FARMERS EAGER TO LEARN OF ALFALFA

Many Meet Holden Special, While Speakers Go to Those Who Can't.

EXPERTS ARE CATECHISED

Soil Tests Are Explained and Abstract Theory Gives Place to Practical Talks-Side Trips Gridiron Rich Section.

ST. JOHN, Wash., Sept. 26,-(Special.)-The Holden Inland Empire Alfalfa Campaign special carrying Professor Perry G. Holden and his party of assistants arrived here this afternoon at 4 o'clock, completing the sec-ond day of a five weeks' tour of the Inland Empire.

Inland Empire.

At every stop large enthusiastic crowds greeted the arrival of the train and the interested farmers surged about the speakers eager to learn the wonderful story of alfalfa. Question after question was fired at the experts and the meetings took the form of a regular class in alfalfa raising rather than an ordinary farming lecture.

regular class in anathra assays than an ordinary farming lecture.

Soil tests were held at every meeting and the farmers were taught how to test for lime in the soil. The speakers got down to the practical side of raising alfalfa and eliminated as much as possible the abstract theory from their discussion.

Crowds Gather Early.

Crowds Gather Early.

The first stop after leaving Tekoa, where the train remained over night was at 5:30 this morning at Oakesdale where an enthusiastic crowd met the train at the depot. The different speakers immediately left for the various meetings arranged for by the local committee of which J. W. Martin was chairman.

Charles W. Farr addressed 125 at the local high school. W. R. Baughman, of the Holden party, C. B. Kegley, master of the Washington State of the Holden party. C. B. Restey, master of the Washington State Grange; J. H. Tormey, of Washington State College, and W. D. Foster, superintendent of the college farm of Washington State College made demonstrations in the country, while R. W. Lamson, of the Holden party, spoke to a large audience at the depot.

Plowing Held Essential. "The only practical way to raise affalfa is to first plow in the Fall," said W. D. Foster in his talk to the farmers gathered at the home of A. G. Woodward, seven miles east of Oakesdale, "Plow carefully allowing none of the ground to remain unturned then dale. "Plow carefully allowing none of the ground to remain unturned, then early in the Spring harrow once or twice leaving a good muich on top. Next use the disc cutting shallow so as to furnish a good firm bottom for the seed. Do not seed until after all danger of frost is over and not more than six pounds of seed is needed to the acre. Alfalfa is a tender plant and needs plenty of care and nursing, but the return to the farmer fully repays him for the expenditure. The land in this locality seems to be adapted for alfalfa raising. The yield is often two crops on the non-irrigated land. It is pastured after the first cutting."

Among some of those who have al-

delegation and a special special man, mattee with Ralph Coemegys, chairman, had arranged a luncheon for the members of the Holden party. The speakers at Thornton were: Professor C. L. Smith and J. E. Waggener while C. W. Farr, J. H Tormey, W B. Foster and C. B Kegley, motored out in the country to address the farmers close to the

Silo construction was urged by all the members of the party and many of the farmers announced their intention of building one next year. Divertion of building one next year. Diverting the many to be seen that the members of the party and many dee.

Frederick W. Paul scored 97.8, age sined farming as favored by Professor Holden and his assistants met with the hearty approval of practically every farmer in the iniand Empire where the corn and sifalfa special has thus far visited, said John Scott Mills, who is the special representative of the O.-W. H. & N. and who is in personal charge Eac

100 Guther at Sunset.

At 2 o'clock this afternoon the train stopped at Sunset for an hour's stay and the visit was but a duplicate of the meetings this morning at Oakes-dale and Thornton. A crowd of 100 met the train at the depot and displayed the same enthusiasm as characterized the meetings earlier in the day. A reception committee, of which acterized the mechanisms, met the day. A reception committee, of which day. A reception committee, of which day. A reception committee of the St. John Commercial club, Parry Terhune, president of the St. John Commercial club, Parry Terhune, president of the St. John Commercial day.

Nine Side Trips Arranged. Following the wishes of Professor Holden to take the gospel of diversified farming and alfalfa right to the door of the farmer, nine side trips were arranged by the committee for this part of the country. The speakers who made the country trips were Charles W. Farr, at Enterprise: J. E. Waggoner, at Kamiah; C. B. Kegley, at Ewan; W. R. Baughman, at Lancaster: J. H. Tormey, at Sutter Ranch; W. ter: J. H. Tormey, at Sutter Ranch; W. D. Foster, at Delong Ranch; W. R. Sker, at Lindley district; R. W. Lamson, at Eccles district; C. L. Smith, at Shoudy ranch. Each of these meet-

Shoudy ranch. Shoudy ranch. Each of these meetings averaged about 40 in attendance. At 7:30 this evening C. L. Smith addressed more than 500 at the Methodist Church, while Charles W. Farr held a meeting for the children at the

After the meetings tonight the Com-mercial Club entertained the Holden party at a banquet, at which Parry Terhune, president of the club, acted as toastmaster.

FRITZ DE ROCK ON WAY TO DANGEROUS WORK.

