

SENATOR LODGE IN CRITICAL CONDITION

Failure to Rally After Operation Friday for Gastric Ulcer Causes Fears.

ILLNESS SECRET FOR TIME

Physicians Say Recovery Is Largely Matter of Vitality—Senator So Tired Before Operation That Strength Is Much Weakened.

NAHANT, Mass., Sept. 29.—Henry Cabot Lodge, United States Senator, senior member of the Massachusetts delegation in Congress, who was operated on Friday for a gastric ulcer, according to his physician tonight, was "not entirely out of danger."

News of the Senator's illness leaked out by accident today. Then it was learned that for 24 hours following the operation his life had been despaired of. The operation itself, his physician said, was successful, but the patient, weakened by his labors at the extra session of Congress, did not have the vitality to rally promptly from the shock. His recovery, according to Dr. B. F. Harrington, one of his physicians, largely is a matter of vitality, in which his 84 years and the fact that he was a tired man previous to the operation, must be taken into consideration.

Secretary Issues Statement. The silence of the Lodge house at Eastern Point was broken for the first time since the Senator's return from Washington by his secretary, E. T. Clark, who gave out the following statement tonight:

"Senator Lodge was operated on last Friday for a gastric ulcer. The Senator had been suffering for some days with what was thought to be an attack of indigestion, but his condition became so critical that the physicians found an immediate operation necessary. Dr. Harrington and Dr. Winslow, who are in charge of the case, today pronounced the Senator's condition entirely satisfactory."

Even some of the Senator's most intimate friends were surprised to learn of the serious nature of his illness. He had returned from Washington ten days ago, complaining that he was tired and wanted a rest. In the seclusion of his estate on Massachusetts Bay he took many short strolls, but on Wednesday he complained of the increasing severity of his indigestion. Thursday he called in the family physician, Dr. Laurence Cusick, who found the Senator suffering from an ulcer of the stomach. The doctor's diagnosis developed, he said, and he advised an immediate operation.

Senator Opposed to Operation. This met with the opposition of Senator Lodge who thought such a step unnecessary and believed that he was too weak to go under the knife.

The family, now greatly worried, called in Drs. Harrington and Winslow who confirmed the diagnosis of Dr. Cusick and said that an operation was necessary to save the patient's life. Mrs. Lodge, it is said, added her prayers to the doctor's advice and the Senator submitted to their will.

Dr. Harrington performed the operation Friday assisted by Dr. Winslow. A slight rally on Saturday was satisfactory to the physicians and another consultation was held Sunday. By this time a still further gain, though slight, offered more encouragement and Dr. Winslow's report on his condition late tonight as "excellent" indicated additional improvement.

Hundreds of telegrams and telephone messages poured in to the Senator's home tonight, when news of his illness became known. Secrecy had been maintained at the request of the surgeons, but it was said, and two policemen maintained a guard around the estate.

NECK BROKEN SINCE BABY DOCTOR PLEADS FOR CUSTODY OF SON SO HE CAN TREAT HIM.

NEW YORK, Sept. 29.—Dr. John Husson, a visiting surgeon of the Hahnemann Hospital, made an unusual plea before Justice Delaney for the custody of his 5-year-old son, John. Dr. Husson is being sued for a separation by Mrs. Jennie Husson, based on his alleged cruelty. The wife applied to the court for alimony of \$25 a week, saying that he earns \$500 a year and that he has offered her only \$10 a week. She also wants the boy.

In asking that he have the custody of his son Dr. Husson explained that the boy has lived since he was 13 months old with a broken neck. His neck was broken in two places, but, contrary to the opinions of surgeons, he lived through the mishap, until today not a trace of the affliction is apparent. Dr. Husson contends that unless the boy continues to receive "delicate and interested treatment" it will be impossible to preserve his life, and he can have that treatment only if under the immediate care of his father.

Justice Delaney reserved decision. The marital troubles of the Hussons first became public when Mrs. Husson filed a suit for \$50,000 damages against Mrs. Louise Riddell Park, a patient of the physician, who, she said, alienated her husband's affections. Dr. Husson denied the charges and said that his wife was jealous of his women patients and had caused him to lose much of his practice.

SCOTLAND YARD IS LOSER

LONDON, Sept. 27.—Scotland Yard lost its most gigantic and picturesque figure when Inspector William B. Kemp retired last week. Kemp was the biggest man physically in the metropolitan police force. He weighed over 300 pounds, and this, too, without an ounce of fat. He was over six and one-half feet tall, and was built generally on a titanic scale.

For many years he had charge of some of the toughest districts in London. He has the credit of the arrest of Chapman, one of the famous poisoners of England, years ago. He was afterward one of Superintendent Frost's right-hand men in solving the mystery of the murder of Belle Elmore by her husband, Dr. Crippen.

CHANGES ARE URGED

Undermeyer Criticises Present Currency Measure.

BILL TOO LOOSELY DRAWN

Proposal Made to Restrict Issue of Currency to Commercial Paper Representing Purchase or Sale of Negotiable Commodity.

WASHINGTON, Sept. 29.—General revision of the details of the Administration currency bill to insure the carrying out of the purposes of the measures was recommended today to the Senate banking and currency committee by Samuel Undermeyer, of New York.

