JAPAN ABANDONS LAND CONTENTION

Point That California Law Conflicts With Treaty Not to Be Insisted On.

NEW AGREEMENT SOUGHT

Secrecy Observed by Mutual Consent, and Attitude of State Department Toward Proposal Remains to Be Seen.

TOKIO, Oct. 1 .- It is understood that Japan and the United States are discussing the possibilities of arranging a new commercial treaty.

WASHINGTON, Oct. 1 .- Surprise was expressed today at the State Department at the report from Tokio that another note bearing on the California anti-allen land legislation had been dispatched to Washington. The last Japanese note, presented more than a Japanese note, presented more than a fortnight ago, remains unanswered, and it has been assumed that the negotiations would be held in abeyance until the return of Counsellor Moore, who has been in direct charge of the correspondence in the latest phases. Mr. Moore has been on a month's va-cation, and returned today to Wash-

By mutual agreement the principals have sought to maintain the strictest secrecy as to the various steps in the negotiations. It is reported here, how-ever, that the Japaness government has reached the conclusion that it cannot successfully meet the contention of the State Department, that the California land law is not in conflict with the existing treaty, and has decided to

seek a new convention.
Unofficial information from Japan indicates that Japan, instead of seeking to substitute for the Knox treaty ing to substitute for the Knox treaty of 1911 an entirely new convention of general scope, is inclined to ask for an agreement that will in conventional terms recognize the right of Japanese land ownership in any state of the United States on even terms with the citizens of any other nation. The attitude of the State Department re-

GLENESSLIN'S VOYAGE SLOW

Inquiry Made for Vessel Before Report of Wreck.

Evidently the Glenesslin was not making the best of her time on the run from Santos, for she was about a month longer on the way than the average windjammer requires for the voyage. She put out from Santos May 28 and was 125 days away from the Brazilian harbor when she met her doom at the foot of Necarney Mountain

A few hours before the report of the wreck reached Portland inquiry was nade at the Merchants' Exchange by representatives of the Portland Flour-ing Mills Company, which firm had the ship under charter to load wheat for the United Kingdom. No word has been received indicating that she was close at hand and because the veyage has

been done in 85 to 90 days, while 90 to 100 days is regarded as the average, it was thought full time that she was showing up.

The Gienesslin was an iron ship, built in 1885 at Liverpool, and her first

validated by Congress and this scrip is being used extensively in the Northwest.

BULL MOOSE SHORT OF CASH THIS YEAR

Plan to Have Candidate in Every District Subject to Money Considerations.

PARTY VOTE IS DWINDLING

Rich Men Who Were Liberal in Sea son of Enthusiasm for Roosevelt Not Expected to Keep Up Pace They Set.

OREGONIAN NEWS BUREAU, Washngton, Oct. 1 .- The National Progresive Congressional campaign committee, which has decided to run a third party candidate in every Congressional district in the country next year, has given no consideration to the question of finances, as admitted by Chairman Murdock and his right-hand man, Hine-

Practical politicians of long experience are of the opinion that the third party programme will be materially changed before the campaign gets well under way next Summer, unless the party is able to produce several liberal angels" willing to contribute liberally from their own fortunes to help along in the Congressional fight. These same politicians predict that the Bull Moose committee will find it difficult to find such liberal backers in the ranks of the party.

Rich Men Liberal Last Lear. The Bull Moose campaign of last year, when Theodore Roosevelt was making the race for the Presidency. was liberally financed, and men like George W. Perkins, Bill Flinn, Gifford Pinchot, Frank Munsey and Charles R. Crane went deep into their pockets to produce the wherewithal to carry on the fight. All through that campaign the Bull Moose leaders pleaded poverty, but it was later shown that these rich men, enthusiastic supporters of the Colonel, had been liberal in their individual contributions.

It is hardly to be supposed that these ame men, however, will care to dig ato their private wealth to finance a untry-wide Congressional campaign or they know, as everyone else knows, hat nothing substantial is to be gained y nominating Bull Moose candidates in ery Congressional district. Today ere are nine Bull Moose members in the House of Representatives, and they vere elected in the year when Colonel toosevelt was heading their party ticket and usually from districts where the Colonel's vote was overwhelming Since that election it has been demoustrated time and again that the Bull Moose vote has dwindled fully 50 per cent within a year, and if the disintegration continues for another year the third party will be far weaker in November, 1914, than it is today.

Secretary and His Wife Visit Fair on Wedding Anniversary.

FAIRFAX, Va., Oct. 1. — Secretary and Mrs. Bryan came to Fairfax today to celebrate the twenty-ninth anniversary of their wedding. They spent the day with Mrs. John S. Barbour, Mr. Bryan's cousin, and attended the county fair, where the Secretary was the principal speaker.

The Signs of the Times" was his subject and he discussed the efforts President Wilson is making to curb the power of great private interests.

"Virginia should be proud," he said, "that she gave built to he man was a second to be a factor, unless the cares to help out the boys" with a few speeches and letters of indorsement. He will not be on the ticket and will not swell the vote as he did last year. Therefore, unless the third party pulls to dogether again it is reasonable to assume that its representation in the next House will be smaller even than it is today. With this prospect staring to the party in the face, what incentive is there for wealthy members of the party to contribute large sums of month of practical results?

Without a well-filled war chest, the Bull Moses party to contribute war chest, the Bull Moses party to campaign destined to be barren of practical results?
