the maids employed in the household. It was said that the maid fled panic-stricken to Colonel Roosevelt with her story and the negro was immediately discharged.

J. E. Ames, Colonel Roosevelt's secretary, however, is said to have discharged Parker a week ago, before Colonel Roosevelt came home from the West. Ames then discovered the jewelry had been stolen and called in detectives. The most expensive article stolen by Parker was a pearl necklace with a diamond clasp, valued at \$800. This was found today in a crevice in one of the closets in the house. Other articles were found in a Brooklyn pawnshop.

Detectives found that Parker had shaved the initials from one of the rings taken—a signet ring of the Colonel's—and had given it to a woman. This was recovered, too. Parker recently sold a bicycle belonging to Kenneth Roosevelt to a Mineola dealer and also tried to dispose of a diamond pin to several villagers.

"MONSTER" IS DREADED

Ex-Suffragist Says Frankenstein Is Outdone.

WASHINGTON, Aug. 31.—(Special.) "Women who have obtained the franchise are modern Frankenstein, creators of a political monster that has turned on the sex with appalling results."

This statement given out today, containing a denunciation of woman suffrage by Miss Annie Bock, a California woman, who uses her own state as an illustration in support of her assertions. Miss Bock was one of California's most active suffragists for more than a year, but now is working against it.

"As secretary of the California Political Equality League," says Miss Bock, "I gave without remuneration more than a year of my life, working for suffrage. Now all I have to say is that if I had it to do over again, I would work twice as hard, if that were possible, against it. I consider the result of suffrage in California not only unsatisfactory and disappointing, but disastrous."

"Woman suffrage in California brought woman into too familiar contact with man. She has her rights now; she is equal to him—on his level. Where previously men were generally courteous, now they are rude. Woman suffragists will almost make one believe suffrage has been a great success in California, but if you analyze what they say you will find all the success they talk about is mere assertion."

"Rev. Anna Howard Shaw is quoted as saying that in all the 45 years of fighting there has never been a man or woman advocate of equal suffrage who had done an unlawful act or who had been other than a law-abiding citizen. Where has the Reverend Anna been all these years—in her closet praying? I want to say to the Reverend Anna that there are hundreds of men and women who are advocating

woman suffrage in this country alone who scorn the law, denounce the Bible, trample our flag and work to tear down our constitution."

Merchandise of Merit Only

RATES MAY CHANGE

State Railroad Commission Will Start Hearings.

VALUATIONS TO BE FIXED

Commercial Contracts for Electrical Energy to Be Equalized and Prices Based on Value of Company's Holdings.

An important hearing on electric light and power rates in 11 cities of Oregon will be held by the State Railroad Commission in Portland, beginning at 10 o'clock Tuesday.

Among the cities whose rates will be investigated at the hearing at Portland, Salem, Oregon City and Woodburn. Small consumers are not likely to be affected so much as large consumers, one of the objects of the hearing being to place all commercial contracts for light and power on the same basis.

Prior to the passage of the Malarkey bill, which gave the Railroad Commission the power to fix rates of power companies, it was the custom of the companies to deal with individual consumers of large quantities of power on an individual basis. One consumer would be granted one rate, while another consumer, whose contract was made under different circumstances, might be granted either a higher or lower rate. There was no fixed pro rata rate, in consequence of which large consumers using approximately the same amount of current pay widely variant rates.

It is possible that many of these consumers will find their rates revised on an upward scale rather than a

downward one. What the general trend of adjustment will be in this city, even members of the Commission cannot say until they have had time to consider the data compiled at their request by the Portland Railway, Light and Power Company, on which to arrive at a physical valuation of the company's properties. Rate adjustments will be fixed on this physical valuation.

Data covering hundreds of closely-written pages, already have been turned over to the Commission by the company, which has had experts compiling figures and other information covering every piece of property it owns, down to separate bolts, individual steel rails and track spikes. All these data will be checked up by engineers for the Commission before they are accepted.

Among the figures submitted by the company are those covering the valuation of its real estate holdings, which show them to be worth, according to its own estimates, approximately \$3,969,000.

The Railroad Commission, in fixing the physical valuation of the Portland Railway, Light & Power Company's holdings, will try to segregate its properties used exclusively for light and power purposes from its street and interurban railway holdings, so that equitable rates may be fixed for each of these public utility branches. The valuation of the street railway holdings will have an important bearing on the justice of the proposed six-tickets-for-a-quarter rate recently before the City Commission.

At Tuesday's hearing, the justice of two rates between Portland and Lent's Junction, one of 5 cents over the Mount Scott line, the other of 10 cents, via the Springwater line, which enters Portland by the river bank route, will come up for consideration.

STEAMSHIP'S CARGO AFIRE

Uranium Puts in to Halifax on Voyage to Rotterdam.

HALIFAX, N. S., Aug. 31.—The steamer Uranium, from New York for Rotterdam, has arrived here with her cargo on fire. The steamer left Thursday and on Friday night when 350 miles from New York, the fire was discovered. Efforts made to extinguish the fire failed.

NEW STYLES SHOW

Fall Parisian Costumes Designed on American Lines.

MATERIALS ARE COSTLY

Characteristic Note is Bright Colors—Shapes Puffed Out at Hips for Evening Gowns—Trim-mings This Year Chic.

PARIS, Aug. 31.—(Special.)—The last contingent of American representatives of costume makers left for the United States yesterday on board the steamship France. The general sentiment among them was one of contentment with their gleanings for the autumn season.

Greater consideration for the American type and figure of woman seemed to have predominated in the creation of models. Extreme things are in great minority. General loveliness of the styles, quality and quantity of materials and trimmings which give an intrinsic value which most American women demand in a gown, aside from the chic, which is all satisfying to Parisiennes, were favorably commented on by the buyers.

A characteristic note in Jeanne Lanvins' is showy colors, chiefly cerise and golden yellow, and for material duvetins or silk velvet. The shapes are puffed out at the hips for evening gowns and are more simple for tailor made dresses.

Among Lanvins' finest creations is a gown of hard blue with roses made of pearls scattered around it. This gown is made of a number of volants pleated and superimposed one on the other, while the corsage is simple but very

decollete in the back and draped in tulle. Among innovations which have been received with greatest favor are new short separate wraps of velvet.

"No man is born into the world whose work is not born with him."—James Russell Lowell.

Store Closed Today
