He professed to be competent as an expert witness in the lottery game, but when Deputy City Attorney Stadter began questioning him as to his own playing of the hazardous game, he broke down and said that he "really did not know very much about it." NEW YORK. Sept. 18.—Operations on the long side, resumed in the stock market today, met with indifferent success. The pronounced rise of a few leaders failed to arouse enthusiasm and trading lacked the breadth of last week.

Reading apparently was selected as the leader in attempts to bid up the list. Copper shares, too, were in favor by reason of the further decrease in European supplies and the advancing price of the metal. Reading, under the spur of consistent bidding, mounted more than three points to 160½, the highest figure of the year. Amalgamated also made a new high record by rising two points to 80½. Canadian Pacific advanced five points. Various others of the standard shares made gains of a point or more, but fluctuations were variable. Toward the close selling pressure became greater and many gains were eliminated. New Haven fell to a new low record of 80½.

The rising tendency of the money market operated against continuation of the active buil movement. Money rates, which were advanced all around yesterday, held strong today.
