

THAW WILL APPEAL TO HIGHEST COURT

Foundation Laid for Successive Proceedings Through Federal Tribunals.

NOTEWORTHY DELAY WON

Hearing of Habeas Corpus Writ Suspended, to Be Taken Up Again After Hearing Before New Hampshire Governor.

LITTLETON, N. H., Sept. 16.—Counsel for Harry Kendall Thaw laid today the foundations for plans to carry his case to the Supreme Court of the United States.

When the Governor of New Hampshire passes on the matter of the extradition of Thaw to New York, at the hearing to be held at Concord on Tuesday next, the finding, if adverse to Thaw, will be reviewed by the United States District Court and, should a decision against him then be rendered, successive appeals will be taken until the case reaches the highest court in the land.

This was the announcement made by the Thaw lawyers tonight after the most noteworthy court victory for the fugitive either in Canada or in the United States since his escape from the Matteawan asylum for the criminal insane.

Federal Writ in Abeyance

It was made after a hearing on the Federal writ of habeas corpus obtained in Thaw's behalf and invoking the Fourteenth amendment to the Constitution had been suspended indefinitely until such time as counsel saw fit to begin arguments after the extradition matter had been decided by the Governor.

Thaw, according to the understanding reached, will be taken to Concord tomorrow. He was transferred in a hotel tonight, feeling fine and predicting that the gates of Matteawan never would close behind him again. Mr. Jerome had little comment to make.

"Thaw is tied up now with a Federal writ," he said, "and there is no getting around it. But the questions to be decided by the Governor are simple and we hope for victory."

Concluding his rescript today, Judge Aldrich engaged Mr. Jerome in informal colloquy as regards Thaw's status as an insane man or a criminal. It was perhaps the most interesting part of the brief court procedure.

For the first time since his return to the United States after his sudden deportation from Canada Thaw was cheered openly today. Enthusiastic and sympathetic crowds greeted him at the station, and when he descended to Main street after his court victory, burrahs greeted him as he passed.

Merill Shurtlett, one of Thaw's New Hampshire lawyers, opened the proceedings, setting forth in plain view of the impending hearing before the Governor, the petitioner did not care to urge his constitutional rights, but desired a continuance. Jerome was on his feet in an instant.

"I desire to interpose objection to any delay," he said, "I move that this hearing proceed forthwith and the writ be quashed. Examination of the return will show that the questions raised in the application are frivolous and raise no new questions of law or fact. There is no Federal issue involved, and I feel forced to say that the writ was obtained under circumstances which approach very near trifling with the court. I have here the affidavit of Lindsay Dennis, based on statements made by Thaw, who is loquacious counsel for the other side."

Charge of Loquacity Withdrawn.

"You need not use that term loquacious, Mr. Jerome," said the court severely.

"I withdraw the remark," said Jerome.

"I will say now," continued the court, "that unless you have a pretty strong case I advise you to undo the trouble of raising the issue of bad faith."

Mr. Jerome sat down.

George Morris, of Thaw's New Hampshire lawyers, addressed the court, said in brief that the writ on Thaw's behalf had been obtained because, under the New Hampshire statutes, there was no recourse to the Governor or the Governor honored the extradition warrant and the New York authorities came to remove the fugitive instantly.

A DIFFICULT PROBLEM

Calef Bros. the House Furnishers on the East Side Cannot Understand the Public.

Imagine yourself in a beautiful store room with good and substantial furniture in the latest designs and finish, with rugs or carpets to harmonize with the color scheme, and, etc., etc. A gentleman comes in and tells you the table, for instance, is worth \$25 and the rocker is worth \$15. The combination of colors in the room is such that all look beautiful and you do not question their being a big value at the price quoted. Now the fact is when this very same table and rocker are displayed on the sales floor on the East Side, in the low-rent district, and you come in and a salesman quotes you a price of \$29 for the table and \$12 for the rocker (and, mind you, the same articles you looked at, but under different circumstances), you exclaim, why, I can get a table and rocker ever so much better than those at only \$25 and \$15. Why is it the public seems to think everything on the East Side is cheap in quality just because it is not dressed up and that everything on the West Side is of high quality? The question is, why do people pay \$15 to \$25 per cent more on the West Side than what they would pay for the same things on the East Side, where a merchant can afford to sell for so much less. Can you tell?

