PORTS' ASSISTANCE LAUDED BY M'INDOE

Government Engineer Asks Rotary Club to Back Bar. Appropriation.

JETTY WORK IS DOUBLED

Task May Be Completed in Three Years if There Is No Let-Up in Labor - Good Results Are Shown by Recent Survey.

"I do not know of any better way in which you can aid the Government en-gineers in their work on the improvement at the Columbia bar than by giving your hearty backing to the move of the Port of Portland and the Port of Astoria to advance \$500,000 so that the work may be carried on without intermission," said Major James F. Mc-Indee, in charge of the Second Oregon district, Corps of United States Englneers, addressing members of the Ro-

tary Club at luncheon yesterday.
"The assistance which the two ports contemplate giving will make it pos-"The assistance which the two ports contemplate giving will make it possible to keep the work going until we receive aid from Congress, which, I believe, will be \$2,000,000 instead of \$1,000,000. In the past five years we have doubled the rate of progress in the jetty construction, and with the help of the Ports of Portland and Astoria and the moral effect the appropriation will have with the United States Congress I believe we can further increase the rate of progress.

"If the citizens, then, uphold the Port of Portland in what it purposes to do it may be possible to achieve in three years what otherwise will take at least six years to complete in the improvements at the mouth of the river. Everything that you can do to increase the favorable public sentiment for the expedition of the work will be that much help in the direction you are desirous of seeing the work go."

Major McIndoe said he believed the preliminary work would be done and they would be placing rock on the north jetty of the Columbia by next Spring. The preliminary work represents an expenditure of nearly \$200,000 before a single rock can be dumped on the jetty.

As to the efficacy of dredging in the channel, Major McIndoe said that this year for the first time since it has been undertaken the survey, which was completed last week, showed results the best city in the world?

completed last week, showed results, have been obtained which justified the efforts. In a channel 700 feet wide and nearly a mile long the dredge has produced an increase in depth of from one to five feet.

The chief hope from dredging, he

one to five feet
The chief hope from dredging, he said, would be to handle it on an enormous scale, so that the operations of the dredges, would keep always ahead of the filling-in processes from the sea. The chief hope for permanent results the cheef hope for permanent results the depot to welcome the members appears to lie in the completion of the jetty and the resultant scouring out of the channel.

At present there is a depth of 28 feet at lowest water, and with an average tide this is increased to 35 feet. This, Major McIndoe held, is a good depth, considering present conditions, and there would be little worry about the bar were it not for the turbidness of the water and the fact that the shipmasters have become afraid of it. Any ship of ordinary draught, he held, should be able to negotiate the bar at the present time with slight difficulty.

At present time with slight difficulty.

At present time with slight difficulty.

EFFICIENCY WORK PLANNED

"It was a great trip." This was the unanimous acclaim of the firemen who came in completely tired out from the came in came round of pleasure which extended from Portland to New York, taking in all way points. The fire-fighters were all The Presbyterian Sunday schools of the city will be treated to a "whirling wind visitation" of officially appointed bender that the city will be treated to a "whirling wind visitation" of officially appointed bender that the comes which had been extended en comes

Matthews, superintendent for Washington for the Congregational Sunday school board.

Next Sunday marks the beginning of an eight days' campaign of efficiency in Presbyterian schools of the city, all of which is part of "Sunday school month" as authorized by the Presbytery of Portland for all its churches during September, under the same leaders. The programme of these educational activities follows:

Monday 6 to 8 P. M., luncheon—Conference of pasiors and superintendents at Calvary Presbyterian Church. Professor A. F. Bittner will be master of ceremonies and addresses will be decilivered by a number of leaders.

Tuesday to Friday, conferences will be held in each of the Presbyterian churches in the city with a view to standardizing the Sunday school work of the denomination. Rev. C. A. Phipps will assist the Presbyterian board's leaders in doing this work. Twenty Minneapolis, St. Paul, Chicago, Niagara, Indoing this work. Twenty of Seattle, and R. D. Moore of Santing and procession was formed and to the strains of a march, played by the police band, proceded to the City Hall. The police band was first, the fire band second and Mrs. T. C. Powers, of Helena, Mont., are at the Portland. G. E. Crum and wife, of Lewiston, Idaho, are registered at the Multnomah.

in the Sunday school anditorium, to be addressed by Mayor Albee, Rev. J. H. Boyd and Rev. A. M. Williams.

An educational survey of the work being done in Presbyterian churches in Portland Presbyterian churches in Portland Presbytery is being made by the educational superintendent, the facts to be assembled in a general survey of needs and condition of religious education in the presbytery.

Since the East.

All along the line the band received a royal welcome. In New York, where six days were passed in parading the streets and sight-seeing, all sorts of courtesies were extended the organization by the firemen of that city and other city officials. In parades the band was roundly applauded by thousands along the streets.

J. Wallace, of New York City, a member of the cotton and produce extended the cotton and produce extended the organization.

band was roundly applauded by thousands along the streets.

One of the best welcomes was in Omaha, where a large electric sign was stretched across the street reading. "Welcome, Portland Fire Department Band." In nearly every city the firemen were draped with pennants and badges by reception committees, Concarts in all the cities along the line attracted thousands of people and the newspapers were unusually generous with space and pictures.

J. Wallace, of New York City, a member of the cotton and produce exchanges of that city, is a guest of his daughter, Mrs. Aman Moore, at Oswego. Mr. Wallace will pass a week in Oregon.

A. B. Leet, connected with the American Security and Trust Company, of Washington, D. C., is a guest at the residence of Harry K. Haak, in Irvington. Mr. Leet is delighted with Portland and is here looking into prospective timber investments.

TELEPHONE system, like the atreet ears, is an aid to the city's growth and subur-A ban development. It makes it convenient for the city-employed man to live in the suburbs or country.

"Handy to business" now means a pretty suburban residence or a home in the real

Factories are built where land is cheap. The population of the over-crowded cities flows out into the country, relieving unsanitary conditions and improving the general health of the community. The telephone has brought the city and country closer together.

> Every Bell Telephone is a Long Distance Station

The Bell Telephone system is aiding in the upbuilding and growth of 70,000 communities, and giving impetus to the "back to the land" movement.
