WIDNEY NOW "FLAT BROKE"

Former Denver Woman, Who, With Los Angeles Realty Operator, Sought Death, Reveals Plans for "Ending It All."

SAN FRANCISCO, Sept. L - (Special.) -Mrs. Vivien Lyons, divorced wife of William C. Lyons, a Denver politician, who shot her companion, Robert J. Widney, a Los Angeles realty operator, last winter in the apartments which she and Widney occupied here, today

she and Widney occupied here, today lies in the Central Emergency Hospital, where, she is closely watched by attendants lest she be successful in a further attempt at suicide.

The woman was brought to the hospital last Thursday suffering from hysteria following an unsuccessful attempt at suicide in a pact with Widney. They saturated their pillows, with chloroform and took veronal, but both woke up the next morning, the woman first. She telephoned to Doctor Pickett and then set about resuscitating Widney. When both were pronounced out of danger the woman was taken to the Emergency Hospital and Widney to Livermore, where he is under surveillance in a sanitarium.

more, where he is under surveinment in a sanitarium.

Mrs. Lyons since has tried twice to kill herself at the hospital, first by puncturing her wrists with hairpins and then by biting her arms in an effort to sever an artery. She says she wants to die because she fears "Bob will be taken from her," and that "life s not worth living without him,"

"We are spread out thin," she said today, meaning that they have no funds. "Bobby is absolutely broke, and we didn't know what to do, so Thursday I took my pet monkey and sold him for \$12. Then we bought a quart of wine and after a taxi ride we went to our recom, drank the wine and kiesed each other good-hye. Then we split all over the hed the chloroform which we had hought while on the taxi ride. we had bought while on the taxt ride. We saturated the pillows with it and divided he cents worth of veronal between us. That was at I octock in the morning. I woke up at 7 and saw that Bobby was also alive and I called the doctor.

"He is not good-looking and he is a little bit of a man," she said, in attempting to analyze the qualities which made her love him. "He has no eye-lashes or eyebrows, and he has an ugly little face, but one can't tell why one loves or hates, can one? I will always love him, and I'd like to die right now if I am never to see him again."

Judge Widney May Act. "I never harmed him. I've gone broke for him and I don't see why people say I am a detriment to him. 1 am not a vampire and I'm not bad." Widney's father, Judge R. M. Rock Island Train Goes Down Bank When Rails Spread.

CEDAR RAPIDS, Ia., Sept. 1 .- Train No. 444, southbound on the Decorah branch of the Chicago & Rock Island, and due here at 6 P. M., was wrecked within two miles of Maynard at 3:45 this afternoon. The entire train was derailed, rolling down a 10-foot embankment. Three were instantly killed and 25 others were more or less seriously injured.

The cause of the accident was the spreading of the rails. As soon as the engine left the rails the coaches turned over and slid down the embankment. A special train was made up at Oelwein and left Maynard at 7 o'clock tonight

bringing the injured to this city.

The train was running between 25 and 30 miles an hour, which is an unusual speed for trains on this branch.

At the hospital today Mrs. Lyons became hysterical again when the attendants refused to have a hairdressor and a manicurist come to her. She was more concerned about her appearance than about the fate of Widney, whom she professes to love with an undying affection.

RESULTS PROMISED AT ROADS MEETING

"Five Hours From Portland to Sea" Slogan of Highway Association.

MEIER CHOSEN PRESIDENT

Funds for Survey of Thoroughfare 24 Feet Wide and Order Work Be Done.

GEARHART, Or., Set. 1.—(Special.)
—"Five hours from Portland to the sea, September \$, 1914."

This was the slogan adopted at the close of the two days "Highway-to-the-Sea" good roads meeting held here under the auspices of the Columbia Highway Association.

Highway Association.

The officers of the association were unanimously elected as follows: Julius L. Meler, president; Samuel Hill and Edward Judd, vice-presidents; Paul Wessinger, treasurer, and W. D. B. Dedson, secretary.

A resolution was unanimously associated askings the county courts of

adopted asking the county courts of the several counties through which the highway will pass to provide the funds highway will pass to provide the funds necessary for the survey of a road 24 feet wide and to authorize this survey, to be made by the state highway engineer. It was the sense of the meeting that the first step to be taken toward the highway was to secure the survey and the estimates of cost by the state highway engineer. With this as a basis, campaigns for bond issues sufficient to build the road will be begun.

Many Speakers Heard.

Julius L. Meier, president of the association, called the delegates together shortly after 9 o'clock this morning, and from that hour until 1 o'clock the delegates were in session, listening to the report of President Meier and good froads talks given by O. C. Leiter, city editor of The Oregonian, who represented the Portland Commercial Club, Paul Wessinger, Major H. L. Bowiby, State Highway Commissioner; Dr. Alfred Kinney, Robert Yount, Judge W. D. Dillard, Samuel Hill and C. P. Chamberlin, one of the American delegates to the third international Good Roads Congress.

That are the weeks ago, and arranged for a month in the whole district that cost less than \$3500.

The agreement with the Laurelhurst Company was that it should light the district for 18 months, Handsome ornamental poles, 225 of them, were put up with three gas globes to each. The Laurelhurst Company kept these lights going for more than three years intended of 13 months, despite the fact that the cost had increased in the meantime.

The Laurelhurst Company notified the Laurelhurst Club, the Mayor and Commissioners that the lights would be turned off after August 31. Then a delegation from the club and Frank F. Mead, vice-president of the Laurelhurst Company, called on the Commissioners, the cost less than \$3500.

That early results will come of the seeting is freely predicted. The various delegates return to their respect-ve homes fired with good roads en-husiasm and determination and from now on they will conduct a campaign of good-road education. The report of the steering commit-

of good-road education.

The report of the steering committee appointed at yesterday's meeting was read this morning. The report, after stating that the line of the Columbia highway in Multnomah County is practically finished and needed but little further attention from the association, takes up the work that has been done, and is being done, in Clatsop and Columbia counties.

Good Roads Demoustrated.

Samuel Hill was invited to address the meeting again and especially requested to give further information on the practical utility of the Columbia River Highway. A picture which was thrown on the screen during his lecture last night, showing the difference in the tonnage that could be hauled over a good road, compared to that which was being hauled over bad ones, and how different grades of the roads affected tonnage, attracted the attention of the convention. These figures and pictures are to be adopted by the association and will form a part of the good roads education plan which is to be sent broadcast throughout the district by means of postcards, placards.

sociation and will form a part of the good roads education plan which is to be sent broadcast throughout the district by means of postcards, placards and folders. A committee composed of Paul Wessinger, O. C. Leiter, of Portland: Frank Parker, of Astoria; and C. A. Nutt, of Rainier, were selected to conduct the educational campaign.

Another important move adopted at the meeting is the campaign which is to be carried on in all the counties on the highway. President Meler pledged that he would make it his business to see that a large delegation of Portland business men attend these meetings. Encouraging reports were also received from the delegates of the various counties through which the two proposed routes run, showing the work being done on the highways and telling what work each county had in contemplation.

"BLOOD IS THICKER THAN WATER"

Without good red blood a man has a weak heart and poor nerves. Thinness of the blood, or anaernia, is common in young folks as well as old. Especially is the case with those who work in filly ventilated factories—or those who are shut up indoors in winter time with a coal slove burning up the oxygen or emitting carbonic (oxide) gas. This blood, or blood which lacks the red blood corpuscles, in anaemic people may have been caused by lack of good fresh air breathed into lungs, or by poor digestion or dyspepsia. Sometimes people suffer intensipal over the heart which is not heart disease at all, but caused by indigestion.