CONGRESS MUST GIVE O. K.

(Continued From First Page.)

more to build than an old-style postoffice building, and it would be useful longer after the other was antiquated.

A. H. Averill, president Portland Chamber of Commerce, thinks it would be a serious mistake to put up a one or two-story Postoffice building. The location is too valuable and Portland is too big a city for such a building. Personally I am in favor of waiting until we can get the proper kind of building, even if it does occasion some delay, though I am speaking personally and not for the Chamber of Commerce. I think it would be a good plan to take this up with business men of the city at once, and I shall call it to the attention of the trustees of the Chamber of Commerce at 11:30 o'clock tomorrow morning.

Will H. Day, City Commissioner, said he did not know that there was any building plan for immediate erection of a new postoffice. While he no doubt needed a new postoffice building as soon as possible, it is a great deal more essential that we put up a building that will do for years to come than that we rush it through and take an inferior structure. I believe we should have a postoffice that will be large enough for twice our present population. If there is prospect of getting such a building by waiting a while, the delay is amply justified.

W. P. Olds, of Olds, Wortman & King—the new postoffice ought to be a large office building. The Government is now engaging lots of rooms around the city for different departments and paying rent for them, and it would be to advantage to consolidate them in one building and save that rent money. Any reasonable delay would be amply compensated by getting a building of this sort. Further, such a structure would do more to give a good impression of the city to visitors than any building of the present Federal style of architecture, no matter how ornate it might be.

Edgar B. Piper, President Portland

Commercial Club—I think that the law ought to be carried out as it stands, and the building built exclusively for postoffice purposes. If the Government wants to house its other departments here in an office building, let it pass subsequent legislation and make an appropriation for that purpose. What we want in Portland now is a postoffice and we want it as quickly as possible. Now that we have obtained the appropriation and purchased the site, it is little short of folly now to change the plans. I don't think Senator Lane would be justified in introducing any resolution that might delay the building of the postoffice.

Adolph Wolfe, of Lipman, Wolfe & Co.—My opinion is that if we could have a one or two-story building without any further delay, but with foundation and floor more stories could be added later, that would be the best solution. I am not in favor of any delay that might place our postoffice in jeopardy altogether or that would put it off very long. It would be better to delay a time, however, and get a building of the proper sort. Looking at it as a business proposition, I would not want to see a permanent two-story postoffice building put upon so valuable a site. It would seem like false economy. We should have a more imposing and larger building, such as a business corporation would build, suitable for years to come.

William F. Woodward, of Woodward, Clarke & Co.—It seems inconceivable that serious consideration should be given to the plan of putting up an old-style, out-of-date public building here under present modern conditions. If there ever was a time when we needed practical business methods and practicable business houses, adaptable to the needs of a big business, such as the postoffice department has become, it is now. Why, the parcel post service alone would swamp an ordinary building and it is bound to grow to much greater proportions than at present. The new postoffice will be like a big department store, a distributing point for merchandise for all over the country. If it should take us an extra year, or two years, we ought to wait and get a modern building. Forget the lawn and grass plots and put up a building for utility. Put in a building for commerce. Even the Public Library is now built on modern lines. What we want in our new postoffice is a practical building adapted to modern needs, not a monument.

A. L. Mills, president First National Bank—Senator Lane's plan for a large office building seems to me a good one. I should think that unless it would entail a very long wait, we ought to try to have Congress authorize such a structure. As a business proposition it seems to me much better to do this than to take a building that would soon be inadequate. Of course, if such delay would jeopardize our chances for getting our new postoffice building or if the delay should be unreasonably long, we had better go ahead and take what we can get now. If Senator Lane's resolution could be passed at this session, however, I should think it a wise thing to have it done.

