

RUSH SEASON FOR JEWISH RACE HERE

Rosh Hashanah, or New Year, Beginning Last Night, Observed in All Churches.

SPECIAL MUSIC RENDERED

At Temple Beth Israel, Rabbi Wise Speaks of Religion as Permanent Force in Material Well-Being of Humanity.

The Jewish holy season began at sundown last night with Rosh Hashanah, or New Year, and will end with Shemini Atzereth on the night of October 25. Services were held at all the Jewish churches in the city last night and there will be morning and night services today.

At Temple Beth Israel the ritual was read by Rabbi Wise and Harold Reinberg and the liturgy was intoned by the choir under the direction of Mrs. Rose Bloch Bauer.

Just as it seemed prepared to reach out toward universalism (not world conquest by creed, but human brotherhood as religious cult), two crippling reactions occurred. In its own midst a backward movement toward formalism made it a purely local cult.

The time lost, as is always the case, was never regained, the opportunity for a great social programme, such as was conceived by the prophets, the beating of swords into plowshares, the religion of justice, the manumission of the wage and chattel slave through land and economic readjustment, the walking of each man in his own righteousness, but of all in the brotherhood of humanity, was postponed.

All this is passing with the return of the prophetic concept of religion. Churches are beginning to think seriously of the benefit of man as well as the salvation of his soul.

Impressive music was rendered at Temple Beth Israel, Pinsuti's "Confidence," soprano by Mrs. Bauer, sung by Mrs. Rose Bloch Bauer and Norman Hoese, and "O Be Joyful" was rendered by Mrs. Bauer, Mrs. Delphine M. Norman, Hoese, and Dom J. Zan, with Edgar E. Courson at the organ.

Bears and Cougar Range Round and Make Themselves at Home on Ranch, Feasting on Fowls.

WOODLAND, Wash., Oct. 1.—(Special.)—Big game near Woodland has been plentiful this season. One day last week Henry Powell and Robert Robbins were hunting grouse three miles from Woodland when their dog started a commotion in the brush and discovered himself directly under a cougar, which the dog had treed.

Mr. Powell had but three shells in his gun, and with them succeeded in bringing the brute to the ground, only to have him climb another tree. Reloaded his gun, he finally dispatched the animal, which was a young one, but measured eight feet two inches. The Powells own a number of goats and some recent disappearances are probably due to Mr. Cougar.

Sunday a young bear walked into a few scratches.

REDS ASK FOR WATER

Yakima Rights Sought by Treaty Grant.

CONGRESS TAKES UP FIGHT

Committee Visits Toppensish and Confers With Redskins—Chief Salskiu, 87 Years Old, Guards Paper Safely 50 Years.

TOPPENISH, Wash., Oct. 1.—(Special.)—The joint Congressional committee, composed of Senators Robinson, of Arkansas, and Townsend, of Michigan; Representatives Carter, of Oklahoma; Stephens, of Texas, and Burke, of South Dakota, held an all-day session in Toppensish to hear complaints of the Indians in regard to discrimination against them in the use of the water of the Yakima River for irrigating.

The Indians' opinions varied a great deal. Many believed that they should control the use of the water, while others were satisfied with water for 40 acres, but all of the Indians were of the opinion that they should not be compelled to pay storage charges.

"The primary purpose of our visit," said Mr. Robinson, chairman of the committee, "is to investigate the necessity and the feasibility of procuring impounded water for the Yakima Indian reservation."

The question of contemplated treaty was freely discussed. Other matters claiming the attention of the committee were heretofore delays in the administration of the affairs of the Indians, especially in the making of allotments and the unsatisfactory laws against the sale of intoxicating liquors to the Indians on the Yakima reservation.

Chief Salskiu produced a copy of the original treaty of 1855, signed at Walla Walla, assigning them to certain lands, and according to the treaty and its contents the Indians were to have the exclusive right of all water and other things on the reservation lands. Chief Salskiu is 87 years old and has kept the copy guarded for more than 50 years.

There is a great difference of opinion among the old Indians and the younger generation. The youngsters believe in abiding by decisions of the Administration and following in the footsteps of their white brothers, while the older bucks declare no committee nor act of Congress has a right to set aside the laws enacted into their treaty with the Government.

The committee assured the Indians their support and left them the hope that matters would soon be adjusted in their favor.

Yell Defiance at Blood Disorders

A Remedy That Has Shown a Most Remarkable Purifying Effect.

The word Medicine is one of the most abused in our language. There are certain medicinal properties just as necessary to health as the food we eat. Take, for example, the well-known medicine S. S. S. This famous blood purifier contains medicinal components just as vital and essential to healthy blood as the elements of wheat, roast beef, the fats and the sugars that make up our daily ration. As a matter of fact, there is one ingredient in S. S. S. which serves the active purpose of stimulating each cellular part of the body to the healthy and vigorous secretion of its own essential nutrition. That is why it regenerates the blood supply; why it has such a tremendous influence in overcoming Rheumatism, Catarrh of the Stomach and Intestines, Skin eruptions and all blood troubles.

And in regenerating the tissues S. S. S. has a rapid and positive antidotal effect upon all those irritating influences that cause sore throat, weak eyes, loss of weight, thin, pale cheeks and that weariness of muscle and nerve that leads so many people into the dangerous path of stimulants and narcotics.

Get a bottle of S. S. S. at any drug store, and in a few days you will not only feel bright and energetic, but you will be the picture of new life. S. S. S. is prepared only in the Laboratory of The Swift Specific Co., 219 Swift Bldg., Atlanta, Ga., who maintain a very efficient medical department where all who have any blood disorder of a stubborn nature may consult freely.

S. S. S. is sold everywhere by drug stores, department and general stores. Don't permit anyone to sell you a substitute. Insist upon S. S. S.
