COURTESY SAVES MAN \$25 Lack of Due Politeness Causes Acquitted One to Be Censured.

Courtesy saved J. A. Simon \$25 and the lack of it brought E. R. Ruby a public reprimand from Judge Dayton in District Court Tuesday when the case of the two, charged with having sold a pair of rancid lard to Mrs. Phila. Shedy, of 232 East Broadway, was being tried. Although the burden of evidence was against Simon, and Judge Dayton found him guilty, his courtesy in court, in direct contrast to that of his fellow-defendant, caused the fine to be remitted. Ruby was acquitted, but his actions in court and the testimony of his dealings with Mrs. Shedy brought him a lashing censure from the judge.

PLAY APPARATUS IS WORK Incinerator Grounds Will Be Filled In During Winter and Re-equipped.

To make possible the use of playground apparatus during the winter instead of storing it, City Commissioner Brewster yesterday ordered the removal of apparatus from the playground near the city incinerator on Guild's Lane, to the permanent building at the playground in Irvington. During the winter the incinerator playground, which was opened last Spring, will be regarded as closed. It was necessary to remove the apparatus and it was considered advisable to use it at Irvington. The incinerator ground will be given new apparatus in the Spring.

REED SOPHOMORES ARE GIVEN DUCKING

Freshmen Pull Second-Year Class Through Slimy Water of Crystal Lake.

1913 TRICK IS REPEATED Event Is Annual Class Tug-of-War and Is Witnessed by President Foster—Victims Covered With Malodorous Coat.

Thirteen freshmen at Reed College added laurels to their brows yesterday when they took the annual tug-of-war from the same number of sophomores.

While they lost the honors, the sophomores gained much that was unpleasant. At the conclusion of the college affair, the sophomores were over-garbed mainly in thick, sticky, green slime and mud, which adhered with the avidity of a crab pouncing on some unlucky bather's toe.

Considering that the 13 sophomores—yes, they all believe that 13 is unlucky—had been dragged at the end of a 50-foot rope across Crystal Springs Lake, the width of which is also about 50 feet, every foot of which is surfaced with three or four inches of heavy scum, their malodorous and unsightly appearance was not surprising. The freshmen "unfortunately" were unadorned in the pool, which appeared even more unpleasant as a bath than last year, in addition to being daubed externally with the Hibernal-colored mixture, the upper classmen were forced to partake, to some degree, of an internal application of the substance.

Sympathy Is Lacking. There was not much sympathy wasted on the sophomores in view of the fact that last year, as freshmen, they inflicted the same punishment on the sophomore class.

When President Foster snapped the starter's pistol the sophomores crossed the bank of the gressow-appearing pool, pulled and pulled. Every time they glimpsed the state of the pool, which appeared even more unpleasant as a bath than last year, they pulled harder, but the freshmen, feeling that it was their duty to submit the sopho to the same punishment as they had once inflicted, pulled the harder.

BURGLAR IS 'BOSSY' Woman, However, Disobeys and Flees Screaming.

Proving the theory that a woman will always do that which she is told not to do, Mrs. Clyde H. Reade, a young society matron, on entering her apartment in the Wilmar Wednesday afternoon, caused a burglar, whom she encountered, no little alarm.

Mrs. Reade describes him as slender, of medium height, not at all desperate looking, with blue eyes and light hair. One thing which impressed her strongly was the fact that he wore a dashing purple necktie and a brown hat and was "pale as a ghost."

Mrs. Reade notified the janitor of the building, but no trace of the intruder was found. No one in the building heard Mrs. Reade's screams, but several people across the street, who heard her cries for help, went to give her assistance.

DECISION IS HALTED Commission Gives Traction Company More Time.

Upon announcement by President Griffiths, of the Portland Railway, Light & Power Company, that his company has been unable to complete figures to use in contesting the proposed passage of an ordinance by the City Commission requiring the sale of six car tickets for 25 cents, the Commission yesterday voted 3 to 2 to grant the company an extension of 10 days' time. This arrangement was favorable to representatives of various clubs and organizations of the city, who were on hand to appeal for the passage of the ordinance.

FARE SOLUTION DELAYED Extension of 10 Days Granted So Portland Railway May Finish Appraisal—Loss by Ordinance Means \$382,000 Annually.

President Griffiths declared that his company has spent \$50,000 in preparing a statement of appraisal of property and objected strongly to the Commission throwing all of this into the discard without giving it any consideration. He said he could have the report completed within 10 days. The Commission, on motion of Commissioner Brewster, voted to give the company 10 days to complete the report and give the Commission 20 days to investigate it, after which the measure will come up for final passage.

stepdaughter, a minor, had been postponed. Deputy District Attorney McGuire said yesterday that until Judge Morrow returns he could not say when the case would be tried. The Judge's appearance in court is not expected until next week. Yesterday he still was confined to his bed suffering with an aggravated case of throat trouble. Last week against the advice of his physician Judge Morrow continued to attend court and hear a long case which he said he did not like to postpone having once started it. He was hardly able to speak Thursday and Friday but persisted in reporting daily.

The Commission, on motion of Commissioner Brewster, voted to give the company 10 days to complete the report and give the Commission 20 days to investigate it, after which the measure will come up for final passage.

This plan was supported by Commissioners Brewster and Dieck and by Mayor Albee, while Commissioners Daly and Higelow favored immediate passage of the ordinance. The Mayor in favoring the extension, said that his leanings were toward passing the ordinance, but of one service would only permit to permit it to get its case fairly before the Commission.

President Griffiths in an address declared that the reduction of fares would mean about \$382,000 a year loss to the company in revenue. He said this loss naturally would curtail the making of improvements and extension of the service. He said it is unwise for a city to take snap judgment on an ordinance which means but little to the patrons of the company, the reduction being only one-half cent on each fare and the aggregate loss to the company amounting to more than \$1000 a day.

Frank Motter, of the East Side, representing the various clubs, declared that he opposed the ordinance because it would mean the curtailment of the operations of the company in line extension and improvement of service. L. M. Lepper, representing the East Side Business Men's Club and other organizations, declared that curtailment of the operations of the company would only bring about municipal ownership. As one of the main champions of the reduction ordinance, Mr. Lepper did not object to its going over for a month.