HOOD RIVER, Or., Sept. 26.—(Special.)—Diver Fritz DeRock is now busily engaged in making repairs on the gates and walls of the locks at Cascade Locks. New bolts are being placed in the middle of the gate of the waterway around the rapids and cascades of the Columbia at this point. The bolts that are being removed have been in the structure for the past 17 years. Other important improvements are being made on the locks by the United States engineer office. In the photograph shown, the diver is just preparing to go down for his shift of work. The man at the left holding the telephone is Joseph M. Buttz, foreman of the improvement work. Diver DeRock is constantly in communication with his helpers by means of a telephone. Mr. Buttz is seen with the receiver of this instrument to his ear.

State Pays for Flowers for Executive's Office, Says Representative Davis.

ABERDEEN, Wash., Sept. 26 .- (Spe cial.)—The extravagance of the present state administration is largely responsible for the high tax in this state year, according to Representative Davis, of Pierce County, chairman of the House appropriations committee of the last Legislature.

Mr. Davis accuses Governor Lister of buying flowers at state's expense for the adornment of the executive offices at Olympia; of spending extravagantly for the maintenance of the executive mansion, and practically declares that a Democratic state organization to perpetuate that party in power is being built at the expense of the taxpayers

of the state. Mr. Davis, who is here today from his home in Tacoma, has been chairman of the House appropriations committee for

"The only chance to save at the last re only chance to save at the last session was on roads. Governor Lister dictated the terms of the road bills that were passed," said Mr. Davis. "He put in the amounts. The responsibility for this tax rests squarely on the shoulders of the Governor and he can-not evade it.

not evade it.

"The cost of living is going up around Olympia. Two years ago the Legislature appropriated \$4000 on Governor Hay's estimate of the cost of The object of the separation of the Utah and Idaho properties is to carry on extensive developments in the state of Idaho, in no way connected with the Utah property. The new company has lost no time in commencing extensive development work. An additional \$000-horse power plant is to be built on the Malad River, and delivery of the lumber will commence this week. Line material is being purchased for extending the main transmission system from the Malad station to Shoshone, Twin Falls and Buhl.

The Beaver River Power Company is to carry maintaining the Executive mansion for the blennium. When Governor Lister went into office there still remained \$540 in the fund which would have been enough to maintain the mansion on the scale of expenditure mapped out by Mr. Hay until the new appropriation could be available. But the Legislature appropriated \$750 at Governor Lister's request. He spent that and the \$540 left by Hay and then presented an estimate for \$6000 for the cost of maintaining the mansion for the blennium. the current biennium

Chauffeur's Bathtub Example.

"This was an increase of 50 per cent over the Hay expenditures. A garage has been built at the mansion with fine porcelain bathtub for the chauf-feur out of this appropriation and on the Governor's desk at Olympia flowers are now to be found every day paid for by the state. I guess Hay must have paid for his own flowers.

"A Governor that can make so free with the state's money in his own of the country has expected to give the state."

fice can't be expected to give the state an economical administration. The in-crease may not be much, but it all elps in the tax list.

helps in the tax list.

"At Lister's request, the Legislature created an agricultural commissioner to eliminate, according to the Governor, a lot of supposedly high-salaried commissions. This was good campaign material. This new department costs more than all the old commissions put together. Just to help things out, the commissioner has ordered, so I am told. commissioner has ordered, so I am told, his entire staff to be present, at state expense, of course, at the State Fair next week. Only one stenographer is to be left in the office at Olympia. That makes a nice little working force to cultivate a Democratic organization to the farmers who happen to at the farmer who happen to be at the farmer who happen to at the farmer who happ

SALES IN WEEK AT SPOKANE AND HOOD RIVER BIG.

a Car and Total for Season to Date Is Near \$1,000,000.

HOOD RIVER, Or., Sept. 26.—(Special.)—"During the past week," said H. F. Davidson, president of the North Fruit Distributors, who has just returned here from a meeting of the board of trustees in Spokane, "from our two offices, here and at Spofrom our two offices, here and at Spotakane, we have soid 6000 carloads of apples valued at \$1000 a car, making the sales total to date \$1,000,000. The Spokane office has already handled more than 1200 carloads of fruit this year, and according to estimates will handle 5000 cars of fruit and 3000 cars

of potatoes.

"Fifteen new local associations were affiliated with the distributors at our recent meeting and we now have 104 organizations shipping through the central agency. The sales that have already been made consist of a satisfactory preparation of Hood Pives for tory proportion of Hood River fruit, mostly Spitzenburgs and Newtowns, but consisting of other varieties, also. "The past two weeks growing weather, when the days were warm and sunny, has increased the size of the local fruit materially and we find a very satisfactory proportion of large sizes and good color. I went out in the Willow Flat district of the local orchards after returning home from the Fair westers' meeting and spent the night. Suc-

ing. But this is just the thing for good color." Mr. Davidson says that growers of all districts are now interested in the movement that was begun recently in Portland, when a resolution calling for a conference of growers at the Spokane Apple Show in November for the pur-pose of forming a protective league was adopted. This league will be similar to the Citrus Protective League of Cal-

ifornia.

Hood River Minister to Take Trip. HOOD RIVER, Or., Sept. 26 .- (Spe-HOOD RIVER, Or., Sept. 20.—(Special.)—Rev. J. H. Swift, who has been pastor of the First Christian Church of this city for the past year, will preach his farewell sermon here Sunday. Rev. Mr. Swift and his family will sait from Portland next week for a cruise along the coast of Western Mexico and continue around the Horn. "We expect to locate at Tampico, on the gulf," said Mr. Swift, "where I will resume my religious work."
