

### STORM DOES HEAVY DAMAGE IN FRANCE

Fourteen Dead, 30 Injured and Many Missing After Terrific Thunder.

### STREAMS RISE RAPIDLY

Flood Causes Explosion of Calcium Carbide Stored in Hardware Establishment, Burying Five Families in Ruins

CEBERRE, France, Sept. 30.—A terrific thunder storm, which raged for 12 hours, has spread death and ruin throughout the city. Fourteen persons are known to have been killed and 30 injured, and there are many missing.

A stream which passes through the city was soon over its banks and flooded the streets. In a hardware establishment where large quantities of calcium carbide, alcohol and other inflammables and a cask of calcium carbide were stored, the water dissolved the chemical and enormous volumes of gas were formed. A terrific explosion occurred, which completely wrecked two buildings and enveloped two others in flames. Three persons who were passing were killed outright. Five families were buried in the ruins.

Nearly every house in Cebere is flooded and quantities of the provisions have been spoiled.

In answer to an urgent appeal from the Mayor, the prefect at Sorbignem dispatched several companies of troops to meet the pressing needs of the inhabitants. A company of infantry was rushed from Colons to assist in the rescue work and search the ruins.

### TORRENTS FALLING IN SPAIN

Many Towns and Villages Send Appeals for Aid.

MADRID, Sept. 30.—Torrential rains are falling throughout Spain. Great damage to crops and property is reported. Railroad and telegraph lines have been destroyed, rendering communication difficult.

Urgent appeals for aid have reached the Ministry of the Interior from many inundated villages and towns. At Barcelona the flood carried away a carriage with two children, who perished. Travelers from Valencia who have arrived at Barcelona, report that the crops all along the route have been destroyed. One village along this road was destroyed by the flood yesterday, and the ruins were flooded today, the water having risen ten feet in two hours.

The rivers Neva and Labregat are swollen to a height of 85 feet. The inhabitants of these districts have clambered into tree tops and house-tops and are awaiting the arrival of boats which have been sent to the rescue.

### SUICIDE HALTED BY CHILL

Leaburg Man Finds Water Too Cold, but Later Takes Poison.

EUGENE, Or., Sept. 30.—(Special.)—Finding the water of the McKenzie River near Leaburg exceedingly cold, Andrew Hickson, who plunged in the river yesterday, with the intention of committing suicide, swam out and took a dose of poison, from the effects of which he died an hour later.

Hickson, who was 34 years old, had threatened many times to commit suicide, and when he again made the threat and started toward the river, Jeff Harrel, a ranch hand, followed him. While Harrel was persuading Mrs. Hickson not to waste into the river to rescue her husband, the would-be suicide swam ashore. Concealed in the brush, he took notice of the man and said he had taken the poison and all efforts to save his life were in vain.