Tom Richardson—If we can be permanently benefited by delaying a while, getting an eight or ten-story building, good for the next 50 years, in place of the projected old-fashioned postoffice, we certainly ought to wait. A large building would have double the utility of the old-style structure at the same cost. Other Federal departments could have quarters in it for a time, but as the business of the postoffice became greater, it would eventually use the entire building. A delay of two or even three years, which I think extremely unlikely, would be justified for such a building.

DEATH HEAD ACCIDENTAL

BODY OF COLUMBIA COUNTY MAN RECOVERED.

Coroner Reports Drowning Result of Fall From Skiff—Boat Crew Finds Corpse.

ASTORIA, Or., Sept. 16.—(Special.)—According to the report made to the Coroner of Columbia County, Victor Birch, keeper of the Patton and Houston hunting preserves near Quincy, Ore., whose body was found on the beach at that point last evening, was accidentally drowned by falling out of a skiff which capsized.

Birch was a native of Finland, 30 years old, and his only relative was a brother, Andrew Birch, residing in this city. The body was brought here for interment.

Members of the crew of the river steamer Beaver found the body of Victor Birch, a Deputy Game Warden and keeper of a preserve near Quincy, Ore., off Eureka, Monday, and it was taken to Rainier and turned over to the Coroner. Birch is said to have been drowned a week ago.

Andrew Birch, a contractor of Astoria, is a brother of the deceased. The fact there was an abrasion over the left eye gave rise to rumors that he may have met death under suspicious circumstances. Men on the Beaver did not believe that the injury could have been caused by the body striking some object in the water.

EX-BANK TELLER INDICTED

John Uhler, of Baltimore, Charged With Taking \$11,744.

BALTIMORE, Md., Sept. 16.—John C. Uhler, formerly teller of the Park bank, was indicted by the grand jury today on a charge that he took funds of the bank aggregating \$11,744. He admitted taking \$15,000 from the bank, but said he had lost the money in stock speculation.

The grand jury made good the shortage. Detectives are seeking Uhler.

"Merchandise of Merit Only"

Imported Tunics in High Favor

—Again novelty tunics take precedence for evening and afternoon gowns. Many of the most prominent couturiers are showing these handsome tunics on their models for this season.

—These beautiful, new tunics can now be had here in a wondrous array of scintillating effects—of soft chiffons and nets, exquisitely embroidered in silks and beads in various designs—the Cubist patterns being very prominent. These new tunics range in price from \$10.00 to \$50.00 each. First Floor.

Trimmings of Soft Furs

are again seen on all gowns, wraps, coats and tailored suits. To meet this fashion we are showing furs of every description, in various widths. Beaver, skunk, fox, moleskin, mink, ermine; in fact, all the wanted kinds in greatest favor. —First Floor.

The Authentic Modes of Parisian Modistes Are Presented in This \$10 and \$15 Millinery

—Until yesterday morning, when we presented all the newest modes for Fall, women did not have a comprehensive idea of what beautiful hats could be had for \$10 and \$15.

—This display of hats is representative of all the famous millinery dictators, as there are not one, but a number of artists who created these new styles. —This is a season of profusion, as well as beauty. The styles are numerous because they have been inspired by the several periods whose costumes glorify French history.

—Close, tight-fitting hats, with smart little feathers, and charming little bonnets worn during the Directoire period have been made even more beautiful. The styles of the Empire and other periods are reflected in these beautiful hats—both of those that came from Paris and those that are the handwork of our skilled milliners.

—Hats for every occasion—tailored and dress styles of soft, pliable materials—in colors, but black predominating. —Second Floor.

Combination Sale of Drugs and Toilet Articles Embracing Things Required Daily—On Bargain Table, Center Aisle.

—In this sale you have the choice of selecting any article in Column No. 1 and purchasing any article in Column No. 2 by adding 1 cent to the purchase price of the article in Column No. 1.

