

RICH GOLD MINES ON CITY PROPERTY

Ore Taken From Mount Tabor Park Strike Assays More Than \$1000 Ton.

PAY DIRT MAY BE WORKED

Commissioners and Park Official Consider Municipal Operation. Measures Taken to Protect Interests of Portland.

Portland may go into the mining business. Opportunity for a rich gold mine has developed at Mount Tabor Park, where ore has been uncovered by T. Tanna, park foreman, assaying \$1092.63 a ton in gold. That the strike, which was first made about three weeks ago, was really a strike did not become known until yesterday, when the Montana assay office completed an assay on a sample of the ore taken there by Park Superintendent Mischo.

When the announcement was made yesterday that the assay showed gold, Park Superintendent Mischo conferred with City Commissioner Brewster and arrangements were made immediately to protect the interests of the city. City Attorney La Roche was called into consultation, and after an investigation reported that under the act by which the land was originally acquired as a donation land claim, no exemption was made of mineral rights. For that reason it is said to be impossible for anyone to take the park property for mining purposes.

A complete investigation of the strike will be made to ascertain the extent of the ore. If it is considered practical, it is likely that the city will consider opening up a mine to take out the ore. Members of the City Commission, who heard the news of the find yesterday, were all in favor of a complete investigation being made. It is believed that all would favor mining the ore if there is any chance of it being profitable.

THE DYSPEPTIC'S DREAM IS A GOOD MEAL

And He Could Most Completely Enjoy It if He Ate a Stuart's Dyspepsia Tablet After It.

One of the greatest horrors to dyspepsia sufferers is the fear of food consequences. They know from past experiences that meats, vegetables and bread will not agree with them. The stomach tells them so and thus after awhile they actually learn to abhor such dishes.

"He could eat a meal like that if he took a Stuart's Dyspepsia Tablet."

Of course this fear of food is natural. It arises from an abused and diseased digestion, but the moment you put into the stomach along with the food you eat the very elements that will digest the meal you will suffer no ill effects, and thus lose your fear of food.

Such elements are contained in Stuart's Dyspepsia Tablets and they are so powerful and yet so thoroughly natural that of themselves, when placed in a glass of water with mixed food, they will actually digest that food.

More than the mere act of digesting the meal eaten, they go into the blood and thus enrich the digestive machinery of man so that when the next meal is eaten the fluids are stronger and more capable of doing their work.

A little Stuart's Dyspepsia Tablet taken after each meal will quickly restore the dyspeptic's digestion so he can enjoy the meal of his dreams in reality.

BUSINESS SHOWS GAIN

(Continued From First Page.)

September than during any September since figures were kept. Passenger traffic also has been good, both incoming and outgoing. Portland continues to hold its attractiveness for the tourist and the home-seeker and thousands of those two classes have passed through the city in the last few months.

Other lines of trade show equal activity. The "buyers' excursions" conducted by the manufacturers and the wholesalers helped swell business last month. Trade relations between Portland and the interior country were extended in many directions.

Retail business gradually is improving. While there is no actual boom in the line of trade the growth is steady and substantial.

- BLEEDING HEARTS' BILL. HISTORICAL PLAY OFFERING AT PEOPLES THEATER. Film Production Is of Struggle of Jews After Seeking Place of Refuge in Poland. "Bleeding Hearts," described as one of the most wonderful dramatic films ever made, will be shown at the Peoples Theater, West Park, and Alder, today. It tells the story of the oppression of the Jews and their sturdy fight for their faith. The story of the play follows: During the fourteenth century, after being driven from land to land, the Jews finally secured the right to live in Poland under King Casimir. A villainous Count having been apprised of the arrival of the Jews, tried to persuade the King to banish them. A good friend intervened and the Jews were permitted to remain. The Count plotted to incite an uprising against the Hebrews. The King met a Jewess, named Esther, daughter of the rabbi, and fell in love with her. She became also the object of the love of the Count, who abducted her and placed her in the care of an old Jew. The Count then informed the King that Esther had been