Criticizing the bill's definition of "commercial paper," on which currency would be issued as "locks and unretained," Mr. Undermeyer said the lines should be strictly drawn to allow the issue of currency only on commercial paper representing the purchase or sale of a commodity which would enter into commerce.

Mr. Undermeyer also recommended altering the plan of organization from the proposed regional reserve banks. He would give the National banks 90 days in which to subscribe the capital and deposits for the regional banks, and if it were not forthcoming would throw the stock books open to public subscription, closely restricting the powers of the subscribers in controlling the bank. This plan, he said, would tend to force the banks to enter the system.

The bill as now framed, Mr. Undermeyer said, gave the banks themselves too much power in the organization and control of the proposed new system. He recommended that the proposed "advisory council" of bankers as an adjunct to the Federal reserve board be abolished, and that closer powers of regulation and removal over regional reserve directors elected by the banks be given the government. He urged, however, that the banks receive a flat profit of 6 per cent on their investment in the regional banks and that the Government should receive all profits above that figure.

Right of the regional banks to enter the Great market in competition with the member banks is absolutely necessary, he said, in order that the regional banks might control and maintain the rate of discount which the bill gives them the right to fix.

Mr. Undermeyer disagreed flatly with a scheme advanced by Senators Reed, Hitchcock and Bristol, under which the Government would issue currency directly to the individual banks on their assets up to 75 per cent of their capital stock, with a provision of a 50 per cent gold reserve. This plan, he said, would be inelastic and impractical.

INCOME TAX BLANK IS BEING PREPARED

Failure to Receive Notice to Pay Will Not Exempt From Penalties.

MEASURE IS EXPLAINED

Treasury Department Arranges to Handle Flood of Questions Expected When Tariff Bill Becomes Law in Fact.

WASHINGTON, Sept. 29.—The Treasury Department is preparing for a flood of questions about the new income tax, realizing that this feature of the tariff bill about to become law strikes more intimately at the taxpayer citizen than do the indirect taxes collected through the customs' duties.

One of the first steps taken to get general information before the public will be to distribute income tax blanks through postoffices. Internal revenue officers and other Federal agencies. However, the fact that he does not receive a blank or a request to pay the tax will not exempt a taxable person from the penalties of the law.

Detailed Explanation Out. Representative Cordell Hull, of Tennessee, who drew the income tax provision of the tariff bill, made public today a detailed explanation of the tax plan as it will touch the individual citizen.

"The Treasury returns soon to be prepared will make clear to every taxpayer the requirements of the law and its application to income derived from the various kinds of business," said Mr. Hull. "Any person who keeps familiar with his business affairs during the year should have no difficulty in executing his tax return."

The income tax is divided into two phases, the normal tax of 1 per cent on the whole income above \$3000 and the additional tax that begins with an extra 1 per cent above \$20,000 and is graduated to 6 per cent above \$500,000. Wherever the income tax is paid at the source by a corporation for its employees or in similar cases, only the 1 per cent normal tax is so paid. The individual has to pay any additional tax himself. The provisions of the law requiring the tax to be withheld at the source does not take effect until November 1, 1913.

March 1, 1914, Is Limit. "For the first year the citizen will make return to the local internal revenue collector before March 1, 1914, as to his earnings from March 1, 1913, to the end of this year. The collector will notify him June 1 how much he owes and the tax must be paid by June 30. After next year the tax will apply on the full calendar year."

"If the income of a person is under \$3000 or if the tax on the same is withheld for payment at the source, or if the same is to be paid elsewhere in the United States, affidavit may be made to such fact, and thereupon no return will be required."

The tax covers all incomes of citizens of the United States whether living here or abroad; those of foreign-born living in the United States and the net incomes from property owned or business carried on in the United States by persons living abroad.

The net income includes all income from salaries or any compensation for personal services; incomes from trades, professions, business, commercial, property or real estate; from interest, rent, dividends from securities, for all business carried on for gain.

Requests Not Income. "Requests will not be considered income, nor will life insurance paid to a beneficiary or returned to the insured person as a 'paid up' or 'surrendered' policy, be taxable. Interest on such property will be included as income, however."

The amount that may be deducted from a total income includes the cost of carrying on business, actual losses.

"Firms, corporations and the like having the handling of interest, rents, salaries or other portions of the income of any citizen are compelled to deduct the tax for the individual and pay it to the Government. The individual then will receive a receipt showing he has paid his tax."

CONVICT'S MOTHER HELD

PARENT CHARGED WITH AIDING CRIMINAL-SUICIDE. Brother of Homer Wiggins Who Slew Self During Fight With Police and Two Others Arrested.

WILMINGTON, Del., Sept. 29.—The police today arrested Mrs. L. M. Wiggins, mother of Homer Wiggins, the escaped convict who killed himself early today after a sensational pistol battle with the police at a lodging house in this city. Wiggins' brother, Harvey, and two other men who lived at the McDermott house, were also taken into custody. All were charged with aiding and abetting a robbery and with receiving stolen goods.

The arrests were made after the police recovered \$1225 of the \$1323 stolen from the car barn office of a local trolley company September 9. Part of the money was found in Wiggins' clothing after he had committed suicide and the remainder was recovered from a tin can that had been buried in a chicken coop at the home of the convict's mother.