—For example, "Mulle Eye Remedy," costing 39c, can be combined with any one article in Column No. 2 for the additional cost of 1 cent, which would make the total purchase 40c for the two articles. As another example, "Listerine," costing 65c, in Column No. 1, may be combined with any one item in Column No. 2 at the additional cost of 1c, making a total purchase 66c.

The Cutaway Style is Introduced in This New \$25.00 Astrachan Cloth Coat To be Sold Tomorrow at \$15.00

—Always something new — not merely in merchandise, but in styles—is our watchword.

—The cutaway style applied to top coats of astrachan is decidedly novel and new and will be most prominent among our new modes for tomorrow, because it is the most different. We are introducing this coat in a three-quarter length style of soft Salt Belt Astrachan—and is most effective in this fabric. It is free from adornment, except for a soft plush facing on the deep revers and two large ornaments at the side-front where the wrap fastens. A straight, graceful model suitable for women and misses. Lined throughout with brightly colored satins in various shades.

Our Bureau of Interior Decoration

—This exclusive department is fully prepared to assist you in the selection of furnishings and decorations for your home. This means the treatment of your walls — the hangings, the floor coverings, the upholstering — all of which requires expert knowledge of harmony and refinement are to be the result. This is the service our bureau of interior decoration will give you.

—With the production nowadays of inexpensive materials, such as drapery fabrics, wall papers and crotelles, the most distinctive schemes can be created at very reasonable prices. —Estimates gladly given on all kinds of interior decorating work.

Newest Fiction

"The Business of Life" by Robt. Chambers. Now on sale.

"The Way Home" by author "Inner Shrine." On sale Thursday, Sept. 18

"The Taste of Apples" by author of "Uncle William." Now on sale.

Ours is a Specialty Furnishing Shop for Men Resplendent With the Smartest English Haberdashery

—A shop that confers upon "him" the badge of individuality. For much of this we must thank merry old England, where men have a habit of setting the fashions in smart attire.

—These English styles we have chosen personally, our representative being in London to provide each season's requirements.

—English Sweaters—direct from Welsh, Margetson & Co. and Allan & Solly, London, England. In a style now seen on all European golf links. Woven with a wool body and silk sleeves. Also knitted sleeves and body. In plain colors and novelty stripe effects. \$5.00 to \$20.00 each.

—English Golf Hose—made full length, with fancy cuffs. Priced at \$2.00 and \$3.00 a pair.

—English Collars—from Welsh, Margetson & Co. —a special make, which are sold here exclusively. The very newest shapes are now ready for your approval.

—English Neckwear—rich, plain and novelty effects of silk, fashioned in the new flowing-end style, in many English designs and weaves. \$1.50 and \$2.00.

"Let Me Do Your House Cleaning"

—You doubtless wonder about me, hence I will tell you that I am a Hoover Suction Sweeper, and that in my rounds of cleaning I air, sweep, shake and suction clean your floor coverings, furniture, draperies, bedding, walls and ceilings. And all you need do is to guide me around, and if you wish to see me demonstrated, I will call at your home and show you how well I can clean your house free of charge.

Hoover Electric Suction Sweepers

Priced at \$53.50, \$81.00 and \$120.00—Sold at \$5.00 Down and \$5.00 a Month

Fifth Floor.

"Direx"

A Lamp With a Dirigible Cone of Light Regular \$4.50, Special \$2.98

—A most attractive lamp for standing or hanging. Finished in gold or brass. The lamp and shade can be turned in the holder for three-quarters of the full circle until they stop, and are fixed in any position by a ratchet. Besides, there are several holes on the back of the base for hanging the lamp on the wall, making possible as many combinations.

—This method of hanging the lamp in combination with the ability to turn the shade enables you to throw the lamp light to any point, and this makes the use of this lamp very agreeable, especially for reading in bed. The lamp illustrated shows the lamp used on a table. This is a practical as well as an ornamental lamp.

—Sixth Floor.

Beautiful Lines the Secret of the Superiority of Our \$5.00 Untrimmed Hats Special Wednesday \$3.98

—These hats are smart, because their lines are correct. In new small shapes which are so much in evidence this season.

Of Silk Plush, Panne Velvet and Hatters' Plush

—Many with soft velvet brims. The very newest and smartest styles, in medium and small and sailor effects, will be found in this sale. Hats that are designed with soft crowns that easily adjust themselves to the head, producing a most becoming effect. There are hats in all black and others in handsome color combinations.

Second Floor.

A \$58.50 Domestic Rotary Sewing Machine for \$38.75

—This 1913 model Domestic Rotary Sewing Machine is superior in every detail, and has all the latest improvements. It sews faster, is noiseless and runs easier than any other machine. Truly a master sewing machine in the fullest meaning of the word.

Sold With a Twenty-Year Guarantee—\$1.00 Down, \$1.00 Week.

Fifth Floor.

HORSE AND DOG HEROS

DROWNING MAN RESCUED BY HELP OF ANIMALS.

Policeman's Mount Takes Honors From Canine Which Tries to Call for Aid.

NEW YORK, Sept. 16.—While swimming off the Parkway Bath at Brighton Beach late yesterday afternoon, John Condrick, a young Greek waiter employed at the Shelburne Hotel, Coney Island, was taken with a cramp.

He yelled for help.

No one was close to him. The nearest was Mrs. Carl Heberland, owner of Don, known in vaudeville as "the

speaking dog." Mrs. Heberland and Don started toward Condrick.

Half a dozen press agents (whose stories Mrs. Heberland, being a lady, wouldn't deny) assert that Don tried to keep the waiter afloat. Some of them were positive that the dog spoke the word "Help."

But another animal gets all the honors. Although Don really was somewhere in the offing.

Someone ashore blew a police whistle. Two blocks away Mounted Patrolman Edward Cody was sitting astride his big bay horse Ruler. He galloped to the beach in front of the baths and the crowd pointed out the struggling Greek.

Cody cannot swim, and he did not know whether Ruler could. But he took a chance and rushed the big bay into the surf. Ruler obeyed. That had long been his business—going where Cody told him. So out he swam until he reached Condrick, whereupon Cody, leaning over, held the Greek's head out of water.

PRINTING PAY OPPOSED

MRS. DUNIWAY WILL GET ABOUT \$3000 FROM STATE.

Protest Made Against W. M. Plimpton, Secretary of Board, Not Taken Up by Board.

CENTRALIA, Wash., Sept. 16.—(Special.)—Centralia Lodge, No. 551, International Brotherhood of Electrical Workers, was organized here last night by D. T. Morgenthau, president of the union. The new local is composed of Tacoma, Seattle and Aberdeen members who are working in Centralia and Chehalis, and its jurisdiction extends to Kalama, South Bend and Tenino.

SALEM, Or., Sept. 16.—(Special.)—Despite a protest by State Printer Harris, the State Printing Board Monday decided to pay Mrs. W. S. Duniway, widow of the late State Printer, for work done on old contracts at the same rate that Mr. Duniway was paid. Mr. Harris insisted that she should be paid under the present rate, which he said would save the state money. Treasurer Kay and Secretary of State Olcott said

that after Mrs. Duniway's death the agent of Mrs. Duniway had been asked to finish the work on hand and therefore a contract had been entered into. Mr. Harris did not show what the new rate was. As a result of the decision Mrs. Duniway will receive about \$3000 for work which has been finished since her husband's death.

Attention was called to letters written to the individual members of the board by a committee representing Multnomah Typographical Union No. 55 protesting against the retention of W. M. Plimpton as secretary of the board on the ground that he is not a type-setter of five years' consecutive experience. The board took no action because no letter was directed to it. The law provides that the secretary must be a "practical printer of five years' experience." Mr. Plimpton contends he is a "practical printer."

A request was made by the State Printer that he be paid \$1200 of type, machine, etc., be purchased, but no action was taken.
